This book is the first comprehensive historical and critical study of themes surrounding haunted houses in film. Covering more than 100 films, it spans from the Mystery House thrillers of the silent era to the high-tech, big budget productions of the 21st Century. Included are the works of such acclaimed directors as D.W. Griffith, Robert Wise, Mario Bava, Alfred Hitchcock, Stanley Kubrick, Tim Burton and Guillermo Del Toro. The book also covers the real-life haunted house phenomenon and movies based on paranormal case files, including those featured in films like the Conjuring series.

How to Score in Hollywood Kevin Goetz, 2025-11-11 *How to Score in Hollywood* reveals the secrets to a movie's success and profitability. Entertainment research expert Kevin Goetz shares how smart, data-driven decisions—from development to release—help filmmakers minimize risks and maximize returns. *How to Score in Hollywood* reveals the secrets to a movie's success and profitability. Entertainment research expert Kevin Goetz, founder and CEO of Screen Engine, draws on almost four decades of experience to show how strategic decisions—from development to release—help minimize risks and maximize returns. Armed with audience insights and data-driven strategies, Goetz demonstrates how every film should make money when made and marketed for the right price. Key insights include:

- Recognizing what constitutes a big idea and developing it thoughtfully to set the foundation for success.
- Identifying the reason why a movie should exist and what it uniquely brings to the marketplace that will inspire interest and excitement to see it.
- Crafting films with a specific audience in mind and aligning production and marketing budgets to fit the size of its potential.
- Understanding how digital entertainment has reshaped audience behavior and perceptions of what makes a movie “theater-worthy.”
- Elevating both the concept and execution to ensure a film stands out in a crowded and competitive marketplace.
- Understand and embrace the challenges of genre-blending films, or “feathered fish,” with a clear-eyed approach, tackling complexities head-on instead of avoiding them.
- Using test audience feedback to guide the film's development all the way through postproduction, identifying danger signs along the way, and increasing the chances of success.
- And much more!

For industry executives, filmmakers, film students, and film enthusiasts, *How to Score in Hollywood* offers a unique behind-the-scenes look at the important processes that shape what consumers are offered to watch. From the initial greenlight to the final cut, Goetz explores the critical balance between creativity and commerce in filmmaking, highlighting the vital role of research at every stage to create films that resonate with audiences while also turning a profit. Filled with entertaining personal experiences, industry stories, and actionable advice, Goetz illustrates how research, budget, and marketability influence a film's financial outcome. Whether discussing low-budget indie hits or big-budget blockbusters, *How to Score in Hollywood* is an invaluable resource for those seeking to understand the art, science, and business of how movies are made, marketed, and released.

Contemporary Issues in Housing Design Kutay Güler, 2018-11-02 The word ‘house’ has evolved throughout the millennia and infused itself into many languages; however, the basic reference to covering and sheltering has always been preserved. Housing in the contemporary sense refers to a relatively complex structure comprising different shapes and sizes accommodating various functionalities, evolving in accordance with cultural, social, technological, and natural progresses. A house provides more than basic protection, but is the backdrop for the daily lives of occupants, and even a reflection of an individual's character, beliefs, and socioeconomic status. This book discusses an array of critical contemporary issues on

housing design pertaining to sustainable practices, emerging technologies, heritage conservation, humanitarian efforts, fictional environments and their effects on occupants' physical and psychological experience and well-being. As such, it will serve to develop further understanding and to enrich the perspectives of any designer and educator invested in the subject.

Kind of a Big Deal Saul Austerlitz,2023-08-22 *Vulture's Best Comedy Book of 2023* From the author of *Generation Friends*, featuring brand-new interviews with Will Ferrell and Adam McKay, a surprising, incisive, and often hilarious book about the film that changed comedy, *Anchorman*. It's been nearly twenty years since Ron Burgundy burst into movie fans' lives, reminding San Diego to "stay classy" while lampooning a time gone by—although maybe not as far gone as we might think? In *Kind of a Big Deal*, comedy historian Saul Austerlitz tells the history of how *Anchorman* was developed, written, and cast, and how it launched the careers of future superstars like Will Ferrell, Steve Carell, and Paul Rudd, also setting the stage for a whole decade of comedy to come and influencing films like *The 40-Year-Old Virgin*, *Talladega Nights*, *Knocked Up*, *Superbad*, and so many more. But *Kind of a Big Deal* isn't only a celebration of *Anchorman*—it's also a cultural analysis of the film's significance as a sly commentary on feminism, the media, fragile masculinity, 1970s nostalgia, and more. Featuring brand-new interviews with stars such as Will Ferrell, director Adam McKay, and other key players, the book includes insider commentary alongside updated pop-culture analysis. And it also shares surprising stories and facts: from the film's original conception as a plane crash/cannibal comedy mashup to the surprising, real-life newscaster who inspired the character of Veronica. Overall, this is a celebration of a movie that millions love—but it's also an unsparing look back at what has and hasn't changed, since the 1970s and since 2004. Perfect for fans of the film and anyone who cares about comedy today, *Kind of a Big Deal* proves that the movie was, and is, exactly that.
