

Smoke Signals By Sherman Alexie

Joanna Hearne

Smoke Signals Sherman Alexie, 1998 A bittersweet comedy about two young Native-Americans, Victor and Thomas, who leave their small town for an adventure in self-discovery.

Smoke Signals Joanna Hearne, 2012-12-01 *Smoke Signals* is a historical milestone in Native American filmmaking. Released in 1998 and based on a short-story collection by Sherman Alexie, it was the first wide-release feature film written, directed, coproduced, and acted by Native Americans. The most popular Native American film of all time, *Smoke Signals* is also an innovative work of cinematic storytelling that demands sustained critical attention in its own right. Embedded in *Smoke Signals*'s universal story of familial loss and renewal are uniquely Indigenous perspectives about political sovereignty, Hollywood's long history of misrepresentation, and the rise of Indigenous cinema across the twentieth and twenty-first centuries. Joanna Hearne's work foregrounds the voices of the filmmakers and performers—in interviews with Alexie and director Chris Eyre, among others—to explore the film's audiovisual and narrative strategies for speaking to multiple audiences. In particular, Hearne examines the filmmakers' appropriation of mainstream American popular culture forms to tell a Native story. Focusing in turn on the production and reception of the film and issues of performance, authenticity, social justice, and environmental history within the film's text and context, this in-depth introduction and analysis expands our understanding and deepens our enjoyment of a Native cinema landmark.

Smoke Signals Sherman Alexie, 2009-07-01 Among our greatest dramatic works that also makes for great student reading.

Engaging Film Tim Cresswell, Deborah Dixon, 2002 *Engaging Film* is a creative, interdisciplinary volume that explores the engagements among film, space, and identity and features a section on the use of films in the classroom as a critical pedagogical tool. Focusing on anti-essentialist themes in films and film production, this book examines how social and spatial identities are produced (or dissolved) in films and how mobility is used to create different experiences of time and space. From popular movies such as *Pulp Fiction*, *Bulworth*, *Terminator 2*, and *The Crying Game* to home movies and avant-garde films, the analyses and teaching methods in this collection will engage students and researchers in film and media studies, cultural geography, social theory, and cultural studies.

Native American Culture and Identity in Sherman Alexie's "Smoke Signals" and "The Business of Fancydancing" Kerstin

Schulze, 2011-05 Seminar paper from the year 2010 in the subject English Language and Literature Studies - Literature, grade: 2,3, University of Münster, language: English, abstract: Post-colonial literature is still present nowadays. Native Americans are living in the modern America but also in their own culture. Sherman Alexie has made notable movies about Native Americans living in modern North America. As a Native American by himself these movies might offer a new perspective on colonized people. Obviously, the field of post-colonialism is closely connected to his movies as the Native Americans have to deal with their history. There is no doubt that Native Americans possess an own identity and an own culture which is mixed up on their native and the non-native identity - a hybrid identity. In the following I will firstly introduce an election of important theorists of post-colonial studies and explain the key concepts that are vital for the upcoming analysis of the movies *Smoke Signals* and *The Business of Fancydancing*. After this I will have a closer look to selected scenes of both movies in order to detect indications of hybridity. To what extent are Native Americans coined by the Americanization and to what extent are the Native Americans keeping their own and independent culture or is it indistinguishable from the culture of their colonizers? I will try to expose the different cultural characteristics of indigenous identity, how these cultural traits are presented and if they give indication for their cultural identity. Is the primeval culture of the constellation of generation declined? In this paper I will give an answer to the question in what way this hybridity is reflected. What effect has hybridity on the perception of history?

Authorship in Film Adaptation Jack Boozer, 2009-06-03 Authoring a film adaptation of a literary source not only requires a media conversion but also a transformation as a result of the differing dramatic demands of cinema. The most critical central step in this transformation of a literary source to the screen is the writing of the screenplay. The screenplay usually serves to recruit producers, director, and actors; to attract capital investment; and to give focus to the conception and production of the film project. Often undergoing multiple revisions prior to production, the screenplay represents the crucial decisions of writer and director that will determine how and to what end the film will imitate or depart from its original source. *Authorship in Film Adaptation* is an accessible, provocative text that opens up new areas of discussion on the central process of adaptation surrounding the screenplay and screenwriter-director collaboration. In contrast to narrow binary comparisons of literary source text and film, the twelve essays in this collection also give attention to the underappreciated role of the screenplay and film pre-production that can signal the primary intention for a film. Divided into four parts, this collection looks first at the role of Hollywood's activist producers and major auteurs such as Hitchcock and Kubrick as they worked with screenwriters to formulate their audio-visual goals. The second part offers case studies of *Devil in a Blue Dress* and *The Sweet Hereafter*, for which the directors wrote their own adapted screenplays. Considering the variety of writer-director working relationships that are possible, Part III focuses on adaptations that alter genre, time, and place, and Part IV investigates adaptations that alter stories of romance, sexuality, and ethnicity.

