Crisis Intervention in Criminal Justice/social Service James Earnest Hendricks, 1991

CRISIS INTERVENTION IN CRIMINAL JUSTICE/SOCIAL SERVICE James E. Hendricks, Cindy S. Hendricks, 2014-04-01 This expanded new edition continues to demonstrate and provide theoretical, analytical, and practical knowledge for first responders. Face-to-face interaction with the client/victim is part of the comprehensive approach advocated by the book, which requires interveners to assess the nature of a crisis and the condition of the victim in order to determine the appropriate course of action. The comprehensive balance of theory and practice presented in this book should enable the intervener in coupling his/her general knowledge of human psychology and emotional crisis with the specific and novel characteristics of various crisis situations. The text represents the work of national scholars who have expertise in criminal justice and social service issues. Their chapters focus on a Historical and Theoretical Overview, Ethics in Crisis Intervention Practice, Intimate Partner Violence, Police Response to Domestic Violence, Children in Crisis, Elder Mistreatment, Suicide, Crisis of Rape and Survivor Intervention, Death Notification and the Theory and Practice of Delivering Bad News, Terrorism and Crisis Intervention, and Mass Casualty Crisis Response and Communication. Helpful appendices in each chapter provide additional internet resources, as well as a complete Model Law Enforcement Code of Ethics and Social Work Code of Ethics.

This new edition retains important information while providing current case studies such as the “Miracle on the Hudson River” crash, the mass shootings at Virginia Tech, the Boston Marathon bombing, and the Yarnell Hill fire in Arizona. This exceptional book is designed for firefighters, police officers, community service officers, correctional workers, emergency medical workers, probation/parole officers, protective service workers, psychological counselors, social workers, and victim assistance workers among others.

Theoretical Perspectives for Direct Social Work Practice Peter Lehmann PhD, LCSW, 2007-10-22 Praise for the first edition Finally, a social work practice text that makes a difference! This is the book that you have wished for but could never find. Although similar to texts that cover a range of practice theories and approaches to clinical practice, this book clearly has a social work frame of reference and a social work identity. --Gayla Rogers, Dean of the Faculty of Social Work, University of Calgary The major focus of this second edition is the same; to provide an overview of theories, models, and therapies for direct social work practice, including systems theory, attachment theory, cognitive-behavioral theory, narrative therapy, solution-focused therapy, the crisis intervention model, and many more. However, this popular textbook goes beyond a mere survey of such theories. It also provides a framework for integrating the use of each theory with central social work principles and values, as well as with the artistic elements of practice. This second edition has been fully updated and revised to include: A new chapter on Relational Theory, and newly-rewritten chapters by new authors on Cognitive-Behavioral Theory, Existential Theory, and Wraparound Services New critique of the Empirically Supported Treatment (EST) movement Updated information on the movement toward eclecticism in counseling and psychotherapy A refined conceptualization of the editors' generalist-eclectic approach
