David Cormack

Church and Ministry Strategic Planning R. Henry Migliore, Robert E. Stevens, David L. Loudon, 1994 Spiritual management is required for spiritual organization, and yet a ministry's master plan should be the Master's plan for that ministry. Church and Ministry Strategic Planning assists readers in developing a Biblically based blueprint for carrying out the many activities in which the church or ministry is involved. The authors show clearly how careful planning is inspired by the Scriptures (Suppose one of you wants to build a tower. Will he not first sit down and estimate the cost to see if he has enough money to complete it?--Luke 14:28) and how it improves making decisions today which ultimately affect the ministry's effectiveness tomorrow. Church and Ministry Strategic Planning covers all areas of this type of planning and can be read and reviewed quickly. Through the use of a model of the strategic planning process, the authors show how to develop mission statements, define strategic objectives, develop strategy options and operating strategies, appraise performance, and monitor strategic planning. Readers are led step-by-step through these key areas of creating a strategic plan. Examples and worksheets at the end of each chapter enable pastors, administrators, and lay leaders to develop a strategic plan fitting to their specific ministry or church. The appendixes provide tools used in planning as well as a complete sample strategic plan for a large church. Put these concepts to immediate use in decisionmaking and pursue God's purpose and vision for the church or ministry. If readers take the time and effort to study this book, apply its format, and prayerfully keep God in every step of the plan, here is what the authors believe plan administrators can expect: 1. A sense of enthusiasm in the church or ministry 2. A 5-year plan in writing to which everyone is committed 3. A sense of commitment by the entire church to its overall direction 4. Time for the leaders to do what they have been called to do 5. Clear job duties and responsibilities 6. Clear and evident improvement in the health and vitality of every member of the church staff 7. Measurable improvement in the personal lives of all those in responsible positions with time for vacations, family, and personal pursuits 8. The ability to measure very specifically, the growth and contribution made by senior pastors or evangelists at the close of their careers 9. Guaranteed leadership of the church or ministry because a plan is in place--in writing--and is understood. Even more importantly, a management team and philosophy will be in place to guide the church or ministry into its next era of growth Explore this Biblical perspective on planning and develop a strategic plan that is systematic and continuous and allows the church or ministry to assess its market position, establish goals, objectives, priorities, and strategies to be completed within

specified time periods, achieve greater staff and member commitment and teamwork aimed at meeting challenges and solving problems, and muster its resources to meet these changes through anticipation.

Subverting Resistance to Social Justice and Diversity Education Andy J. Johnson, April Vinding, 2023-05-27 This compact book is constructed using psychological theory and research to empower university faculty to facilitate student engagement and address student resistance to diversity and social justice education more effectively. University faculty teaching diversity and social justice have traditionally encountered various forms of student resistance. Recent cultural trends of political opposition to teaching critical race theory and other forms of increased polarization and scapegoating with decreased levels of social tolerance have exacerbated challenges in promoting student engagement in diversity and social justice education in universities and colleges. In contrast to traditional models that tend to be confrontational in addressing student biases, the new Moving Towards Social Justice (MTSJ), Relational Partnership Development Model (RPDM) and process theoretical models seek to build on appropriate pre-existing strengths, interests, values, and the developmental readiness of students who might otherwise oppose learning about the contexts, lives, and predicaments of marginalized persons living in various intersections of gender, race, ethnicity, national origin, immigration status, sexual orientation, gender identity and ability/disability status. Emphasis is placed on the development of professional and life skills, such as wisdom and intercultural competence, which provide incentives and remove barriers to learning about social justice and diversity. Project-based learning approaches grounded in a developmental framework to foster the thriving and well-being of diverse students, collaborative partners in the community, and diverse persons served by the community partners are emphasized. The role of empirical assessment, feedback, and program refinement over time is also delineated within the models. *Subverting Resistance to Social Justice and Diversity Education: Constructive Approaches with Undergraduate Students* is an indispensable and timely resource for university and college instructors who teach courses or have significant portions of a class that involve education around social justice, diversity, and intersectionality issues, such as cross-cultural psychology, multicultural psychology, social work, sociology, intercultural communication, and counseling or clinical practice with individuals or families from diverse social locations. University officers of diversity, faculty development providers, and other administrators interested in empowering university faculty to increase student engagement in social justice and diversity education also would find the book a useful reference.

The Routledge Handbook of Megachurches Afe Adogame, Chad M. Bauman, Damaris Parsitau, Jeaney Yip, 2024-05-07 The Routledge Handbook of Megachurches provides a survey of global megachurch phenomena, with an international slate of authors introducing existing and emerging research on a wide variety of relevant topics. Over the past decade, the field of megachurch studies has matured and become global in its scope and orientation. The Handbook offers 33 chapters by top scholars in the field, focusing in particular on: The location, demographic nature, and transnational connections of

megachurches. Megachurch worship, hermeneutics, and theology (in theory and practice). Megachurch institutional dynamics. The various ways that megachurches have both influenced and been influenced by their social contexts in terms of class, age, gender, sexuality, and pop culture. The Handbook's interdisciplinary orientation makes it essential reading for sociologists, political scientists, anthropologists, media specialists, pop culture observers, business strategists, leadership consultants, marketing analysts, scholars of religion, and Christian historians, theologians, and missiologists. Experienced scholars of megachurches will gain valuable insight into aspects of megachurch research beyond their own specializations. Scholars new to the field will find the chapters useful as signposts for where to begin their own academic exploration. Christian pastors and laypeople will learn more about this increasingly prominent and influential form of their faith.

When Better Isn't Enough Jill M. Hudson, 2004-02-01 Many sociologists and a growing number of church scholars have noted that we live in a time of transition—from the modern era to the postmodern. Whenever a shift of this magnitude occurs, it leaves all of life, including the church, in flux. We instinctively strive to stabilize the situation by re-establishing what has worked in the past. Increasingly, however, congregations are finding that the same old things done harder or better don't seem to make a difference. Author Jill Hudson argues, We must identify new criteria for success, and perhaps even for faithfulness, and hold ourselves accountable to them. Approaching the postmodern era as a tremendous opportunity, Hudson identifies 12 characteristics by which we can measure effective ministry for the early 21st century. Based on those 12 criteria, Hudson has created evaluation tools, an early measuring stick, to help congregations evaluate their work in this new era. Not everything of the past is ineffective and best discarded, she says, nor will everything we try in the future be successful. But by faithfully listening for God's guidance and carefully evaluating progress using Hudson's tools, looking at the ministry of the whole people of God as well as that of the professional staff, congregations can improve their ministry, help members and staff grow in effectiveness, deepen a sense of partnership, and add new richness to the dialogue about the congregation's future.
