European cities of culture and cultural months John Myerscough,1994

Cities of Culture Deborah Stevenson,2013-08-15 Culture now has a prominent place on the urban policy and re-profiling agendas of cities around the world. City-based cultural planning emphasising creativity in all its guises has emerged as a significant local policy initiative, while the notion of the 'creative city' has become an urban imaging cliché. The proliferation of local blueprints for cultural planning/creative cities has been remarkable, while supra-state bodies such as the European Union and UNESCO are also fostering the use of culture in strategies to revive cities and urban economies and to brand places as 'different'. Cities of Culture highlights significant trends in cultural planning since its inception, revealing and analysing key discourses and influential (globally-circulating) manifestos and processes, as well as their interpretation and implementation in specific places. With reference to examples drawn from Europe, Australia, Asia and North America, Cities of Culture provides insights into the application of urban cultural strategies in different local, national and international contexts, highlighting regularities, tensions and intersections as well as core underpinning assumptions. This book explores the now-pervasive expectation that cultural planning is capable of achieving a wide range of social, economic, urban and creative outcomes. It will be of interest for students and scholars of urban sociology, urban studies, cultural policy studies and human geography.

European Cities of Culture and Cultural Months John Myerscough,1994

European Capitals of Culture ,2009

Culture and Sustainability in European Cities Svetlana Hristova,Milena Dragičević Šešić,Nancy Duxbury,2015-04-21

European cities are contributing to the development of a more sustainable urban system that is capable of coping with economic crises, ecological challenges and social disparities in different nation-states and regions throughout Europe. This book reveals in a pluralistic way how European cities are generating new approaches to their sustainable development, and the special contribution of culture to these processes. It addresses both a deficit of attention to small and medium-sized cities in the framework of European sustainable development, and an underestimation of the role of culture, artistic expression and creativity for integrated development of the city as a prerequisite to urban sustainability. On the basis of a broad collection of case studies throughout Europe, representing a variety of regionally specific cultural models of sustainable development, the

book investigates how participative culture, community arts, and more generally, creativity of civic imagination are conducive to the goal of a sustainable future of small and medium-sized cities. This is an essential volume for researchers and postgraduate students in urban studies, cultural studies, cultural geography and urban sociology as well as for policymakers and practitioners wanting to understand the specificity of European cities as hubs of innovation, creativity and artistic industriousness.

European Capitals of Culture, 2019 This brochure showcases successful projects in recent European Capitals of Culture. They show that the European Capitals of Culture have become laboratories of strategic investment in culture, benefiting our economies and our societies as a whole. The European Capitals of Culture are an integral part of the Creative Europe programme 2014-20, whose ambition is to promote Europe's cultural diversity and cultural heritage and to reinforce the competitiveness of our cultural and creative sectors. Creative Europe helps artists, cultural professionals and cultural organisations to adapt to the digital age and globalisation, work across borders and reach as many people as possible in Europe and beyond. It also supports efforts to improve access to finance through the setting-up of a new financial guarantee facility. The European Capitals of Culture remain first and foremost a cultural event. Cultural activity in these cities increases, new audiences can be reached and the city's cultural operators can acquire a more international outlook and thus improve their skills and professionalism. The European Capitals of Culture also contribute to forging an image of an attractive and creative Europe open to cultures from across the world.

Cultural Mega-Events and Heritage Davide Ponzini, 2023-03-21 This book analyses case studies of heritage-rich cities that hosted mega-events to discuss emerging challenges, controversies, and accomplishments. The future of mega-events has never been more uncertain. The ongoing COVID-19 pandemic has introduced an unparalleled level of doubt regarding the kind of mega-events that will take place in the coming years. This book arrives at a quite unique moment of reflection. Prior to 2020, cities were already questioning the traditional format of mega-events (e.g. Olympics and Expo) while other cultural mega-events have been spreading and gaining popularity, thanks in part to typically lower costs of infrastructures and venues, far more adaptable arrangements, spatial distribution and time frame for hosting. In these ways, they have already been demonstrating higher flexibility in which to respond to future health and safety constraints. When it comes to the relation to the existing city, cultural mega-events have been planned, implemented, and studied far more than any other. By leveraging the richness of cultural mega-events, this multidisciplinary collection deepens the intersection between events and cultural heritage. The chapters in this book provide a new theoretical framework, critical questions, and relevant case studies to argue that the nexus between mega-events and heritage is a key challenge for many cities in Europe and beyond. The chapters in this book were originally published as a special issue of *European Planning Studies*.

