The Building in the Text Roy Eriksen, 2010-11 In *The Building in the Text*, Roy Eriksen shows that Renaissance writers conceived of their texts in accordance with architectural principles. His approach opens the way to wide-ranging discussions of the structure and meaning of a variety of literary texts and also provides new insights into the famed architectural ekphrases of Alberti and Vasari. Analyzing such words as *plot*, *topos*, *fabrica*, and *stanza*, Eriksen discloses the fundamental spatial symmetries and complexities in the writings of Ariosto, Shakespeare, and Milton, among other major figures. Ultimately, his book uncovers and clarifies a tradition of literary architecture that is rooted in antiquity and based on correspondences regarded as ordering principles of the cosmos. Eriksen's book will be of interest to art historians, historians of literature, and those concerned with the classical heritage, rhetoric, music, and architecture.

Israel in Egypt James K. Hoffmeier, 1999-03-18 The author examines current Egyptological evidence and argues that it supports the biblical record concerning Israel in Egypt. Drawing on evidence from recent excavations in the Nile Delta, extra-biblical texts, inscriptions, artefacts, and recent infra-red satellite photographs, he provides a reconstruction of the Israelite sojourn, defends the plausibility of the Joseph story, discusses the role of Moses in history, and traces the probable route of the Exodus itself.

Finding Hope in the Lived Experience of Psychosis Patte Randal, Josephine Stanton, 2022-06-30 This book offers first-person accounts of the experience of psychosis from the inside and the outside, through the eyes of two doctors, one of whom has experienced psychosis and both of whom have worked for decades in the field of psychiatry. Underpinned by rigorous academic analysis using an evocative duo-ethnographic approach, the book explores the cultural and subcultural influences from childhood onwards – both traumatic and resilience-building – that have shaped their lives. Both authors reflect on strategies they learned early in life for dealing with challenges, each managing to function at a high level while avoiding awareness of their vulnerability. They reflect on the potential dangers of using their expertise and position of power in psychiatry simply to diagnose mental illness and prescribe medication. The differences and similarities in the authors' stories provide a productive tension highlighting the complexities of this paradigm shift that is happening in psychiatry. Written in the form of two interacting memoirs, this book is of great interest to researchers, clinicians, and practicing psychologists, as well as a general audience with interest in psychosis.

Restoring the Kingdom Michael A. Salmeier, 2011-07-01 In the book of Acts divine involvement is everywhere. From the beginning God is responsible for promised action, including the geographic expansion--in Jerusalem, and in all Judea and Samaria, and to the ends of the earth (1:7)--referenced in Jesus' response to the disciples, clearly related to Luke's purpose in writing the book. Geographic expansion, however, is only the second part of Jesus' reply. Is it possible that the first half of Jesus' reply--It is not for you to know the times or dates the Father has set by his own authority--has even greater bearing on the actions that follow and on Luke's purpose? Is the Father setting times and seasons related to the kingdom's establishment? Does this phrase explain the conspicuous divine involvement throughout the plot? In *Restoring the Kingdom*, Michael Salmeier answers these questions in the affirmative by exploring Luke's characterization of God in three strands: God as the King who establishes and restores Israel's king, who establishes his people, and who directs events. This unfolds Luke's purpose in assuring the reader concerning the events that have taken place, helping to more fully illuminate Luke's theology concerning God and his kingdom.

The Destruction of Da Derga's Hostel Ralph O'Connor, 2013-02-28 Irish saga literature represents the largest collection of vernacular narrative in existence from the early Middle Ages, using the tools of Christian literacy to retell myths and legends about the pagan past. This unique corpus remains marginal to standard histories of Western literature: its tales are widely read, but their literary artistry remains a puzzle to many even within Celtic studies. This book, the first to offer a systematic literary analysis of any single native Irish tale, aims to show how one particularly celebrated saga 'works' as a story: the Middle Irish tale *Togail Bruidne Da Derga* (*The Destruction of Da Derga's Hostel*), which James Carney called 'the finest saga of the early period'. This epic tale tells how the legendary king Conaire was raised by a shadowy Otherworld to the kingship of Tara and, after a fatal error of judgement, was hounded by spectres to an untimely death at Da Derga's Hostel at the hands of his own foster-brothers. By turns lyrical and laconic, and rich in native mythological imagery, the story is told with a dramatic intensity worthy of Greek tragedy, and the intricate symmetry of its narrative procedure recalls the visual patterning of illuminated manuscripts such as *The Book of Kells*. This book invites the reader to enjoy and understand this literary masterpiece, explaining its narrative artistry within its native, classical and biblical literary contexts. Against a historical backdrop of shifting ideologies of Christian kingship, it interprets the saga's possible significance for contemporary audiences as a questioning exploration of the challenges and paradoxes of kingship.

Priests in Exile Meron M. Piotrkowski, 2019-06-04 *Priests in Exile* is the first comprehensive scholarly opus in English to reconstruct the history of the mysterious Temple of Onias, a Jewish temple built by a Jerusalemite high priest in his Egyptian exile that functioned in parallel with the Temple of Jerusalem. Piotrkowski's book addresses a topic that is mysterious, important and anomalous: a Jewish community of mercenary priests in the (Egyptian) Diaspora in which the priestly sacrificial ritual was carried out daily over a period of more than two hundred years until the first century CE, outlasting the

Jerusalem Temple by about three years. Although the book focuses on the very circumscribed topic of the parallel Temple it casts a wide net, placing the story in the context of Jewish Diaspora life in ancient times. Ancient topics and texts are brought to bear, including papyri, epigraphy, archaeology, as well as the modern literature. Piotrkowski throws new light on a fascinating episode of ancient Jewish history that is usually left in the dark.

King and Kin Joel Rosenberg,1986 A useful addition to collections on the study of the Bible as literature. --Choice ... reflects not only on what the Bible is saying, but on how and why. The result is an illumination of the role of compositional art in the analysis of the past and its consequent political implications. --Shofar Clearly, there is much to gain from a careful reading of this book. --Journal of the American Oriental Society Joel Rosenberg explores the fundamental concepts and contradictions in the history of pre-exilic Israel, emphasizing the transition from tribal confederation to national kingdom. The result is a fascinating illumination of the role of compositional art in the analysis of the past and its consequent political implications.

Valerius Flaccus and Imperial Latin Epic Tim Stover,2023 This book explores the reception of Valerius Flaccus' Argonautica in the epic poems of Silius Italicus, Statius, and Claudian. Through analysing intertextual allusions to the Argonautica in these poems and their effects, it provides new clarity to the literary history of the Flavian period (69-96 CE).
