The Great Reset Marc Morano, 2022-08-30 Here is the antidote to the left's sinister push to use a worldwide crisis to infuse our lives with the values of colossal statism and dystopian self-hatred, all accelerated by the duplicitous manipulation of the recent pandemic. From the nationally best-selling author of *The Politically Incorrect Guide to Climate Change*. Welcome to 2030. I own nothing, have no privacy, and life has never been better. This is the vision of the Great Reset, according to globalist leaders. While proponents of the Great Reset push slogans like "Build Back Better," "The Fourth Industrial Revolution," and "A New Normal," the Reset is nothing short of a rebranded Soviet system, threatening to strip away property rights, restrict freedom of movement and association, and radically reshape our diets and way of life. In *The Great Reset: Global Elites and the Permanent Lockdown*, bestselling author and ClimateDepot.com publisher, Marc Morano, unveils the origins of the Great Reset, who is behind it, how it is being implemented, and how COVID-19 and the alleged "climate emergency" accelerated its imposition on the United States. Packed with telling statistics and damning quotes, *The Great Reset* is the essential handbook for the public, the media, and activists on how to critically analyze and expose the tyrannical policies silently strangling our liberties today.

COVID-19 The Conspiracy Theories David Gardner, 2022-08-18 Investigative journalist David Gardner turns his uncompromising gaze on the many conspiracy theories connected with the COVID pandemic. With first-hand reporting and detailed investigations into the people who originated these COVID theories - some of them plausible, some driven by an agenda, and some plainly mad - he answers the questions that everyone has been asking for nearly two years since the pandemic began, and left us doubting our leaders as never before. When COVID-19 struck early in 2020, first in China and inexorably through the rest of the world, it quickly became the subject of the most virulent outbreak of conspiracy theories we have ever seen. The pandemic quickly became an infodemic. The President of the United States championed bleach as a cure, the Chinese government blamed the Americans, and the American government blamed the Chinese - a Cold War over a cold virus. David Icke said that COVID does not exist. People blamed 5G phone networks, genetically modified crops, Bill Gates, Corona beer, aliens, bats and pangolins . . . Yet these theorists are not all the obsessive cultists and paranoid mavericks with whom the conspiracy-theory label is often associated. They are your parents, your next-door neighbour, your boss at work. The question marks over the origins of COVID-19, the dangers of the virus. The world has been changed for

ever by the events of the past two years. It is crucial that history offers an accurate account of what happened. This book will play a key role in revealing what - and what not - to believe.

Dark Future Glenn Beck, 2023-07-11 In *Dark Future: Uncovering the Great Reset's Terrifying Next Phase*, New York Times bestselling authors Glenn Beck and Justin Haskins reveal the most important technologies and social and cultural changes that will soon cause an unprecedented level of disruption in the United States, as well as in countless other nations. They also outline the dangers and opportunities associated with these disruptions and provide a plan to protect individuals and families from losing their liberty. --Amazon.

Why America Matters Michael Wilkerson, 2022-11-01 Who are we? Where are we going? And why are we so divided? *Why America Matters* addresses these questions and argues that the place Americans call home is worth fighting for. The widely held belief of past generations—that America is special, with an extraordinary role to play in the world—remains true, but has been undermined by external adversaries, internal contradictions, and weakness of vision. *Why America Matters* reveals how the nation faces four crises: extraordinary circumstances, confused identity, corrupt institutions, and inept policy engagement. The idea of America is under attack, yet many of our wounds are self-inflicted. Powerful forces within our country—hostile to the ideals of America—seem to be winning. These agents seek to rewrite America’s history, undermine its institutions, and silence those who don’t agree. All the while, America’s foreign adversaries prey on our divisions and weaknesses. America is neither declining nor dying, but in a winter season. Our current political and social crises represent fertile ground for national springtime and renewal, a process the nation has gone through before. While the country has never been more divided on partisan, cultural, and ideological lines, there is a path to achieve the unity and vigor necessary to confront the twenty-first century’s challenges. Americans must recognize and reject false ideologies; resist surveillance and tyranny; take back our communities, schools, and families; and assert our enshrined rights to free speech and privacy. The world recognized that America was great because America was good. America’s founding ideals, timeless values, and distinctive national character are needed now more than ever. But we can’t simply go back to the past. A new century requires a new vision of American greatness. *Why America Matters* points the way. “*Why America Matters* is an astonishing achievement. Wilkerson’s masterful synthesis of our history as it relates to where we are right at this moment—and how we can and must go forward—is an inestimable gift, and can hardly be praised enough.” —Eric Metaxas is the New York Times #1 bestselling author of *Bonhoeffer*, *Martin Luther, Is Atheism Dead?*, *If You Can Keep It*, and *Letter to the American Church*, and founder and host of *Socrates in the City* “*Why America Matters* is a courageous book. Wilkerson confronts the powers—both political and ideological, that have conspired to destroy our nation and its values. *Why America Matters* holds an urgent and timely message for anyone who cares about the future of this nation. *Why America Matters* is a must read for anyone seeking to understand what is happening to America, and more importantly, how to fix it!” —Matt Schlapp,

