*Grinding It Out* Ray Kroc, Robert Anderson, 1992-04-15 Few entrepreneurs can claim to have changed the way we do business or the way we live. Ray Kroc is one of them. **Vision, Values, and Courage** Neil Snyder, 2010-06-15 Today, quality is the battleground on which global competition takes place, yet without effective leadership no quality program can succeed. This penetrating book exposes the problems that arise when leadership in business fails to do its job, and offers powerful, inspirational examples of firms that have confronted this problem and prevailed through leadership that aims at producing quality results. By highlighting the practices of such noted leaders as Walt Disney and Michael Eisner at Walt Disney, Ray Kroc at McDonald's, Sam Walton at Wal-Mart, David Kearns at Xerox, and Robert Galvin at Motorola, the authors reveal how each of these legendary leaders possessed three crucial leadership characteristics -- vision, strong values and beliefs, and the active courage to make their visions a reality. These characteristics, they show, make the difference between superior performance and business as usual. With eloquent case studies, the authors demonstrate that unusually successful business leaders show the way for their employees by nurturing cultures that encourage and reward quality performance and by exhibiting personal characteristics that inspire excellence. A leader dedicated to a single vision, the authors show, inspires personal commitment to a common purpose. Walt Disney had a vision of a company that would never stop creating, innovating, and growing. Values and beliefs serve as the basis for direction and action in a business. Superior leaders, the authors argue, are expert in the promotion of values -- such as Ray Kroc's obsession with high-quality, inexpensive food in a clean environment. The courage to make things happen is exhibited most dramatically by Sam Walton's perseverance in mass market retailing. The payoffs for these superior leaders included the loyalty and commitment of their employees, quality, and profits. The authors' approach to leadership for quality management -- with its focus on vision, values, and courage -- emphatically demonstrates what leaders must do to consistently produce quality results if they want their organizations to prosper and grow.

**The Dynamic Laws of Prosperity** Catherine Ponder, 2016-06-21 There's Gold Dust in the Air for You! This book is the

result of several recent recessions and many years of lean living. Nobody likes recessions and nobody likes lean living-and indeed nobody should like them. For fifteen years I tried to find such a book as this one. During those years of searching the book shelves, I found that there are many books which give various success ideas, but in none of them did I find a set of compact, simple laws for assuring success. I began searching for a book such as this after having been widowed and left with a small son to rear and educate. Since I had no training for work and no means of income, I would have given anything to have known then about the power of prosperous thinking. As soon as I grasped this wonderful success secret, the tide began to change! As you begin reading this book, no matter what the conditions of your life may now be, do so in this attitude of mind: There is gold dust in the air-for me... Get Your Copy Now.
