Crossroads of Rural Crime Alistair Harkness, Rob White, 2021-05-19 Using the notion of 'crossroads' to provide a unique lens through which to examine the realities of rural crime, *Crossroads of Rural Crime* provides an understanding of the nature of rural life and ways in which transgression manifests itself in the context of a presumed rural-urban divide.

OECD Rural Studies Linking Indigenous Communities with Regional Development in Australia OECD, 2020-12-14 Indigenous Australians play an important role in the development of regional economies. Compared to the non-Indigenous population, Indigenous peoples are more likely to be located in predominantly rural regions. However, significant gaps in socio-economic outcomes with non-Indigenous Australians remain and these gaps are larger in rural regions. The report provides three key recommendations to improve economic outcomes for Indigenous Australians.

The Forum of Federations Handbook of Fiscal Federalism Jean-François Tremblay, 2023-07-31 This open access handbook compares fiscal federalism arrangements in eleven federal/ decentralized countries. Each chapter examines an individual country, laying out its constitutional design as relates to fiscal powers and the division of those powers between levels of government. Specifically, the analyses consider powers of taxation, spending, regulation, and more. Focusing on Australia, Brazil, Canada, Ethiopia, Germany, India, Italy, South Africa, Spain, Switzerland, and the United States, the contributors provide a fascinating account of how federal countries are confronting the traditional challenges of conflicts over division of fiscal powers while also coping with the ongoing challenges of globalization and citizen empowerment that arise from the information revolution. As a companion to the *Forum of Federations Handbook of Federal Countries 2020*, this volume considers how relationships and roles in different orders of government are being reshaped, and shows how local solutions inspired by global principles help strengthen government accountability and improve citizens' quality of life. This is an open access book.

Innovation in Environmental Leadership Benjamin W. Redekop, Deborah Rigling Gallagher, Rian Satterwhite, 2018-01-19 *Innovation in Environmental Leadership* offers innovative approaches to leadership from a post-industrial and ecological vantage point. Chapters in this collection are written by leading scholars and practitioners of environmental leadership from around the globe, and are informed by a variety of critical perspectives, including post-heroic approaches, systems thinking, and the emerging insights of Critical Leadership Studies (CLS). By taking the natural environment seriously as a foundational

context for leadership, *Innovation in Environmental Leadership* offers fresh insights and compelling visions of leadership pertinent to 21st century environmental and social challenges. Concepts and understandings of leadership emerged as part of an extractive industrial system; this work asks its readers to re-think what leadership looks like in an ecologically sustainable biological system. This book provides fresh insights and critical perspectives on the vibrant and growing field of environmental leadership. It shows the latest state of knowledge on the topic and will be of interest both to students at an advanced level, academics and reflective practitioners. It addresses the topics with regard to leadership theory and environmental leadership and will be of interest to researchers, academics, and students in the fields of sustainability, environmental ethics, natural resource management, environmental studies, business management, public policy, and environmental management.

Too Close to Ignore Mark Moran, Jodie Curth-Bibb, 2020-03-31 Less than five kilometres from Australia's most northern islands in the Torres Strait lies the southern coast of Papua New Guinea (PNG). The people living on the PNG side of the border along the South Fly coast live in abject poverty, with a near total absence of services and infrastructure. The disparity in income, housing and health outcomes when compared with their nearby neighbours and relatives in the Torres Strait Islands, is extreme. The border is the focus of a range of interventions by the Australian and Queensland governments, including border protection, quarantine, marine resource management, and infectious disease control, including an alarming outbreak of multi-drug resistant tuberculosis. Restrictions are increasing on trading, fishing and access to Australian services. However, questions remain as to whether this focus is having unintended consequences, increasing the destitution and frustration on the PNG side, in turn exacerbating the security threat to Australia. And as the Australian border hardens, the Indonesian border beckons. This book presents the results of three years of research into the unique social and political geography of the borderland. The Torres Strait Treaty between Australia and PNG serves to construct a complex institutional layering, a tiered economy and a hierarchy of identities between those South Fly villagers who have rights under the Treaty to travel into Australia, and those who do not. This creates a politics of expectation and frustration that permeates everyday life along the South Fly coast, through which development projects must navigate.

SDGs in the Asia and Pacific Region Walter Leal Filho, Theam Foo Ng, Usha Iyer-Raniga, Artie Ng, Ayyoob Sharifi, 2024-09-01 The Asia and the Pacific region is actively seeking ways to optimise the use and availability of its natural resources, which have been contributing to environmental degradation and hindering its sustainable development. This volume documents and promotes various initiatives showcasing the efforts countries in the region are making towards the implementation of the SDGs. This book is part of the 100 papers to accelerate the implementation of the UN Sustainable Development Goals initiative.

Indigenous Self-Determination in Australia Laura Rademaker, Tim Rowse, 2020-09-09 Histories of the colonisation of

Australia have recognised distinct periods or eras in the colonial relationship: 'protection' and 'assimilation'. It is widely understood that, in 1973, the Whitlam Government initiated a new policy era: 'self-determination'. Yet, the defining features of this era, as well as how, why and when it ended, are far from clear. In this collection we ask: how shall we write the history of self-determination? How should we bring together, in the one narrative, innovations in public policy and Aboriginal and Torres Strait Islander initiatives? How (dis)continuous has 'self-determination' been with 'assimilation' or with what came after? Among the contributions to this book there are different views about whether Australia is still practising 'self-determination' and even whether it ever did or could. This book covers domains of government policy and Indigenous agency including local government, education, land rights, the outstation movement, international law, foreign policy, capital programs, health, public administration, mission policies and the policing of identity. Each of the contributors is a specialist in his/her topic. Few of the contributors would call themselves 'historians', but each has met the challenge to consider Australia's recent past as an era animated by ideas and practices of Indigenous self-determination.

A First Nations Voice in the Australian Constitution Shireen Morris, 2020-08-06 This book makes the legal and political case for Indigenous constitutional recognition through a constitutionally guaranteed First Nations voice, as advocated by the historic Uluru Statement from the Heart. It argues that a constitutional amendment to empower Indigenous peoples with a fairer say in laws and policies made about them and their rights, is both constitutionally congruent and politically achievable. A First Nations voice is deeply in keeping with the culture, design and philosophy of Australia's federal Constitution, as well as the long history of Indigenous advocacy for greater empowerment and self-determination in their affairs. Morris explores the historical, political, theoretical and international contexts underpinning the contemporary debate, before delving into the constitutional detail to craft a compelling case for change.
