There's a Customer Born Every Minute Joe Vitale, 2010-12-23 Praise for THERE'S A CUSTOMER BORN EVERY MINUTE Joe Vitale has created an entertaining, educational, and motivational manual-with the help of P.T. Barnum-that belongs in every hotel room alongside the Bible. Then, guests might read his inspirational book first, and give thanks to God for this worthy discovery. —Alan Abel, media hoaxer, author, consultant and lecturer on Using Your Wits to Win If you're going to excel in business, learning about a showman like Barnum and applying some of the lessons he taught can give you valuable insights. Joe Vitale has captured ten of these lessons (he calls them 'rings of power') and shows how you can apply them in a way that will open your eyes and stretch your imagination. There's a lot of money-making and fun wisdom here. —Joseph Sugarman, Chairman, BluBlocker Corporation Finally someone does it!!! Joe Vitale reveals the REAL P.T. Barnum! Vitale highlights the outrageously astute marketing of Barnum. Barnum's driving belief certainly was that there IS a customer 'born' every minute. You will glean a number of useful 'new' marketing ideas that you can instantly use in your business. And

you will learn about one of the savviest marketers of a time gone by. Fun, exciting, insightful, and packed with ideas! Genius! —Kevin Hogan, author of *The Science of Influence* and *The Psychology of Persuasion* I love this book. If you'd like to know the real story about one of the most fascinating characters in American history, told by a master storyteller (and the person who probably knows more about him than anyone else), read this book. Barnum is not the guy portrayed by the legend attached to his name. He is much, much more, and Vitale tells his story with the can't-put-it-down passion and excitement he's become so well known for. —Bill Harris, President, Centerpointe Research Institute

The Media-Savvy Middle School Classroom Susan Brooks-Young, 2020-10-19 *The Media-Savvy Middle School Classroom* is a practical guide for teachers of Grades 5-8 who want to help their students achieve mastery of media literacy skills. Today's fake news, alternative facts, and digital manipulations are compromising the critical thinking and well-being of middle grade learners already going through significant personal changes. This actionable book prepares teachers to help their students become informed consumers of online resources. Spanning correct source use, personal versus expert opinions, deliberate disinformation, social media, and more, these ready-to-use activities can be integrated directly into existing language arts and mathematics lesson plans.

SOCIAL MEDIA MUSINGS George Waas, 2023-12-19 Since the attack on the Capitol on January 6, 2021, I have posted numerous essays and other commentaries on Facebook. They are of varying length on matters of politics, law, history, personal matters, and other subjects as well. My first book on social musings contains 142 Facebook posts. My second book is a continuation of my posts, an additional 118. My third book adds another 104. My fourth book adds 78 more. My fifth book adds another 85. My sixth book includes another 116 musings. Book 7 adds another 106 for a combined total of 752 musings. As I've said throughout this series of books, I believe in an informed citizenry that relies on facts, logic, critical thinking, and reasoned judgment. At a time when too many people rely too heavily on social media and the misinformation and disinformation from those sources; at a time when anger and rage too often replace common sense and critical thinking; at a time when propaganda is accepted as fact and fact is dismissed if it flies in the face of opinion, it is hoped that the essays and social commentaries in this series of books on social media musings will inspire dialogue and further citizen involvement in their communities.

Take Five! for Language Arts Kaye Hagler, 2012 Kaye Hagler's unique bell-ringers for language arts help you transform the first chaotic five minutes of class into authentic opportunities to practice critical-thinking skills while also addressing the Common Core State Standards and providing support in the school's curriculum. Students in grades 3-9 exercise their mental muscles as they work collaboratively, warming them up to tackle your standards-based lessons. Whether your students are inventing secret codes, concocting potions, rewriting history, making conjunction paper chains, or thinking like newspaper editors, these diverse and creative prompts will have them looking forward to the part of the day when they're asked to Take

Five for critical thinking. The 180-plus prompts set up your teaching day from the minute that students step into your class. Each ready-to-use prompt includes: corresponding standards; supply lists; language arts links; teacher tips; assessment options; rubrics; and digital connections that add more than 100 extension lessons. Begin every day of the school year with a burst of critical thinking--and fun-- with this comprehensive resource. Ready? Set? Take Five!

Crooked Fran Zimniuch, 2009-04-16 As long as people have played games, there has been a temptation to win (or intentionally lose) by cheating. Infamous cases throughout the history of sport abound, from the thrown 1919 World Series to the recent doping confessions of track star Marion Jones. In this entertaining and informative book, sports historian Fran Zimniuch recalls the notorious scandals that have tainted our most popular sports, concluding that such incidents are often a reflection of the times. Benefiting from personal interviews with many figures either involved in or on the periphery of recent scandals, including BALCO's Victor Conte, *Crooked* presents a pageant of infamy as rich as the history of modern sports itself.
