The Key to Self-Discovery Russell C. Kick, 2004 This book is dedicated to my wife Jane, my angel guide. There is far more to you and life than you ever dared to dream. The Key to Self-Discovery shows in a very practical way how to realize your full potential and create a meaningful, happy and full life. The Key is a system known as The Holistic Way (The WAY) is designed to engender inner peace and harmony, and to help you to release the enormous potential within for greater love, intelligence, creativity and consciousness. The WAY helps you to discover who you are, the purpose of your life, and empowers you to create your own future. The Key to Self-Discovery is unique in its approach to seeking and finding the truth of self and life, and the realization all of you can be. The system presented in the book, The Way, is a synthesis of ancient wisdom and modern scientific research. The WAY consists of twelve guides that together provide a philosophy of life intended to give you the power to create, make a difference, find well being and self-worth, experience all that life has to offer, and guide you on the pathway to enlightenment. Music, visualization and effective original tools are presented to empower you to seek within and become your whole self.

Soul Power Guy McKanna, 2003 A monumental work, says Dr. Valerie Hunt, former professor at Columbia University, University of Iowa and University California, Los Angeles, and author of Infinite Mind. For thousands of years, people have questioned how the human soul works and expresses spirituality. Now, for the first time there is an objective answer grounded in science that explains spiritual phenomena. Soul Power: Science, Spirituality and the Search for the Soul brings together recent advances in neurobiology, physics and psychology and reconciles them with ancient texts and religious scriptures in a revealing new study of the soul. This groundbreaking book is the most comprehensive account of the science involved in spirituality. It details how some scientists have been able to recreate spiritual experiences in people, regardless of their beliefs. Soul Power's examination of what our heightened spiritual senses perceive has been described as the best

scientific evidence so far for the existence of God.

Energy Medicine for Women Donna Eden, David Feinstein, 2008-08-21 Even the most hard-nosed doctor will admit that some people have a healing presence that makes us--and our immune systems--better than before. Donna Eden is one of those rare healers. --Gloria Steinem *Energy Medicine for Women* was awarded the prestigious 2009 Nautilus Gold Award in the Health, Healing & Energy Medicine category. A women's guide to using energy medicine to promote and maintain optimal physical and mental well-being. For more than three decades, Donna Eden has been teaching people to understand the body as an energy system, to recognize their aches and pains as signals of energy imbalance, and to reclaim their natural healing capabilities. In this long-awaited new book, Eden speaks directly to women, showing them how they can work with energy to tackle the specific health challenges they face. Towards a Comparative Study of the Concept of Mind/consciousness in Western Science, Eastern Mysticism and American Indian Thought Mico T. Slattery, 2008 An integral study by Jeffrey Schwartz, M.D., further erodes the materialist position by successfully relieving Obsessive Compulsive Disorder patients of their symptoms through volitional Buddhist mindfulness techniques, causing neuronal rewiring by mental force acting upon the brain; something long believed impossible.

New Story, New God Dennis Pakula, 2000-07 *New Story, New God* is a startling, controversial new look at the Higher Power which boldly challenges the widely-accepted views of both scientific materialism and traditional religion. Where scientific materialism teaches the world and universe are not alive and act like machines, and traditional religions believe every human must look to an external savior, *New Story, New God* advances the ideas the world and universe are alive, progressing toward greater complexity and growth, and that every human is divine. To express our divinity, we must take full responsibility for our thoughts and beliefs, altering them to where we do not give away our energy and power to external forces or saviors. The Higher Power in *New Story, New God* is a non-local potential of energy and information -- non-local meaning existing everywhere. God is impersonal, non-moralistic, not perfect; i.e., grows and evolve, and exhibits properties of resonance, self-similarity, self-organization, self-determination, intensity and complexity.
