Stefan Dollinger

The Written Questionnaire in Social Dialectology Stefan Dollinger, 2015-12-15 Methods of linguistic data collection are among the most central aspects in empirical linguistics. While written questionnaires have only played a minor role in the field of social dialectology, the study of regional and social variation, the last decade has seen a methodological revival. This book is the first monograph-length account on written questionnaires in more than 60 years. It reconnects – for the newcomer and the more seasoned empirical linguist alike – the older questionnaire tradition, last given serious treatment in the 1950s, with the more recent instantiations, reincarnations and new developments in an up-to-date, near-comprehensive account. A disciplinary history of the method sets the scene for a discussion of essential theoretical aspects in dialectology and sociolinguistics. The book is rounded off by a step-by-step practical guide – from study idea to data analysis and statistics – that includes hands-on sections on Excel and the statistical suite R for the novice.

Fifty Years in the Classroom Garnett Reed Boggs, 2011-10-25 Teaching school has undergone a tremendous evolution in the last fifty years. In this memoir the years are chronicled by someone who actually lived and worked through these fifty years. What would it be like to teach with no running water, no electricity, or indoor restrooms. What if you had to walk three or four miles to and from work? Not only have the schools changed, but the expectations of the people who teach have also changed dramatically. As a female how would you like to board in a home and not be considered a lady if you were seen with a man after dark? These are the beginnings of this fifty year memoir and it only grows more engrossing as you continue through the years.
