**Fingerprints of the Gods** Graham Hancock, 2025-06-17 Could the story of mankind be far older than we have previously believed? Using tools as varied as archaeo-astronomy, geology, and computer analysis of ancient myths, Graham Hancock presents a compelling case to suggest that it is. Graham Hancock is featured in the popular *Ancient Apocalypse*, a Netflix original docuseries. Hancock structures his arguments through the scientific method. . . . He's asking the right questions. . . . If it's true, then it can significantly change the course of history and our understanding of our civilisations. —Medium In *Fingerprints of the Gods*, Hancock embarks on a worldwide quest to put together all the pieces of the vast and fascinating jigsaw of mankind's hidden past. In ancient monuments as far apart as Egypt's Great Sphinx, the strange Andean ruins of

Tiahuanaco, and Mexico's awe-inspiring Temples of the Sun and Moon, he reveals not only the clear fingerprints of an as-yet-unidentified civilization of remote antiquity, but also startling evidence of its vast sophistication, technological advancement, and evolved scientific knowledge. A record-breaking #1 bestseller in Britain, *Fingerprints of the Gods* contains the makings of an intellectual revolution, a dramatic and irreversible change in the way that we understand our past—and so our future. And *Fingerprints of the Gods* tells us something more. As we recover the truth about prehistory, and discover the real meaning of ancient myths and monuments, it becomes apparent that a warning has been handed down to us, a warning of terrible cataclysm that afflicts the Earth in great cycles at irregular intervals of time—a cataclysm that may be about to recur.

Fingerprints of the Gods Graham Hancock, 1995 An exciting journey of discovery that spans continents and centuries, seeking evidence of humanity's first great civilization.

Magicians of the Gods Graham Hancock, 2015-11-10 Graham Hancock's multi-million bestseller Fingerprints of the Gods remains an astonishing, deeply controversial, wide-ranging investigation of the mysteries of our past and the evidence for Earth's lost civilization. Twenty years on, Hancock returns with the sequel to his seminal work filled with completely new, scientific and archaeological evidence, which has only recently come to light... Near the end of the last Ice Age 12,800 years ago, a giant comet that had entered the solar system from deep space thousands of years earlier, broke into multiple fragments. Some of these struck the Earth causing a global cataclysm on a scale unseen since the extinction of the dinosaurs. At least eight of the fragments hit the North American ice cap, while further fragments hit the northern European ice cap. The impacts, from comet fragments a mile wide approaching at more than 60,000 miles an hour, generated huge amounts of heat which instantly liquidized millions of square kilometers of ice, destabilizing the Earth's crust and causing the global Deluge that is remembered in myths all around the world. A second series of impacts, equally devastating, causing further cataclysmic flooding, occurred 11,600 years ago, the exact date that Plato gives for the destruction and submergence of Atlantis. The evidence revealed in this book shows beyond reasonable doubt that an advanced civilization that flourished during the Ice Age was destroyed in the global cataclysms between 12,800 and 11,600 years ago. But there were survivors - known to later cultures by names such as 'the Sages', 'the Magicians', 'the Shining Ones', and 'the Mystery Teachers of Heaven'. They travelled the world in their great ships doing all in their power to keep the spark of civilization burning. They settled at key locations - Gobekli Tepe in Turkey, Baalbek in the Lebanon, Giza in Egypt, ancient Sumer, Mexico, Peru and across the Pacific where a huge pyramid has recently been discovered in Indonesia. Everywhere they went these 'Magicians of the Gods' brought with them the memory of a time when mankind had fallen out of harmony with the universe and paid a heavy price. A memory and a warning to the future... For the comet that wrought such destruction between 12,800 and 11,600 years may not be done with us yet. Astronomers believe that a 20-mile wide 'dark' fragment of the original giant comet remains hidden within its debris stream and threatens the Earth. An astronomical message encoded at Gobekli Tepe, and in the Sphinx and the pyramids of Egypt, warns that the 'Great Return' will occur in our time...

**Magicians of the Gods** Graham Hancock, 2015-09-10 \*Ten-year anniversary edition with new introduction from the author\* Star Reader Reviews - Captivating, necessary and enlightening. Essential. Wonderfully researched. This book is as good, if not better, than Fingerprints of the Gods. Read this book. Change your perspective. Graham Hancock - star of Netflix's ANCIENT APOCALYPSE - is author of the global bestseller Fingerprints of the Gods. A book which remains an astonishing, deeply controversial, wide-ranging investigation of the mysteries of our past and the evidence for Earth's lost civilization. Magicians of the Gods, the sequel to his seminal work, explores how, at the end of the last ice age, fragments from a giant comet caused a global cataclysm, on a scale unseen since the extinction of the dinosaurs, wiping out an advanced civilization from the earth. Making us a species with amnesia, forced to begin again like children with no memory of what went before. This book is filled with completely new evidence, new travels to the world's most mysterious archaeological sites, new insights based on the latest scientific evidence. The impacts, from the comet fragments (a mile wide approaching at more than 60,000 miles an hour) generated huge amounts of heat which instantly liquidized millions of square kilometers of ice, destabilizing the Earth's crust and causing the global deluge that is remembered in myths all around the world. **Magicians of the Gods** Graham Hancock,2017-01-31 With over 5 million copies sold worldwide of Fingerprints of the Gods, its New York Times bestselling sequel Magicians of the Gods brings new evidence supporting Hancock's thesis that a global cataclysm wiped out a great global civilization. On the heels of the very successful hardcover edition, Hancock returns with this paperback version including three new chapters brimming with recent reporting of fresh scientific advances (ranging from DNA to astrophysics) that substantially support his case. Twenty years ago, Graham Hancock published Fingerprints of the Gods an astonishing, deeply controversial investigation of the mysteries of and the evidence for Earth's lost prehistoric civilization. Twenty years after this massive bestseller debuted, Hancock returns with its sequel, filled with completely new scientific and archaeological evidence. Since 2007, a host of new proof has come to light supporting his theories through new archaeological discoveries. He travels to a wholly different set of ancient sites, including Gobekli Tepe, and brings entirely up to date and exciting material to the table for fans eagerly awaiting more evidence in favor of the prehistoric civilization. And, even more intriguing, he proposes an answer to the one question he could not answer in Fingerprints what caused this civilization to disappear. Magicians is poised perfectly for what his fans want to hear as well as for ushering in a new generation of readers.

**Summary of Graham Hancock's Fingerprints of the Gods** Everest Media,2022-03-20T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The claim that the lower part of the map portrays the Princess Martha Coast of Queen Maud Land Antarctica is reasonable. The geographical detail shown in the lower part of the map agrees with the results of the seismic profile made across the top of the ice-cap by the Swedish-British Antarctic Expedition in 1949. #2 The best evidence suggests that Queen Maud Land, and the neighboring regions shown on the map, passed through a long ice-free period which may not have ended until about six thousand years ago. #3 The Piri Reis map,

which is a genuine document, was made at Constantinople in AD 1513. It focuses on the western coast of Africa, the eastern coast of South America, and the northern coast of Antarctica. It is not possible to pinpoint the earliest date that such a task could have been accomplished, but it seems that the Queen Maud Land littoral may have remained unglaciated for at least 9000 years. #4 The evidence of a lost technology supports and gives credence to many of the other hypotheses that have been brought forward about a lost civilization in remote times. However, no further scientific research has been done into these anomalous early maps.
