Unveiling the Sacred in 20th- and 21st-Century Latin American Literature Alexander Torres, Pablo Baisotti, 2025-10-23 Drawing on diverse scholarly and theoretical perspectives, this collection delves into the interplay between modernity and sacred traditions in contemporary Latin America as represented in its literature. It references important historical contexts, from the encounter of the Old and New Worlds to cultural mestizaje, highlighting the resilience of sacred discourse and experience amid a disenchanting capitalist modernity. Featuring analyses of diverse 20th- and 21st-century literary works, this book offers deep insights into how the sacred persists multifariously in Latin American literature. This work invites readers to rediscover the sacred as a vital component of human existence and literary discourse. It is an essential resource for understanding the complex relationship between modernity and the phenomenon of the sacred in Latin America.

Guardians of the Brazilian Amazon Rainforest: Environmental Organizations and Development Luiz C. Barbosa, 2015-05-08 The Amazon region is the focus of intense conflict between conservationists concerned with deforestation and advocates of agro-industrial development. This book focuses on the contributions of environmental organizations to the preservation of Brazilian Amazonia. It reveals how environmental organizations such as Greenpeace, Friends of the Earth, WWF and others have fought fiercely to stop deforestation in the region. It documents how the history of frontier expansion and environmental struggle in the region is linked to Brazil's position in an evolving capitalist world-economy. It is shown how Brazil's effort to become a developed country has led successive Brazilian governments to devise development projects for Amazonia. The author analyses how globalization has led to the expansion of international commodity chains in the region, particularly for mineral ores, soybeans and beef. He shows how environmental organizations have politicized these commodity chains as weapons of conservation, through boycotting certain products, while other pro-development groups within Brazil claim that such organizations threaten Brazil's sovereignty over its own resources.

Venezuela Rafael Uzcategui, 2012-01-01 A critical look at the Chavez regime from a leftist Venezuelan perspective, this account debunks claims made by Venezuelan and U.S. rightists that the regime is antidemocratic and dictatorial. Instead, the book argues that the Chavez government is one of a long line of Latin American populist organizations that have been ultimately subservient to the United States as well as multinational corporations. Explaining how autonomous Venezuelan

social, labor, and environmental movements have been systematically disempowered by the Chavez regime, this analysis contends that these movements are the basis of a truly democratic, revolutionary alternative.

Life Imprisonment and Human Rights Dirk van Zyl Smit, Catherine Appleton, 2016-12-01 In many jurisdictions today, life imprisonment is the most severe penalty that can be imposed. Despite this, it is a relatively under-researched form of punishment and no meaningful attempt has been made to understand its full human rights implications. This important collection fills that gap by addressing these two key questions: what is life imprisonment and what human rights are relevant to it? These questions are explored from the perspective of a range of jurisdictions, in essays that draw on both empirical and doctrinal research. Under the editorship of two leading scholars in the field, this innovative and important work will be a landmark publication in the field of penal studies and human rights.

The Neoliberal Pattern of Domination José Manuel Sánchez Bermúdez, 2012-06-21 At its current state of historical development, capital finds its internal contradictions tending towards an irresolvable character as manifested in multiple crises. Embodied in a fistful of gigantic transnational companies whose representatives seek consolidation as a global oligarchy, capital continues to concentrate its economic, political and military power as it produces a growing mass of redundant human beings, promotes conflicts that result in misery, chaos, social degradation and death, and destroys entire societies while razing the natural environment, thereby putting humanity itself at risk. The defense of life and the construction of renewed hope for a future require opposition to the domination of capital. This book seeks to contribute to that effort by setting out an analysis of the mechanisms in which capital is based.

Escenarios de inseguridad en América Latina y los actuales retos en Colombia Sonia Alda Mejías, Susana de Sousa Ferreira, 2017 El presente libro recoge un conjunto de trabajos a través de los cuales es posible conocer las últimas aportaciones que se están realizando desde el espacio académico, militar e institucional en los ámbitos de la seguridad y la defensa en América Latina. En este contexto, los temas abordados en el libro son particularmente oportunos, ya que con las aportaciones de prestigiosos autores se analiza la complejidad de dicho escenario y sus desafíos; las políticas de seguridad que se están aplicando, tanto sus virtudes como sus limitaciones; las fuerzas de seguridad que están actuando ante el tipo de amenazas dominantes; y las posibles alternativas o nuevas propuestas que pretenden aportar soluciones y mejorar la eficiencia y la eficacia de dichas fuerzas de seguridad. Cada uno de los capítulos que componen el presente libro ha sido

discutido en el marco de la IX Semana Iberoamericana de la Seguridad y la Defensa celebrada en Colombia en el mes de octubre de 2016, y organizada conjuntamente por el Instituto, la Universidad Militar Nueva Granada y la Escuela Superior de Guerra de Colombia. Este es el principal y más internacional evento que, de manera regular, viene convocando el Instituto Universitario General Gutierrez Mellado desde 2002, en absoluta coherencia con los objetivos funcionales del centro: fomentar espacios de reflexión y dialogo en cualquiera de los aspectos relacionados con la paz, la seguridad, la defensa y los asuntos militares; y promover la difusión de obras científicas a través de las investigaciones de los trabajos presentados por los especialistas que participan en ellas, tal y como es el caso en lo que se refiere a esta obra.--Page 4 of cover.

El lector podrá distinguir en estas páginas entre esa dimensión cultural y su posterior expresión política aplicada en los sucesivos períodos históricos, como bien exponen los autores de este libro a partir del estudio de un fenómeno rico y complejo, ligado a los rasgos antropológicos, históricos y filosóficos en las nuevas relaciones trasatlánticas desde el siglo XVI hasta el umbral de nuestros días.
