

# Break Up Of Czechoslovakia

**Michael Kraus, Allison Stanger**

*The Break-up of Czechoslovakia* Oldřich Dědek, 1996 This work examines the dissolution of Czechoslovakia in 1993. The emphasis is on the economic side of the process, and the economic history which preceded the split is analyzed. The original policy measures adopted to minimize the dissolution shocks are described, as are the recent post-split trends in both the successor economies. This work aims to provide a detailed insight into the process of the split and to serve as a source of knowledge in today's world of growing nationalism.

**The Breakup of Czechoslovakia** Robert A. Young, Queen's University (Kingston, Ont.). Institute of Intergovernmental Relations, 1994

**The Dissolution of Czechoslovakia** Charles River Editors, 2019-05-03 \*Includes pictures \*Includes a bibliography for further reading On New Year's Day 1993, Czechoslovakia broke into two separate countries, the Czech Republic and Slovakia. Thus ended one of the creations brought about by the Treaty of Versailles after World War I, and as a country that had existed for just under 75 years, Czechoslovakia spent most of its time under the tyranny of fascism or communism. Of course, the country's origins go back far longer than the 1910s, and they were complex and convoluted. The very geography of central Europe meant this territory had been conquered and occupied many times over the course of history, and for much of the modern era, the area belonged to much larger empires, including the Holy Roman Empire, the Austrian Habsburg Empire, and finally the Austro-Hungarian Empire. Nevertheless, two distinct ethnicities had come to make up the bulk of the territory's inhabitants: the Czechs, predominantly in the areas of Bohemia and Moravia, and the Slovaks, in Slovakia. Both peoples had their own Slavic-based languages, but the languages were similar enough to be mutually intelligible. Despite any ethnic similarities, the country that formed in 1918 among the ashes of the Austro-Hungarian Empire was by no means a nation-state as most people understand that term. In fact, much of the territory which bordered Germany was inhabited by ethnic German speakers, including one of Prague's most famous sons, the writer Franz Kafka. One of the 20th century's most celebrated authors spoke German as his first language. As such, the lands that became Czechoslovakia had usually existed in some kind of supranational system where identity was allowed to be relatively fluid. Czechoslovakia would also play a crucial role in bringing about World War II, a sign that the area's nationalism, which ultimately split Czechoslovakia apart in 1993, had long spelled danger in a place where so many groups competed for power. The presence of German speakers would

serve as a pretext for Hitler's acquisition of the Sudetenland, creating a crisis ahead of history's deadliest war and serving as a harbinger of things to come. *The Dissolution of Czechoslovakia: The History of the Central European Nation from Its Founding to Its Breakup* examines how the multicultural nation was founded, the inherent tensions there, and how it eventually came apart. Along with pictures of important people and places, you will learn about Czechoslovakia like never before.

*Globalization, Governance and Identity* Guy Lachapelle, John E. Trent, 2000 The International Political Science Association (IPSA) attempted to seek theoretical explanations for the established and emerging forms of political and economic partnerships. This is the result of these efforts, following a roundtable organized by IPSA in Quebec City in 1998.

State Succession to International Responsibility Patrick Dumberry, 2007 This volume addresses the controversial issue of State succession to international responsibility. It deals with two distinct questions. Firstly, whether or not there is State succession to obligations arising from internationally wrongful acts committed by the predecessor State against a third State before the date of succession. Secondly, whether or not there is State succession to the right to claim reparation as a consequence of internationally wrongful acts committed by a third State against the predecessor State before the date of succession. Winner 2008 ASIL Certificate of Merit for High Technical Craftsmanship And Utility To Practicing Lawyers And Scholars.

**Separatism** Metta Spencer, 1998 As we approach the millennium the world is experiencing civil wars exclusively--half of which are being waged over the issue of secession. This book offers a comparative view of nine historic separatist movements, some of which have achieved the break-up of an empire or a state, and others that to date have not. Separatist struggles occur in waves that tend to coincide with upsurges of democratization. Several chapters explore this connection, making comparisons with economic and geopolitical causes. The authors analyze the long term effects of secession: after partition, ethnic strife typically continues for generations; minorities decline in status; and democracy and human rights are derogated. The break-up of one state often leads to further fragmentation, as in the disintegration of the Ottoman, Austro-Hungarian, and Russian empires, where years later separatism unfolded in the successor states of Yugoslavia, Czechoslovakia, Palestine, Chechnya and Tatarstan. The authors attribute much of today's separatism to the demagoguery of politicians losing legitimacy in post-communist states, for whom nationalism is a convenient populist ideology. A broader explanation, however, points to the failure of modern democracies to develop constitutional mechanisms reconciling the expression of particularistic identities with the universalism of citizenship. The book reviews proposals toward that end.

