**Theatre in Market Economies** Michael McKinnie, 2021-02-04 Theatre in Market Economies explores the complex relationship between theatre and the market economy since the 1990s. Bringing together research from the arts and social sciences, the book proposes that theatre has increasingly taken up the mission of the 'mixed economy' by seeking to combine economic efficiency with social security while promoting liberal democracy. McKinnie situates this analysis within a wider context, in which the welfare state's tools have been used to regulate, ever more closely, the lives of citizens rather than the operations of markets. In the process, the book invites us to think in new ways about longstanding economic and political problems in and through the theatre: the nature of industry, productivity, citizenship, security and economic confidence. Theatre in Market Economies depicts a theatre that is not only a familiar cultural institution but is, in unexpected and often ambiguous ways, an exemplary political-economic one as well.

*Wings of Fancy* Joan Garner, 2006-09-30 Featuring scripts for well known classical fantasy stories, as well as more current entries into the genre, *Wings of Fancy* addresses subgenres such as: Fairies and Enchanted Creatures; Fantastic Beasts and Talking Animals. Each script offers a summary of the story with background information on the author and story, plus suggested further readings. Staging and presentation directions are included, as is a glossary of new and unfamiliar terms. Unlike most other books of this type, lesson plans and project ideas are also included for each story. Grades 4-8 The Readers Theatre series presents original scripts written for the purpose of teaching a specific literary genre. Each book is composed of 24-28 scripts, keyed to published books, plays, poems or stories in that genre, encouraging students to read the originals to accomplish the correlated project. Staging and presentation directions are included. Two-leveled (lower and

higher level) projects with all needed lesson plans, forms and discussion are also provided for each script.

Visualising Worlds Martyn Hudson,2021-08-19 This book examines the social production of our world, of the worlds of the past and of the worlds of the future, considering the ways in which worlds are created in both actuality and imagination. Bringing together central concepts of classical sociology, including social change, transformation, individuation, collectivisation and human imagination and practice, it draws lessons from the collapse of Graeco-Roman antiquity for our own world of virus and ecological disasters, considers the genesis of capitalism and intimates its ending. Rooted in classical sociology yet challenging its traditions and objects of study, *Visualising Worlds: World-Making and Social Theory* adopts new ways of thinking about visibility, aesthetics and how we 'see' social worlds, and how we then begin to build them. As such, it will appeal to scholars across the social sciences with interests in social theory, historical sociology, cultural studies, critical theory, archaeology, and the emergence, change and collapse of civilisations.

Powerless to resist him, Annabel was taken to his isolated home. There she was determined to uncover the truth about her past—and about the accident that had stolen her memory. But most of all, she was determined to discover the truth about her marriage. What would Luis gain by claiming her as his long-lost wife? And why did she want so much to believe it was true?
