**Caltha Crowe**

**The Meanest Thing to Say** Bill Cosby, Varnette P. Honeywood, 1997 When a new boy in his second grade class tries to get the other students to play a game that involves saying the meanest things possible to one another, Little Bill shows him a better way to make friends.

*Boy Culture* Shirley R. Steinberg, Michael Kehler, Lindsay Cornish, 2010-06-17 In this two-volume set, a series of expert contributors look at what it means to be a boy growing up in North America, with entries covering everything from toys and games, friends and family, and psychological and social development. *Boy Culture: An Encyclopedia* spans the breadth of the country and the full scope of a pivotal growing-up time to show what a boy's life is really like today. With hundreds of entries across two volumes, it offers a series of vivid snapshots of boys of all kinds and ages at home, school, and at play; interacting with family or knocking around with friends, or pursuing interests alone as they begin their journey to adulthood. *Boy Culture* shows an uncanny understanding of just how exciting, confusing, and difficult the years between childhood and young adulthood can be. The toys, games, clothes, music, sports, and feelings—they are all a part of this remarkable resource. But most important is the book's focus on the things that shape boyhood identities—the rituals of masculinity among friends, the enduring conflict between fitting in and standing out, the effects of pop culture images, and the influence of role models from parents and teachers to athletes and entertainers to fictional characters.

*Children's and Young Adult Literature and Culture* Amie A. Doughty, 2016-08-17 This collection of essays explores a wealth of topics in children's and young adult literature and culture. Contributions about picture-books include analyses of variants of the folktale "The Little Red Hen" and bullying. Race and gender are explored in essays about picture-books featuring children as consumable objects, about books focused on African American female athletes, and about young adult dystopian fiction. Gender itself is further explored in articles about *Monster High*, Joyce Carol Oates's *Beasts*, and *The Hunger Games* and *Divergent*. Essays about fantasy literature include an exploration of environmentalism in Rick Riordan's *The Heroes of Olympus*, a discussion of Severus Snape as a Judas figure, an explication of Chapter 5 of *The Hobbit*, and an analysis of ghosts and nationalism in Eva Ibbotson's *The Haunting of Granite Falls*. An essay about *Horrible Histories* explores television, genre, and the way history is coded. Other contributions explore how teaching literature to reluctant readers can be effective through multimodal texts and how *Harry Potter* has played a role in the popularity of young adult

literature for adult readers.

**Many Peoples, One Land** Alethea K. Helbig, Agnes Regan Perkins, 2000-10-30 Celebrating the wealth of quality multicultural literature recently published for children and young adults, this valuable resource examines the fiction, oral tradition, and poetry from four major ethnic groups in the United States. Each of these genres is considered in turn for the literature dealing with African Americans, Asian Americans, Hispanic Americans, and Native-American Indians. Taking up where their earlier volume *This Land is Our Land* left off, Helbig and Perkins have teamed up once again to identify and expertly evaluate more than 500 multicultural books published from 1994 through 1999. Both considered authorities in the field of children's literature, the two of them personally selected, read, and evaluated all the books included here. Their insightful annotations help readers carefully consider both literary standards such as plot development, characterization, and style, as well as cultural values as they are represented in these cited works. Each entry also indicates the suggested age and grade level appropriateness of the work. With the proliferation and ever increasing popularity of multicultural literature for children and young adults, this sensitively written volume will serve as an invaluable collection development tool. Teachers, as well as librarians, will find the comprehensiveness and organization of this bibliography helpful as a guide in selecting appropriate materials for classroom use. Even students will find this book easy to use, with its five indexes identifying works by title, writer, illustrator, grade level, and subject. Public libraries and school media centers will find much use for *Many Peoples, One Land*.

*Black Communications and Learning to Read* Terry Meier, 2020-08-19 This book is about effective literacy instruction for students in grades K-4 who use the language variety that many linguists call African American English, but which, as explained in the Introduction, the author calls Black Communications (BC). Throughout, considerable attention is given to discussing the integral and complex interconnections among African American language, culture, and history, drawing significantly on examples from African American historical and literary sources. Although it is theoretical in its description of the BC system and its discussion of research on language socialization in African American communities, the major focus of this book is pedagogy. Many concrete examples of successful classroom practices are included so that teachers can readily visualize and use the strategies and principles presented. \*Part I, "What is Black Communications?" presents an overview of the BC system, providing a basic introduction to the major components of the language—phonology, grammar, lexicon, and pragmatics, and illustrating how these components work in synchrony to create a coherent whole. \*Part II, "Language Socialization in the African American Discourse Community," examines existing research on African American children's language socialization. \*Part III, "Using African American Children's Literature," draws connections between strategy instruction and the linguistic and rhetorical abilities discussed in Part II. Each chapter ends with suggestions for using African American literature to help children develop their speaking and writing abilities. \*Part IV, "Children Using Language," moves from a focus on teaching comprehension strategies to helping BC speakers learn to decode text. This volume is directed to researchers, faculty, and graduate students in the fields of language and literacy education and

linguistics, and is well-suited as a text for graduate-level courses in these areas.
