Writing Sense Juli Kendall,Outey Khuon,2023-10-10 Writing is all about making meaning. The prospect of teaching writing to a classroom full of students—some who speak English and some who don't, can be overwhelming. When students learning English are at different levels, the task is even more challenging. Writing Sense: Integrated Reading and Writing Lessons for English Language Learners outlines the classroom conditions necessary for successful writing instruction with English language learners, whether in writing workshop and/or small-group instruction. It includes 68 classroom-tested lessons for grades K 8 that show kids at all levels of language acquisition how to make connections, ask questions, visualize (make mental images), infer, determine importance, synthesize, monitor meaning and comprehension, and use fix-up strategies. The five main sections are geared to the stages of language proficiency, and lessons are divided into younger and older students, spanning kindergarten through to grade eight. There are extensive lists of suggested books for mentor texts as well as lists of mentor authors to facilitate teachers' planning and instruction.

Making Sense Juli Kendall,Outey Khuon,2023-10-10 Reading is all about understanding. How do we know our kids are getting it—and what do we do when they don't get it? Authors Juli Kendall and Outey Khuon believe that small group comprehension lessons have a key role to play in advancing students' understanding of texts. Making Sense: Small-Group

Comprehension Lessons for English Language Learners , they provide answers to many common questions asked by teachers of ELL. It is an easy-to-use, practical resource for ELD, ESL, and ESOL teachers. The book's five main sections are geared to the stages of language proficiency, and lessons span kindergarten through grade 8. The authors outline 52 lessons that teach students how to make connections, visualize, infer, and determine importance. Each lesson follows a four-part teaching framework: Start Up/Connection: Helping students build background and use prior knowledge to connect to the lesson Give Information : Explicitly telling students what they are going to learn and why they are learning it Active Involvement : Students practice what they are learning while the teacher monitors and adjusts instruction accordingly Off-You-Go!: Opportunities for students to practice what they learned with peers or independently. Making Sense will appeal to experienced teachers seeking to expand their repertoire of lessons, as well as new teachers just beginning the adventure of teaching comprehension to English language learners.

Every Book Is a Social Studies Book Jeannette Balantic, Andrea S. Libresco, Jonie C. Kipling, 2011-02-01 This text offers a teacher and student-friendly collection of lessons and activities that help educators use picture books to engage younger students in meaningful social studies activities and bring this critical subject back in elementary schools. In order for today's children to succeed as adults, they need a solid foundation of life skills inculcated at a young age. Social studies is key to building this critical knowledge, yet less attention is being paid to social studies in elementary schools as this subject becomes more essential. The authors of this text have a solution: use picture books as dual-purpose texts that fulfill more than just language arts needs, and take the time dedicated to those lessons to simultaneously teach social studies. Each chapter of this text is organized around one of the National Council for the Social Studies' Ten Thematic Strands, covering diverse and engaging topics ranging from community and individuality to science and technology. This book serves as a vital resource for classroom teachers, methods professors, staff developers, and curriculum writers who prioritize keeping social studies a part of the elementary school curriculum.
