Blood Cinema Marsha Kinder,1993-12-06 In this innovative synthesis of film history and cultural analysis, Marsha Kinder examines the films of such key directors as Buñuel, Saura, Erice, and Almodóvar, as well as works from the popular cinema and television, exploring how they manifest political and cultural tensions related to the production of Spanish national identity within a changing global context. Concentrated on the decades from the 1950s to the 1990s, Kinder's work is broadly historical but essentially conceptual, moving backward and forward in time, drawing examples from earlier films and from works of art and literature, and providing close readings of a wide range of texts. Her questioning and internationalizing of the national cinema concept and her application of contemporary critical theory—especially insights

from feminism, Marxism, psychoanalysis, cultural studies, and discourse theory—distinguish Blood Cinema from previous film histories. The author also makes use of a variety of sources within Spain such as the commentaries on Spanish character and culture by Unamunov and others, the contemporary debate over the restructuring of Spanish television. Kinder's book moves Spanish cinema into the mainstream of film studies by demonstrating that a knowledge of its history alters and enriches our understanding of world cinema. The interactive CD-ROM is available from CINE-DISCS, 2021 Holly Hill Terrace, Los Angeles, CA 90068, (213) 876-7678.

Subject Headings for School and Public Libraries Joanna F. Fountain, 2012-01-16 For public and school libraries, this resource reflects recent changes in Library of Congress subject headings and authority files, and provides bilingual information essential to reference librarians and catalogers serving Spanish speakers. Libraries must provide better access to their collections for all users, including Spanish-language materials. The American Library Association has recognized this increasing need. Subject Headings for School and Public Libraries: Bilingual Fourth Edition is the only resource available that provides both authorized and reference entries in English and Spanish. A first-check source for the most frequently used headings needed in school and public libraries, this book incorporates thousands of new and revised entries to assist in applying LCSH and CSH headings. Of the approximately 30,000 headings listed, most include cross-references, and all of the cross-reference terms are translated. MARC21 tags are included for all authorized entries to simplify entering them into computerized catalogs, while indexes to all headings and free-floating subdivisions are provided in translation from Spanish to English. This book gives librarians access to accurate translations of the subject terms printed in books published and cataloged in English-speaking countries—invaluable information in settings with Spanish-speaking patrons.

Public Funding for Film and Audiovisual Works in Europe André Lange,Tim Westcott,European Audiovisual

Observatory,2004 This publication contains a comparative analysis of direct public funding mechanisms for film and audiovisual works in 35 European countries. About 1.3 billion EUR is given in support for films across Europe, with some 170 support bodies and around 600 different other aid programmes in existence. These differences stem from the individual histories of the European states themselves, but also such diversity acts as a way of underpinning a countrys cultural heritage. This report also sets out the European context of the funding and how this area has developed since 1963 up to the present. The report looks at reform of Euroimages, and at new laws introduced in Germany and Italy, along with an analysis of the role of private investors.