**A History of Slovak Economic Thought** Julius Horváth, 2021-12-29 Slovakia has a rich and complex history, but until now there has not been a comprehensive analysis of the nation's economic thought. This volume expertly fills this gap and traces the development of Slovak economic thought from the sixteenth century to the present day. Identifying key themes,

moments, and thinkers, the chapters in this work consider the evolution of Slovak economic ideas and explores the nation's place alongside other schools of thought. Significant coverage is given to the economists Gregorius Berzeviczy and Imrich Karvaš, as well as landmark periods such as the creation of Czechoslovakia, the World Wars, the Socialist regime, and post-Communist Slovakia. This book is of interest to advanced students and researchers of the history of economic thought, economic history, and political economy, as well as those with a specific interest in the history of Slovakia.

*Irreconcilable Differences?* Michael Kraus, Allison Stanger, 2000-06-28 This unique volume brings together a multi-disciplinary group of scholars as well as Czech and Slovak decisionmakers who were personally involved in the events leading up to the separation of Czechoslovakia. Asking whether the dissolution was inevitable, the contributors bring a range of different approaches and perspectives to bear on the twin problems of democratic transitions in multinational societies and ethnic separatism and its origins. The blend of analysis and insider experiences will make this book invaluable for all concerned with nationalism and ethnicity, democratization, and transitions in Eastern Europe.

*Irreconcilable Differences?* Michael Kraus, Allison Stanger, 2000 This unique volume brings together a multi-disciplinary group of scholars as well as Czech and Slovak decisionmakers who were personally involved in the events leading up to the separation of Czechoslovakia. Asking whether the dissolution was inevitable, the contributors bring a range of different approaches and perspectives to bear on the twin problems of democratic transitions in multinational societies and ethnic separatism and its origins. The blend of analysis and insider experiences will make this book invaluable for all concerned with nationalism and ethnicity, democratization, and transitions in Eastern Europe.

Causes and Consequences of the Collapse of Communism in Eastern Europe Martyn C. Rady, 1995 From the CAUSES AND CONSEQUENCES series, illustrated with colour and black and white photographs and artwork, a look at the events leading up to the collapse of communism, the reasons for its failure, the era of glasnost and perestroika, and looking at the realities of the post-Cold War world.

History and Government Form 4 ,

**The Breakup of Czechoslovakia** Robert Andrew Young, 2012

**Ethnopolitics and Conflict in the Breakup of Yugoslavia** Stephen Mitchell Tull, 1995

Nazi Germany as Reflected in American Caricatures 1933-1945 Heinz-Dietrich Fischer, 2018 This volume contains about 170 political caricatures about the history of Nazi Germany from the start in 1933 to the collapse in 1945, drawn by sixteen American Pulitzer Prize-winning editorial cartoonists. Among them are multiple laureates like Rollin Kirby of the New York World, Edmund Duffy of the Baltimore Sun, and Herbert L. Block of the Washington Post. (Series: Pulitzer Prize Panorama, Vol. 15) [Subject: Literary Studies, Journalism, History]

**Slavs to Slavs in Mission** David Symon, 2023-06-27 Many would agree that the issue of identity is pertinent for mission.

This book explores the case study of Czechs in the countries that formerly comprised Yugoslavia, with a focus on the national identity of the missionaries. It aims to help mission practitioners understand what to beware of and what to benefit from. The volume provides a fresh insight into mission dynamics in Central and Eastern Europe, yet, with its aim on identity negotiation of missionaries, could relate to other contexts as well.

*Czecho/Slovakia* Eric Stein, 2000-01-26 Describes the peaceful breakup of the Czechoslovak Federation

*The Politics of Democratic Transformation* Jerzy J. Wiatr, 1993

Eastern Europe Richard Frucht, 2004-12-22 A contemporary analysis of the people, cultures, and society within the regions that make up Eastern Europe. *Eastern Europe: An Introduction to the People, Lands, and Culture* sheds light on modern-day life in the 16 nations comprising Eastern Europe. Going beyond the history and politics already well documented in other works, this unique three-volume series explores the social and cultural aspects of a region often ignored in books and curricula on Western civilization. The volumes are organized by geographic proximity and commonality in historical development, allowing the countries to be both studied individually and juxtaposed against others in the region. The first volume covers the northern tier of states, the second looks at lands that were once part of the Hapsburg empire, and the third examines the Balkan states. Each chapter profiles a single country—its geography, history, political development, economy, and culture—and gives readers a glimpse of the challenges that lie ahead. Vignettes on various topics of interest illuminate the unique character of each country.

*New Statesman*, 1929