100 Spiritual Movies to See before You Die John A. Zukowski, 2023-11-15 Spiritual themes are common in movies: The unconventional savior. The hero's journey. The redemption tale. The balance of creation. Journalist John A. Zukowski reflects on twelve major spiritual themes in the world of cinema, discussing films from *Dead Man Walking* to *Bruce Almighty*, from *Groundhog Day* to *Chariots of Fire*, and many more. See them all—read them all—before you die!

Humor and Its Pursued Strategies in "Smoke Signals" (1998) Annika Onken, 2012-02 Seminar paper from the year 2010 in the subject English Language and Literature Studies - Literature, grade: 1,7, University of Münster (Englisches Seminar), course: Negotiating Representations of Native Americans in Native American Feature Films, language: English, abstract: From the day when the first settlers landed on the American coast it had been reported back to their people in Europe what the Native population is like and how they create their cultural lives. Since that time, Native Americans have been externally conceptualized in various forms, as for example in form of the 'noble savage' or the 'vicious savage', and almost never as having a sense of humor (Gruber 142). Humor in connection with Native American characters has among other reasons been avoided by image makers for it would have allowed recipients to identify with such human characteristics (Gruber 7). This would have meant to invalidate a powerful colonial 'casting mold' for dehumanizing stereotypical images about Nativeness. This hegemonic tool proves to be the most enduring one of colonization by replacing guns and troops (Gruber 157) with occupied Non-Native minds. Filmic representation perpetuated these distorted ideas about Native Americans further by drawing on those widespread clichés and inventing new ones (Gruber 142; Mihelich 130), as for example the Native American 'ecologist' (Cornell 109) or the spiritual 'shaman' living in absolute piece with nature. Thus, till today Native Americans are confronted with the task of dealing with biased images of themselves which are externally imposed on them by the surrounding dominance of Non-Native societies and discourses. In this paper I will discuss how Native filmmakers Chris Eyre and Sherman Alexie effectively use just this powerful genre of popular culture to tackle habituated representations of Native Americans and offer Native versions of Nativeness. In *Smoke Signals* (1998) they rework and transform existing stereotypes by creating a me

Smoke Signals Perfection Learning Corporation, Sherman Alexie, 2010 Set in Arizona, *Smoke Signals* is the story of two Native American boys on a journey. Victor is the stoic, handsome son of an alcoholic father who has abandoned his family. Thomas is a gregarious, goofy young man who lost both his parents in a fire at a very young age. Through storytelling, Thomas makes every effort to connect with the people around him: Victor, in contrast, uses his quiet countenance to gain strength and confidence. When Victor's estranged father dies, the two men embark on an adventure to Phoenix to collect the ashes. Along the way, *Smoke Signals* illustrates the ties that bind these two very different young men and embraces the lessons they learn from one another.

American Lives, American Issues Robert S. Newman, 2003 Reflecting today's more personalized and openly contentious environment surrounding pluralism and diversity, this innovative anthology links autobiographical and argumentative writing in case-study fashion in order to explore the pros and cons of issues that arise in everyday life. Consists of two kinds of writings essays about individual lives (autobiographies, human-interest stories) and argumentative or analytic essays (often arranged in terms of opposing viewpoints). Stresses the importance of individual experience and the connection of that vital experience to analysis, generalization and reasoned argument, and helps readers learn to develop and ultimately define their own sense of pluralistic culture today. Groups readings under personal narratives, American places, pluralism, gender, homosexuality, religion, and change in America. Begins each chapter with an autobiographical essay or a human interest story to help readers understand the play of ambiguity and complexity in actual experience. Presents an informal approach to the essentials of argumentative essays by providing a healthy interplay of well-articulated opposing viewpoints on a range of pluralistic and multicultural discussions, emphasizing specific conflicts in generalization and support, and encouraging readers to work out their own understanding of the validity of the respective arguments or analysis. For users who wish to hone their argumentative writing skills, or for general readers interested in a diverse compilation of essays on pluralism, diversity and multiculturalism.
