America's Political Class Under Fire David A. Horowitz, 2013-12-02 While the clash between what has been called the modern and undeveloped worlds has led to America's military involvement in the Middle East and other places, few people realize the tension between the modern and the traditional within the United States. Beginning in the 1920's, professional intellectuals and academics began influencing the nation's public policy on matters as diverse as education, economics, and public health. In this thoughtful work, David A. Horowitz analyzes the tension between the so-called New Class of knowledge professionals and their critics, who accused them of being out of touch with the common sense of everyday people, strangers to the American Way, even Communists. *America's Political Class Under Fire* is organized over nine periods of 20th-century history, providing a window into everything from the Scopes evolution trial and McCarthyism to affirmative action and the Clinton health care fiasco. Along the way, the book explores the New Left, populist conservatism, and the mid-90's reaction to political liberalism, which saw Newt Gingrich rise to the top post in the House of Representatives. In telling these stories, Horowitz seeks to encourage a more balanced and fair-minded assessment of the consequences of expertise and applied intellect to democratic existence in the United States.

Abuse, Power and Fearful Obedience Jennifer G. Bird, 2013-05-01 Jennifer G. Bird analyzes the construction of wives' subjectivity in 1 Peter, working primarily with what is referred to as the Haustafel (household code) section and engaging feminist critical questions, postcolonial theory and materialist theory in her analysis. Bird examines the two crucial labels for understanding Petrine Christian identity--'aliens and refugees' and 'royal priesthood and holy nation'--And finds them to stand in stark contrast with the commands and identity given to wives in the Haustafel section. Similarly, the command to 'honour the Emperor', which immediately precedes the Haustafel, engenders a rich discussion of the text's socio-political implications. The critical engagement of several 'symptomatic irruptions' within the commands to the wives uncovers the abusive dynamic underlying this section of the letter. Finally Bird considers the present-day implications of her study.--

The Geopolitics of Religious Soft Power Peter Mandaville,2023 The Geopolitics of Religious Soft Power represents the first globally comparative study of the varying ways in which states incorporate religion and religious outreach into their external relations. Each chapter demonstrates how the history, religious culture, and geopolitical orientation of a particular country determines its capacity for using religion as part of a soft power strategy while simultaneously dictating the nature and shape of its religious outreach activities, its intended audiences, and likelihood of success or impact.
