Charles Wells

Language, Ethnicity, and Education Peter Broeder,Guus Extra,1999 The book presents case studies of immigrant minority groups and immigrant minority languages in Europe and abroad, analysed from demographic, sociolinguistic, and educational perspectives. The demographic perspective focuses on the role of language and ethnicity in multicultural population statistics, the sociolinguistic perspective on the vitality of immigrant minority languages, and the educational perspective on the status of immigrant minority languages in education.

The State of Minority Languages W. Fase,K. Jaspaert,S.J. Kroon,2013-12-19 Many regional languages across the world are threatened by modernization and urbanization whilst the universal and rapid rise of migration has created new and unprecedented forms of multilingualism. Aspects of education, national policies and attitudes towards minority languages are documented.

Arabic, Self and Identity Yasir Suleiman,2011-08-10 This book builds on Suleiman's earlier research on the link among the Arabic language, identity and conflict, which he explored at some length in 'The Arabic Language and National Identity' and 'A War of Words'. The present study builds on his interest in the symbolic realms of signification, and Suleiman approaches the Arabic language as a marker of identity and as a factor in sociopolitical conflict in society.

Second Language Acquisition of Turkish Ayşe Gürel,2016-05-25 This book brings together the findings of current studies on the second language (L2) acquisition of Turkish, an Altaic language with more than 140 million native speakers around the world. There is now a growing interest in learning and teaching Turkish as an L2, both in and outside Turkey. Coordinated efforts to produce theoretical and empirical work on the acquisition and teaching of L2 Turkish are therefore an urgent need. The compilation in this volume offers eleven L2 studies that explore the representation and/or processing of various linguistic properties in different domains of grammar (phonology, morpho-syntax, pragmatics) and their interfaces. All studies involve adult L2 Turkish learners with various first-language backgrounds at different proficiency levels. With extensive discussions on theoretical and pedagogical issues, this title will appeal to an international readership that includes L2 Turkish researchers, materials designers, and teachers.