A Companion to the Anthropology of Europe Ullrich Kockel, Máiréad Nic Craith, Jonas Frykman, 2015-12-14 A

Companion to the Anthropology of Europe BLACKWELL COMPANIONS TO ANTHROPOLOGY A Companion to the Anthropology of Europe "The volume also deserves a place on the shelves of academic libraries as well as the larger public library." Reference Reviews "Summing Up: Highly recommended. All academic levels/libraries." Choice "This important collection challenges all anthropologists to re-examine the importance of European perspectives on the most provocative debates of our time. It transcends regional interests to highlight the complex intellectual landscape of our field." Tracey Heatherington, University of Wisconsin, Milwaukee "This significant volume critically interrogates assumptions about Europe as an idea and a place for research. It provides fresh perspectives on the past and future of anthropological studies of Europe." Deborah Reed-Danahay, SUNY at Buffalo, President of the Society for the Anthropology of Europe A Companion to the Anthropology of Europe offers a survey of contemporary Europeanist anthropology and European ethnology, and a guide to emerging trends in this geographical field of research. Utilizing diverse approaches to the anthropological study of Europe, Kockel, Nic Craith, and Frykman provide a synthesis of the different traditions and contemporary practices. Investigating the subject both geographically and thematically, the companion covers key topics such as location, heritage, experience, and cultural practices. Written by leading international scholars in the field, the volume constitutes the first authoritative guide for researchers, instructors, and students of anthropology and European studies.

Becoming Europeans M. Sassatelli, 2009-07-16 In this significant intervention into the academic and institutional debate on European cultural identity, Monica Sassatelli examines the identity-building intentions and effects of the European Capital of Culture programme, and also looks at the work of the Council of Europe and the recent European Landscape Convention.

The Cultural Politics of Europe Kiran Klaus Patel, 2013-06-07 Culture is one of the most complex and contested fields of European integration. This book analyzes EU cultural politics since their emergence in the 1980s with a particular focus on the European Capital of Culture program, the flagship of EU cultural policy. It discusses both the central as well as local levels and contextualizes EU policies with programmes of other European organisations, such as the Council of Europe. By asking what Europe actually means for European cultural policy, the book goes beyond the confines of official organizations and the political sphere, to discuss the contribution, impact and appropriation among a more diverse group of actors and participants, such as transnational experts, local bureaucrats, cultural managers, urban dwellers and the visitors. Its principal aim is to debunk the myth of Brussels as the centre of cultural Europeanization. Instead, it argues that European cultural policy has to be seen as a relational, multi-directional movement, involving a wide variety of stakeholders and leading to conflicts and collaborations at various levels. This book combines the perspectives of political scientists, sociologists, anthropologists and historians, at the intersection between EU, urban, and cultural studies, and changes our

understanding of 'Europeanization' by opening up new empirical and conceptual avenues. Challenging the dominant interpretation of European cultural policies, *The Cultural Politics of Europe* will be of interest to students and scholars of European studies, political scientists, sociologists, anthropologists, geographers, historians and cultural studies.

Transforming Cities Wolfgang Schneider, Kristina Jacobsen, 2019-09 In its over three decades of history, the European Capital of Culture initiative has become an important instrument for cultural urban development. The EU cultural policy guidelines apply in all participating countries -- but the design varies greatly from location to location. This volume reflects the approaches in 18 countries, inside and outside the EU, that have already hosted one or more Capitals of Culture. It conveys the assessments of scholars from various disciplines, and from those responsible for the programme on how art and culture deal with local and regional forms of transformation.

Festivals and Tourism Philip Long, Mike Robinson, 2004 Using a wide range of international cases from a diverse range of festival and events this book provides critical perspectives on the marketing, management and evaluation of festivals and their complex and dynamic relationships with tourism and tourists.

Imperial Imprints Elena Hellberg-Hirn, 2003 The city on the Neva has recently taken back its original name, St. Petersburg. The official strategies for the Tercentenary in 2003 saw the city's potential as being generated by its imperial past. In a series of scholarly essays the author examines the historical background to St. Petersburg's contemporary identifications. Framed mainly in romantic and nostalgic terms, they imprint an idealized Old Imperial Russia onto the post-Soviet city.
