

The Faroe Islands Language

Homer Baxter Sprague

Faroe Islands James Proctor, 2024-04-29 This new, thoroughly updated sixth edition of Bradt's Faroe Islands remains the only English-language guide to this isolated, unspoiled Nordic archipelago, home to Tórshavn (the world's smallest capital), and where there are twice as many sheep as people - meaning that it's still possible to discover a way of life that is fast disappearing elsewhere in Europe, a place where sheep were fitted with cameras to help film for Google Streetview (locally dubbed Google 'Sheepview'). Visiting the Faroes is a chance to experience nature in the raw. Its breathtaking landscapes never fail to inspire, from the highest sea cliffs in Europe at Enniberg on the island of Viðoy to the dramatic seascapes at Akraberg, the southernmost point of the Faroes. Also included are details of how to reach even the remotest corners by bus using a travel card, information on changing seabird numbers in the North Atlantic, and details of where to go birdwatching and hiking. Written by expert author James Proctor, who has been visiting the Faroes since 1992, this guidebook offers detailed information about all 18 islands (including Mykines, whose year-round population is barely in double figures). Within the islands themselves, Bradt's Faroe Islands is recognised as the definitive source of information about the Faroes in the English language - and is widely respected as such. There's hands-on advice about where to stay and eat, how to get around - be it by local ferry, helicopter or your own hire car - and what to see and do. This latest edition includes all the most recent developments (including improvements in air, ferry and road travel - the latter including the world's only subsea roundabout) and provides all the information needed for a successful trip, with updated reviews of accommodation (plus Tórshavn's classy new hotels) and eating and drinking options. Whether you're visiting for the amazing birdlife, to walk some of Europe's least-known hiking trails or simply to sample real village life among the turf-roofed houses painted in a m  le of reds, yellows and blues, Bradt's Faroe Islands is the perfect companion.

The Nordic Languages Oskar Bandle, Lennart Elmevik, Gun Widmark, 2002 Annotation This handbook is conceived as a comprehensive history of the North Germanic languages from the oldest times up to the present day. Whereas most of the traditional presentations of Nordic language history are confined to individual languages and often concentrate on purely linguistic data, the present work covers the history of all Nordic languages in its totality, embedded in a broad culture-historical context. The Nordic languages are described both individually and in their mutual dependence as well as in relation to the neighboring non-Nordic languages. The handbook is not tied to a particular methodology, but keeps in principle to a

pronounced methodological pluralism, encompassing all aspects of actual methodology. Moreover it combines diachronic with synchronic-systematic aspects, longitudinal sections with cross-sections (periods such as Old Norse, transition from Old Norse to Early Modern Nordic, Early Modern Nordic 1550-1800 and so on). The description of Nordic language history is built upon a comprehensive collection of linguistic data; it consists of more than 200 articles, written by a multitude of authors from Scandinavian and German and English speaking countries. The organization of the handbook combines a central part on the detailed chronological developments and some chapters of a more general character: chapters on theory and methodology in the beginning, and on overlapping spatio-temporal topics in the end.

No Nation is an Island Tom Nauerby, 1996 This study follows the process of nation-building in a tiny nation -- the Faroe Islands, a cluster of 18 rocky islands in the North Atlantic. Originally settled by Vikings and governed by Norway, then by Denmark, and occupied by British forces during World War II, the Faroes gained a measure of home rule in 1948. Since then, Faroese politics have been doctinated by the struggle for emancipation from the Danish cultural hegemony, through the establishment of cultural and education institutions on the islands, and through the promotion of the Faroese language in place of Danish. As the author shows, the national identity has developed in interaction with an outside world often perceived as hostile and threatening by the islanders, and in this process, certain national symbols have played a key role as boundary markers. Apart from language, the practice of pilot whale hunting has served as an important focus of national identity, and international criticism of whaling in general has only served to intensify the Faroese feeling of unity and opposition to an outside world which does not understand them.

Migration, Adult Language Learning and Multilingualism Anna-Elisabeth Holm, 2023-11-23 This book extends lines of inquiry at the nexus of migration, adult language learning, and multilingualism, illuminating the lived experiences of migrants in the Faroe Islands and critical new insights into sociolinguistics from the periphery. Building on recent epistemological shifts in research on minoritised languages, this volume integrates threads from scholarship on migration studies, new speakers, and critical sociolinguistics in examining blue-collar workplaces in the Faroe Islands. In bringing greater attention to these contexts, Holm showcases how these sites, when analysed via an ethnographic lens, reflect both the changing sociolinguistic landscape at the periphery in light of globalisation and adult language learners' commitment to language learning as a form of personal and social investment. In shedding light on the specific case of Faroese, the volume critically reflects on the specific challenges involved in acquiring a small language in a bilingual context and on those impacting the sustainability of minoritised languages, including the increasing use of English, and the opportunities for stakeholders in language policy and planning to promote greater social inclusion for adult migrants. This volume will be of particular interest to students and scholars in critical sociolinguistics, linguistic anthropology, language education, migration studies, and applied linguistics.

The Study of Language and the Politics of Community in Global Context David L. Hoyt, Karen Oslund, 2006-01-01

The essays in this volume suggest that the emergence of language as an autonomous object of discourse was closely connected with the consolidation of new and sometimes competing forms of political community in the period following the French Revolution and the global spread of European power.

Iceland, Greenland & the Faroe Islands Deanna Swaney, 1997 Readers are invited to explore the world's last great northern wilderness with the most comprehensive guide to the region--and the only guide to feature the Faroe Islands. The book includes trekking routes through volcano landscapes, spectacular glaciers and thermal springs, and a language section covering Icelandic, Greenlandic, and Faroese. color. 85 maps.

Native Peoples of the World Steven L. Danver, 2015-03-10 This work examines the world's indigenous peoples, their cultures, the countries in which they reside, and the issues that impact these groups.

Denmark and the New North Atlantic Kirsten Thisted, Ann-Sofie N. Gremaud, 2020-10-01 This book investigates how the emergence of the Arctic as a new geopolitical arena affects and reshapes the area known as the North Atlantic: Greenland, Iceland, the Faroe Islands and coastal Norway. The relationship between the center of the former Danish empire and its subordinates have rested on (varying degrees of) asymmetric power relations, that are intertwined with political as well as emotional bonds. With climate change a whole new reality is emerging in the Arctic and sub-Arctic areas. Power is moving north, and new connections and partnerships are being developed. As the North Atlantic countries share a history as being part of a Danish empire, some of the hierarchies and mindsets inherited from the past still affect the present. This calls for an in-depth understanding of the cultural history of the North Atlantic as well as current relations. What narratives make up the foundation for contemporary cooperation? How are historical relations and narratives being reinterpreted today? How do postcolonial relations affect decision-making concerning natural resources? How do North Atlantic communities envision the future? A team of historians, literary theorists, art historians, ethno - graphers and culture and communication scholars with profound insight into the histories, languages and cultures of the North Atlantic have collaborated on this study of the North Atlantic countries as an emerging new center in the North.
