*Secrets of Asia's Most Successful Internet Gurus* Pearlin Siow, 2009

*THE GUIDE TO NETWORK MARKETING* Raymundo Ramirez, 2018-06-01 WHAT IS NETWORK MARKETING? network marketing is also known as: 1 - Multi-level marketing 2 - MLM 3 - Direct selling 4 - Referral marketing That's the name, so what is it? Well it is a way of selling where the product owner does not employ the sales force. Rather the sales are done by people who own their own businesses to promote the product or service of the parent company. They get paid not only for their own sales but also the sales of the people they recruit into the business. This is called creating a downline - other business people who want to sell the product themselves. The standard network marketing approach is to build a structure of other business partners and then ensure they are successful. The more successful your business partners then the more income you are likely to earn. The exact structure will vary from company to company based upon their compensation scheme. It is up to you to ensure that you place partners in the correct position in the structure to maximize income. It must be stressed at this point that there are no guarantees in this business and that network marketing is not a get rich quick scheme. In general results are proportional to the effort you are prepared to put into the business.
