Terence Conran's New House Book Terence Conran, 1985

Terence Conran's Inspiration Terence Conran, Stafford Cliff, 2009-04-01 People say that the most successful homes are the most sustaining and invigorating to live in, or even just to visit. This is true of Barton Court, the house in Berkshire where Terence Conran has made his country home since 1977. It has been a family home, a center to his Habitat Design business, a factory and studio for producing commercial and domestic furniture, a laboratory for testing his recipes and writing cookery books and has a working fruit, vegetable and herb garden, supplying produce for his restaurants. Through the objects that Terence has collected, and the things he finds on his travels, we can learn, not only about the man behind a multi-million dollar empire, but the processes that stimulate his creativity and the sources of his inspiration. In this part visual biography, part guided tour Terence Conran explains what he sees and what he should look for in good design and just what has inspired him through his varied career.

Ultimate House Book Terence Conran, 2006-08-01 Three years into the new millennium, Sir Terence Conran has once again reinvented his concept of home design, now a harmonious blur between public and private living with a soupcon of professionalism. The Conran movement (stores and style) began in 1974 with *The House Book* and was updated as *The New House Book* in 1985 and *The Essential House Book* in 1994. The significance of the newly added word home in the title should not be overlooked, as the author has gravitated toward LeCorbusier's 1927 statement: Everybody, quite rightly, dreams of sheltering himself in a sure and permanent home of his own. *Ultimate* appeals to this primal notion of belonging, starting with an aspirational, visual introduction before separating ideas into three distinct sections: home life, or the different stages of design, from first house to empty nest; home work, exploring all options for decorating, from paint versus plaster to remodeling versus new construction; and compendium, the nitty-gritty information so necessary to understanding and making design choices. A feat worthy of any bookshelf. Barbara Jacobs Copyright © American Library Association. All rights reserved

70s House Estelle Bilson,2023-03-30 I loved the 70s - and that's both the 1970s and the 1870s. There's obviously always something about a decade that starts with a seven that means the design dial is turned to 11; colours get bolder, shapes get badder and style flies its freak flag. So, thank goodness resplendent 70s temptress Estelle Bilson has committed pen to paper so that the world can enjoy her take on the era of soft squares, teak, shag and Artex. - Laurence Llewelyn-Bowen [Estelle Bilson] gives people the courage to use [her] products without fear - [she is] brilliant - I think [she] is the most important creative look since Conran. Barbara Hulanicki OBE From disco and glam to space age and psychedelic, there's no denying the huge impact the 70s had on style and design. But how do you bring the era's maximalism to your interior without it looking like a cluttered junk shop or a period pastiche? Estelle Bilson aka @70shousemanchester transformed her unremarkable 3-bedroom terraced home into a 70s wonderland, using a thrifty eye and vintage know-how. In her first book, she shows you how to bring the same creative magic to your home with her expert advice, tips and tricks on choosing colour, pattern, shapes and materials - whether you're after a few nods to the era, or the full 70s fantasy. 70s House is the definitive guide to the most daring decade in design, covering everything from shag carpets and supergraphics, to Hornsea ceramics and G Plan furniture. The book is split into three sections: 70s influences - what shaped the era?; How to bring the 70s to your interior design; and At home with 70s House Manchester. And of course, it wouldn't be the 70s without a good old-fashioned shindig - Estelle also reveals her secrets to throwing the grooviest get-together, complete with vintage recipes and record selections to match. Part interiors guide, part manual for living, this loud-and-proud book will bring not only 70s colour and kitsch to the modern day, but also the rebellious spirit, pure joy and freewheeling energy epitomised by the era. Because the 70s is so much more than the decade that taste forgot.

Decoding Homes and Houses Julianne Hanson,2003-10-16 Exploration of the relationship between the design of housing and domestic routine.

Eco House Book Terence Conran,2023-07-04 A complete guide to home improvement the environmentally friendly way: whether you want to redecorate or redesign your home, Terence Conran provides all the information you need to reduce your home's carbon footprint and improve the quality of your life. There is a great deal we can do to convert our existing homes into greener, healthier places to live. The Eco House Book explains how relatively small and economic changes can be made, including simple repairs to improve energy efficiency, water saving tips, and productive gardening, to more dramatic overhauls such as redesigning room use, converting basements and extending your home. Environmental issues should be part of every decision you make on the home front--from selecting fabric for soft furnishings to designing and siting a home extension. Special focus is given to reducing the vast amounts of energy and water that homes consume on a daily basis, with

advice on low energy lighting strategies and decorative choices, improving insulation and reducing energy use, the latest green heating systems, alternative ways of generating power, and electricity reducing appliances. As we are urged to change our lifestyles to reduce our carbon footprint and consumption of water, there has never been a better time to green your home.

Old House Interiors ,2002-07 National architectural magazine now in its fifteenth year, covering period-inspired design 1700–1950. Commissioned photographs show real homes, inspired by the past but livable. Historical and interpretive rooms are included; new construction, additions, and new kitchens and baths take their place along with restoration work. A feature on furniture appears in every issue. Product coverage is extensive. Experts offer advice for homeowners and designers on finishing, decorating, and furnishing period homes of every era. A garden feature, essays, archival material, events and exhibitions, and book reviews round out the editorial. Many readers claim the beautiful advertising—all of it design-related, no “lifestyle” ads—is as important to them as the articles.

Lifestyle revolution Ben Highmore,2023-02-21 In postwar Britain, journalists and politicians predicted that the class system would not survive a consumer culture where everyone had TVs and washing machines, and where more and more people owned their own homes. They were to be proved hopelessly wrong. Lifestyle revolution charts how class culture, rather than being destroyed by mass consumption, was remade from flat-pack furniture, Mediterranean cuisine and lifestyle magazines. Novelists, cartoonists and playwrights satirised the tastes of the emerging middle classes, while sociologists claimed that an entire population was suffering from 'status anxiety', but underneath it all, a new order was being constructed out of duvets, quiches and mayonnaise, easy chairs from Habitat, white emulsion paint and ubiquitous pine kitchen tables. More than just a world of symbolic goods, this was an intimate environment alive with new feelings and attitudes.

Design at Home Grace Lees Maffei,2013-12-17 Domestic advice literature is rich in information about design, ideals of domesticity, consumption and issues of identity, yet this literature remains a relatively neglected resource in comparison with magazines and film. Design at Home brings together etiquette, homemaking and home decoration advice as sources in the first systematic demonstration of the historical value of domestic advice literature as a genre of word and image, and a discourse of dominance. This book traces a transatlantic domestic dialogue between the UK and the US as the chapters explore issues of design, domesticity, consumption, social interaction and identity markers including class, gender and age. Areas covered include: • the use of domestic advice by historians • relationships between advice, housing and the middle class • links between advice and gender • advice and the teenage consumer Design at Home is essential reading for students and scholars of cultural and social history, design history, and cultural studies.