Chairman, Conservative Political Action Coalition (CPAC) “Michael Wilkerson has pulled off a mean feat with *Why America Matters*. As much as it is a crisply written lament for our fractured national identity, his tour de force also is a blueprint for a new generation who will be left to rebuild the moral capital squandered by their forebears. America has never mattered more, and Wilkerson makes the powerful case for a new exceptionalism that will require men and women of courage and virtue to join the resistance against tyranny.” —Miranda Devine, New York Post correspondent and bestselling author of *Laptop from Hell*

The Courage to Be Free Ron DeSantis, 2023-02-28 #1 NEW YORK TIMES BESTSELLER / #1 WALL STREET JOURNAL BESTSELLER / #1 PUBLISHER'S WEEKLY BESTSELLER / #1 AMAZON BESTSELLER No American leader has accomplished more for his state than Governor Ron DeSantis. Now he reveals how he did it. He played baseball for Yale, graduated with honors from Harvard Law School, and served in Iraq and in the halls of Congress. But in all these places, Ron DeSantis learned the same lesson: He didn't want to be part of the leftist elite. His heart was always for the people of Florida, one of the most diverse and culturally rich states in the union. Since becoming governor of the Sunshine State, he has fought—and won—battle after battle, defeating not just opposition from the political left, but a barrage of hostile media coverage proclaiming the end of the world. When he implemented COVID-19 policies based on evidence and focused on freedoms, the press launched a smear campaign against him, yet Florida's economy thrived, its education system outperformed the nation, and Florida's COVID mortality rate for seniors was lower than that in thirty-eight states. When he enacted policies to keep leftist political concepts like critical race theory and woke gender ideology out of Florida's classrooms, the media demagogued his actions, but parents across Florida rallied to his cause. Dishonest attacks from the media don't deter him. In fact, DeSantis keeps racking up wins for Floridians. In 2022, the governor delivered a historic, record-setting victory, winning by nearly 20 points and more than 1.5 million votes. A firsthand account from the blue-collar boy who grew up to take on Disney and Dr. Fauci, *The Courage to Be Free* delivers something rare from an elected leader: stories of victory. This book is a winning blueprint for patriots across the country. And it is a rallying cry for every American who wishes to preserve our liberties.

The 2030 Agenda and the Death of Freedom Benjamin Hunter, 2024-08-14 Discover the Threats Lurking Behind Global Initiatives Have you ever wondered what the future holds for your personal freedom? Dive deep into *The 2030 Agenda and the Death of Freedom*, a compelling exploration that reveals the hidden dangers behind global initiatives and the impact they have on your everyday life. A call to awareness: Starting with an eye-opening introduction, the book takes you on a journey through the intricacies of the 2030 Agenda, shedding light on the seemingly benevolent vision that masks a potential future of constrained liberties. By unpacking concepts like The Great Reset, and investigating the unchecked power of figures like Klaus Schwab and institutions like the UN, the book brings to surface the urgent need to scrutinize these global agendas.

The concern of personal intrusion: As you venture deeper, the narrative exposes the undercurrents of privacy violations with chapters on Digital IDs, governmental financial control, and the looming predominance of Central Bank Digital Currencies. Understand how these advancements, while innovative, pose significant risks to your personal autonomy and financial freedoms by turning surveillance and digital tracking into everyday realities. Highlighting real-world ramifications: This compelling read dissects the foundation of China's Social Credit System, providing poignant case studies, and paints a vivid picture of how similar systems could infiltrate societies worldwide. From education indoctrination to the overwhelming influence of Big Tech, every chapter reinforces the far-reaching impacts on individuals and small businesses alike. Empowering resistance: The concluding chapters are a rallying cry for advocacy and resistance. Learn about pivotal resistance movements, constitutional rights, and how international coalitions are forming to uphold freedoms. The book concludes with actionable steps for building a sustainable fight, encouraging readers to mobilize for a future where personal choice and economic freedom prevail. Engage with this indispensable narrative and prepare to be enlightened—and empowered—in the quest for preserving your freedom.
