Authoritarianism in All its Guises Daniel Burston, Kurt Jacobsen, 2025-03-31 *Authoritarianism in All its Guises* provides an interdisciplinary assessment of contemporary experiences of authoritarianism. Drawing on psychoanalysis and critical theory, contributors from a range of academic backgrounds consider authoritarianism as it manifests in a range of movements and contexts. The chapters investigate, interrogate, and, in some cases, clash creatively and revealingly over the meanings of contemporary experiences of authoritarianism across the political spectrum. The issues raised here not only compel us to come to grips with and clarify what constitutes modern authoritarianism but also what defines the Left in this stubbornly neoliberal age. *Authoritarianism in All its Guises* will be essential reading for academics and students of psychoanalysis, political and social psychology, sociology, history, and media and cultural studies.

Textbooks on Israel-Palestine Seyed Hadi Borhani, 2022-01-27 How is the Israel/Palestine question narrated in Western academia? What ideas dominate the key textbooks on the subject and what is presented as 'truth'? This book answers these critical questions. It is widely known that Western support of Israel played a vital role in the realization of Zionist objectives in Palestine. But academic support of Israel in the West has been a neglected issue, with Western academic knowledge being regarded as impartial and objective. This book reveals that this understanding of Western academic knowledge is wrong when it comes to the Israel/Palestine question. Rather, knowledge has been biased, misleading, and dogmatic and Western college students are subscribing to 'factual histories' based on theories at best, if not fiction. The book is the first empirical investigation able to document this partial reporting of history. Seyed Hadi Borhani examines the most popular college-level textbooks used to teach the history of the Israel/Palestine in Western universities, combining 'textbook analysis' (to determine how the dominant academic texts report the question) and a 'context analysis' (to identify who 'manufactures' the dominant knowledge). The book provides a historical map of how the Israel-Palestine conflict is understood in the West. The book can be used as a critique for students and professors to use alongside textbooks and is a vital and much-needed intervention into the state of affairs in Western academia.

Developing a Road Map for Engaging Diasporas in Development Dovelyn Rannveig Agunias, Kathleen Newland, 2012 State governments recognize the value diaspora populations bring to development efforts worldwide. Since 2007, the Global Forum on Migration and Development has examined ways to highlight policies and programs that can magnify the resources, both

human and financial, that emigrants and their descendants contribute to development. This handbook continues that effort on the basis of earlier investigations by the book's collaborating institutions, the academic and policy literature, consultations and in-depth interviews with government officials and nongovernmental actors, and input by 62 national governments. The handbook is divided into three major parts. Each part gives concrete examples of policies and programs that have been effective, and pulls out both useful lessons and common challenges associated with the topics at hand. The pivotal question now facing many policymakers is not so much if diasporas can benefit their countries of origin but how they do so and what kinds of government policies and programs can foster these relationships.

Create a Culture of Kindness in Middle School Naomi Drew,Christa Tinari,2017-10-02 Practical, research-based lessons for middle school educators to teach students pro-social attitudes and behaviors to prevent bullying. Create a Culture of Kindness in Middle School focuses on positive and pro-social attitudes and behaviors that build a respectful and compassionate school environment, while also addressing the tough issues of prejudice, anger, exclusion, and bullying. Through role-playing, perspective-taking, sharing, writing, discussion, and more, students develop the insights and skills they need to accept differences, resolve conflicts peacefully, stop bullying among peers, and create a community of kindness in their classrooms and school. Based on survey data gathered by the authors from more than 1,000 students, the book's research-based lessons are easy to implement and developmentally appropriate. Digital content includes student handouts from the book.

Field Excursions in Southern California Brian Kraatz,Jade Star Lackey,Joan E. Fryxell,2017-08-28 This guidebook volume for the 2016 GSA Cordilleran Section Meeting, which was held in Ontario, California, explores varied geological features of southern California and Nevada, including the Mojave Desert and Tule Springs Fossil Beds National Monument--
