**Maxims of Thought** Richard Downing, 2008 We are constantly being told What to Think, but seldom How to Think. Maxims of Thought attempts to illustrate some of history's greatest (and least understood) thoughts, and how they apply to today's ongoing search for inner peace. As every age of history has passed, the great minds of that age have recorded clues as to the mastery of thought. These have been all but forgotten lessons we can employ in our day to day lives as we attempt to progress from mediocrity to excellence. Here, Downing has not only assembled some of the most important thoughts ever recorded, he has also broken them down as they relate to contemporary theories on personal growth. Really, this is a modern day How to Think guide using lessons dating from 600BC to present.

The Batting Doctors Cricket Team Wisdom The Batting Doctor, 2019-06-18 Many years ago I was lucky enough to meet well known cricket Sports Psychologist Sandy Gordon. At that meeting Sandy indicated that it was important for all teams and team members to continue to look to improve in all they do. Later I was fortunate to attend a Junior Cricket meeting where Mike Hussey spoke. Mike indicated that Sandy Gordon had impressed on the West Australian Team there was a genuine need for all to work together as a team. Sandy had suggested to Mike that he and the team needed to remember the following acronym: Together Each Achieve More The WISE quickly understand that there is a genuine need for all to continue to work to improve in all that is done. The WISE also better understand that so much more can be achieved when all in a TEAM work together. Over many centuries of human existence, the WISE have used these important ideals to achieve

unbelievable and sustained SUCCESS. Many examples of these outstanding achievements have been included to provide impetus for the reader to apply WISDOM in all that is done.

We all have a longing to be significant, to make a contribution, to be a part of something noble and purposeful. In *The Power of Significance*, you will find the pathway to a life that matters. Drawing on over 50 years of experience helping people around the world, John Maxwell gives practical guidance and motivation to get you started on your unique personal path to significance. Learn how to find your why, start small but believe big, and live every day as if it matters -- because it does!.

Intentional Living John C. Maxwell, 2015-10-06 John C. Maxwell, #1 New York Times bestselling author, helps readers take the first steps to living a life that matters in *Intentional Living*. We all have a longing to be significant. We want to make a contribution, to be a part of something noble and purposeful. But many people wrongly believe significance is unattainable. They worry that it's too big for them to achieve. That they have to have an amazing idea, be a certain age, have a lot of money, or be powerful or famous to make a real difference. The good news is that none of those things is necessary for you to achieve significance and create a lasting legacy. The only thing you need to achieve significance is to be intentional. And to do that, all you need to do is start. You can't make an impact sitting still and doing nothing. Every major accomplishment that's ever been achieved started with a first step. Sometimes it's hard; other times it's easy, but no matter what, you have to do it if you want to get anywhere in life. In *Intentional Living*, John Maxwell will help you take that first step, and the ones that follow, on your personal path through a life that matters.

**The Art of Business Wars** David Brown, 2021-04-13 Based on the chart-topping *Business Wars* podcast, stories and lessons from history's greatest business rivalries. Using Chinese military genius Sun Tzu's strategies as a guide, Brown examines why some companies triumph while others crumble. Business is a fight for survival. In business as in war, leaders match their wits in pursuit of opposing outcomes, they devise strategies, and marshal resources for victory. Success can turn on the smallest of details; a single tactical blunder can topple an empire. Ultimately, one side triumphs—and victory is all that matters. David Brown, host of the hit podcast *Business Wars*, masterfully frames some of the biggest business rivalries in history using revered Chinese military strategist Sun Tzu's insights and pragmatic advice. Each rivalry he examines tells a story of combined wits, strategies, and resources. Brown chronicles the rise of companies as they vanquish rivals, formulate innovative plans, and adapt to keep up with shifting societal needs. The goal? Stay ahead of the competition and emerge victorious as an industry titan. By compiling powerful insights uncovered over hundreds of episodes and more than a year of

in-depth research, Brown has developed a formula for business intrigue that uses popular history as a hook to lure readers in. The stories in *The Art of Business Wars* are fascinating, but the lessons we draw from them—about determination, ingenuity, patience, grit, subtlety, and other traits that contribute to a victorious enterprise—are invaluable, whether you're a software-slitting freelancer or the CEO of a multinational manufacturer.

For the first time, leading management consultant Deborah Tom and military chief Brigadier Richard Barrons reveal the secrets of modern military success.
