

Quotes By Mary Shelley

,R.A.W.

Mary Shelley's Little Book of Selected Quotes Reflections Quill,2023-04-22 Did you not call this a glorious expedition? and wherefore was it glorious? not because the way was smooth and placid as a southern sea, but because it was full of dangers and terror, because at every new incident your fortitude was to be called forth and your courage exhibited, because danger and death surrounded it, and these you were brave to overcome. for this was it a glorious, for this was it an honorable undertaking - Mary Shelley -- Journey into Mary Shelley's profound reflections with this carefully curated selection of quotes Each page invites you to pause and ponder, and explore the intricacies of the human experience Ideal for reading on-the-go or gifting to someone special A great choice for both kids and adults -- None knew of their love except their own two hearts. It was pure and unsophisticated: it had the poetry of an early world, when the materials of our feelings were not yet cast in the strong mould of circumstances, and men wandered forth, like children, in the universe that lay before them, to gather knowledge from every thing lovely or majestic; and, if danger rose, to seek shelter in the bosom of love. - Mary Shelley

Nervous Reactions Joel Faflak,Julia M. Wright,2012-02-01 Nervous Reactions considers Victorian responses to Romanticism, particularly the way in which the Romantic period was frequently constructed in Victorian-era texts as a time of nervous or excitable authors (and readers) at odds with Victorian values of self-restraint, moderation, and stolidity. Represented in various ways—as a threat to social order, as a desirable freedom of feeling, as a pathological weakness that must be cured—this nervousness, both about and of the Romantics, is an important though as yet unaddressed concern in Victorian responses to Romantic texts. By attending to this nervousness, the essays in this volume offer a new consideration not only of the relationship between the Victorian and Romantic periods, but also of the ways in which our own responses to Romanticism have been mediated by this Victorian attention to Romantic excitability. Considering editions and biographies as well as literary and critical responses to Romantic writers, the volume addresses a variety of discursive modes and genres, and brings to light a number of authors not normally included in the longstanding category of Victorian Romanticism: on the Romantic side, not just Wordsworth, Keats, and P. B. Shelley but also Byron, S. T. Coleridge, Thomas De Quincey, Mary Shelley, and Mary Wollstonecraft; and on the Victorian side, not just Thomas Carlyle and the Brownings but also Sara Coleridge, George Eliot, Elizabeth Gaskell, Archibald Lampman, and J. S. Mill. Contributors include D. M. R. Bentley, Kristen Guest, Joel Faflak, Grace Kehler, Donelle Ruwe, Alan Vardy, Lisa Vargo, Timothy J. Wandling, Joanne Wilkes, and Julia M.

Wright.

The Poems of Percy Bysshe Shelley Percy Bysshe Shelley, 1911

Fellow Romantics Beth Lau, 2009-01-01 Beginning with the premise that men and women of the Romantic period were lively interlocutors who participated in many of the same literary traditions and experiments, Fellow Romantics offers an inspired counterpoint to studies that emphasize differences between male and female Romantic-era writers. Linking, among others, Charlotte Smith and William Wordsworth, Felicia Hemans and Percy Bysshe Shelley, the contributors defamiliarize the work of both male and female writers by drawing our attention to frequently neglected aspects of each writer's art.

The Next President of the United States ,R.A.W., 2023-01-02 This great country was founded on Christian principles and ideologies to escape a tyrannical government and pave the pathway to freedom for its citizens. However, there are those in power who are desperately trying to take away our freedoms through force, coercion, deception, and indoctrination. As a result, American democracy is on the verge of collapse. This should not come as a surprise as great civilizations of the past have followed the same predictable sequence. Measures must be taken to stop this sequence if we care for our way of life. Fixing the problem is not a task reserved for the select elite in power. We the people can implement common sense solutions to save our beloved country. If democracy is lost in America, then it will be lost to the world. This book was created by a concerned citizen and gifted to those willing to open their eyes to the truth. Join me on this journey to salvation. Freedom is never more than one generation away from extinction. We didn't pass it to our children in the bloodstream. It must be fought for, protected, and handed on to them to do the same, or one day we will spend our sunset years telling our children and our children's children what it was once like in the United States where men were free (Ronald Reagan).

Mary Shelley's Frankenstein Cecily Callaghan, 1936

The Collected Works of W.B. Yeats Volume IV: Early Essays William Butler Yeats, Richard J. Finneran, George Bornstein, 2007-03-06 The Collected Works of W. B. Yeats, Volume IV: Early Essays is part of a fourteen-volume series under the general editorship of eminent Yeats scholars George Bornstein and George Mills Harper. These volumes include virtually all of the Nobel laureate's published work, in authoritative texts with extensive explanatory notes. Early Essays, edited by the internationally esteemed Yeats scholars George Bornstein and the late Richard J. Finneran, includes the contents of the two most important collections of Yeats's critical prose, *Ideas of Good and Evil* (1903) and *The Cutting of an Agate* (1912, 1919). Among the seminal essays are considerations of Blake, Shakespeare, Shelley, Spenser, and Synge, as well as an extended discussion of the Japanese Noh theatre. The first scholarly edition of these materials, Early Essays offers a corrected text and detailed annotation of all allusions. Several appendices gather materials from early printings which were later excluded, as well as illuminating black-and-white illustrations. Early Essays is an essential sourcebook for understanding Yeats's career as both writer and literary critic, and for the development of modern poetry and criticism. Here, Yeats works out many of his

key ideas on poetry, politics, and the theater. He gives interpretations of writers critical to his development and presents a compelling vision of Ireland and the modern world during the last decade of the nineteenth century and first two decades of the twentieth. As T. S. Eliot remarked, Yeats was one of those few whose history is the history of their own time, who are a part of the consciousness of an age which cannot be understood without them. This volume displays a crucial part of that history.
