The Giver of Stars Jojo Moyes, 2022-02-22 #1 NEW YORK TIMES BESTSELLER | A REESE'S BOOK CLUB PICK “A great narrative about personal strength and really captures how books bring communities together.” —Reese Witherspoon From the author of the forthcoming *Someone Else's Shoes*, a breathtaking story of five extraordinary women and their remarkable journey through the mountains of Kentucky and beyond in Depression-era America Alice Wright marries handsome American Bennett Van Cleve, hoping to escape her stifling life in England. But small-town Kentucky quickly proves equally claustrophobic, especially living alongside her overbearing father-in-law. So when a call goes out for a team of women to deliver books as part of Eleanor Roosevelt's new traveling library, Alice signs on enthusiastically. The leader, and soon Alice's greatest ally, is Margery, a smart-talking, self-sufficient woman who's never asked a man's permission for anything. They will be joined by three other singular women who become known as the Packhorse Librarians of Kentucky. What happens to them--and to the men they love--becomes an unforgettable drama of loyalty, justice, humanity, and passion. These heroic women refuse to be cowed by men or by convention. And though they face all kinds of dangers in a landscape that is at times breathtakingly beautiful, at others brutal, they're committed to their job: bringing books to people who have never had any, arming them with facts that will change their lives. Based on a true story rooted in America's past, *The Giver of Stars* is unparalleled in its scope and epic in its storytelling. Funny, heartbreaking, enthralling, it is destined to become a modern classic--a richly rewarding novel of women's friendship, of true love, and of what happens when we reach beyond our grasp for the great beyond.

The Giver Lois Lowry, 2006 At the age of twelve, Jonas, a young boy from a seemingly utopian, futuristic world, is singled out to receive special training from The Giver, who alone holds the memories of the true joys and pain of life. An ALA Notable Book for Children & Newbery Medal Winner. Reissue.

The Giver Movie Tie-in Edition Lois Lowry, 2014-07-01 In Lois Lowry's Newbery Medal-winning classic, twelve-year-old Jonas lives in a seemingly ideal world. Not until he is given his life assignment as the Receiver does he begin to understand the dark secrets behind his fragile community. This movie tie-in edition features cover art from the movie and an exclusive Q&A with cast members, including Taylor Swift, Brenton Thwaites, and Cameron Monaghan. Life in the community where Jonas lives is idyllic. Designated birthmothers produce new children, who are assigned to appropriate family units. Citizens are assigned their partners and their jobs. No one thinks to ask questions. Everyone obeys. Everyone is the same. Except Jonas. Not until he is given his life assignment as the Receiver of Memory does he begin to understand the dark, complex secrets behind his fragile community. Gradually Jonas learns that power lies in feelings. But when his own power is put to the test—when he must try to save someone he loves—he may not be ready. Is it too soon? Or too late? *The Giver* has become one

of the most influential novels of our time. Don't miss the powerful companion novels in Lois Lowry's Giver Quartet: Gathering Blue, Messenger, and Son.

The First Astronomers Duane Hamacher,2022-03-01 The First Astronomers is the first book to reveal the rich knowledge of the stars and the planets held by First Peoples around the world. Our eyes have been drawn away from the skies to our screens. We no longer look to the stars to forecast the weather, predict the seasons or plant our gardens. Most of us cannot even see the Milky Way. But First Nations Elders around the world still maintain this knowledge, and there is much we can learn from them. These Elders are expert observers of the stars. They teach that everything on the land is reflected in the sky, and everything in the sky is reflected on the land. How does this work, and how can we better understand our place in the universe? Guided by six First Nations Elders, Duane Hamacher takes us on a journey across space and time to reveal the wisdom of the first astronomers. These living systems of knowledge challenge conventional ideas about the nature of science and the longevity of oral tradition. Indigenous science is dynamic, adapting to changes in the skies and on Earth, pointing the way for a world facing the profound disruptions of climate change. 'This book marks a profound paradigm shift in our understanding of Indigenous scientific traditions, how they are transmitted, and their relevance to life today.' - Professor Marcia Langton, University of Melbourne 'A ground-breaking book of enormous scope.' - Brian Schmidt, Nobel Laureate in Physics 'A glimpse into Indigenous ways of reading landscapes reflected in the night sky through ancient processes of inquiry.' - Dr Tyson Yunkaporta, author of Sand Talk 'A wonderful combination of scholarship and poetry.' - Dr Annette S. Lee, Lakota astrophysicist 'Beautiful, engaging, and startlingly profound.' - Alan Duffy, Professor of Astrophysics
