U. S. Composers and Poets: The Intersection of American Classical Music and American Literature (Revised and Updated) Gerald F. Sweeney, 2024-10-15 Gerald F. Sweeney's new book is titled *US Composers and Poets - The Intersection of American Classical Music and American Literature*. The relationship between American composers and American writers has always been close. Creating the music to accompany and enhance the prose and poetry of our greatest writers has given us a treasury of musical masterpieces, including Ives' *Concord Sonata* after Emerson, Thoreau, Hawthorne and the Alcotts- as well as Copland's *Poems of Emily Dickinson*, Gershwin's *Porgy and Bess* with DuBose Heyward, and Lukas Foss's *The Jumping Frog of Calaveras County* after Mark Twain. This new soft cover book contains the musical offerings of 300 American composers who have embellished the literary creations of over one hundred and fifty American writers. This includes thirty-five musical versions of poems set by Walt Whitman and twenty-five by Emily Dickinson, indicating the devotion shown to our favorite poets by American troubadours.

Music in American Life Jacqueline Edmondson, 2013-10-03 A fascinating exploration of the relationship between American culture and music as defined by musicians, scholars, and critics from around the world. Music has been the cornerstone of popular culture in the United States since the beginning of our nation's history. From early immigrants sharing the sounds of their native lands to contemporary artists performing benefit concerts for social causes, our country's musical expressions reflect where we, as a people, have been, as well as our hope for the future. This four-volume encyclopedia examines music's influence on contemporary American life, tracing historical connections over time. *Music in American Life: An Encyclopedia of the Songs, Styles, Stars, and Stories That Shaped Our Culture* demonstrates the symbiotic relationship between this art form and our society. Entries include singers, composers, lyricists, songs, musical genres,

places, instruments, technologies, music in films, music in political realms, and music shows on television.

The American Wind Band Richard Kent Hansen, 2004 Arguments on the hierarchy of the cultivated tradition's values and those of the vernacular tradition emerge in mid-nineteenth century American society. Departures from long established potpourri programming practices whereby the cultivated and vernacular traditions coexist arise in the middle and late twentieth century. Still, wind band conductors adapt and sustain potpourri programming concepts into the twenty-first century, fostering compositions that meld varied traditions. Reasons for these reactions and responses are discussed.
