Heavenly Tyrant (Iron Widow, Book 2) Xiran Jay Zhao, 2024-12-24 Instant #1 New York Times Bestseller CBC bestseller USA Today bestseller Zetian must balance dangerous politics with a new quest for vengeance in the sequel to the #1 New York Times bestseller Iron Widow. Pacific Rim meets The Handmaid's Tale in this blend of Chinese history and mecha science fiction for YA readers. After suffering devastating loss and making drastic decisions, Zetian finds herself on the seat of power in Huaxia, but she has also learned that her world is not as it seems. Revelations about an enemy who dangles one of her loved ones as a hostage force Zetian to share power with a dangerous man she cannot simply depose. Despite their mutual dislike and distrust, the two must work together to take down their common enemy and stoke a revolution against the systems of exploitation that plague their world. However, power is not so easy to wield once seized, and a revolution is not so easy to control once unleashed. As Huaxia's former elites strike back and the common people's fervor for justice turns bloody and paranoid, can Zetian remain a fair and just ruler? Or will she be forced to rely on fear and violence and succumb to her darker instincts in her quest for vengeance and liberation?

Paul Tillich's Theology of the Church Ronald E. Modras,1976 It has been said that no one who reads Paul Tillich can fail to learn from him. But Tillich is not always easily read. Ronald Modras's study, *Paul Tillich's Theology of the Church: A Catholic Appraisal*, opens up Tillich's often esoteric system to non initiates and relates the Christian message to contemporary questions and concerns. It offers a systematic study of what it means to be a Catholic, a Protestant, or a believing Christian today. In this remarkable book, Ronald Modras enters into an extensive Catholic-Protestant dialog with his subject, Tillich, on the theology of the church. His findings are based on an exhaustive study of the sources in Tillich. He also provides a helpful compendium of Catholic thought based on a thorough knowledge of both European and American theology of the church. Modras poses the questions: What is the nature and function of authority, of dogmas, of structures in the church? How can they claim for their origins someone like Jesus who championed freedom? How much reform can any church take? He focuses in on the central nerve of Tillich's theology: the polarity between the symbolic ritualistic embodiment of the Divine (Catholic substance) and the rejection of all attempts to accord these embodiments ultimacy (the Protestant principle). Modras shows that Vatican II went a long way in undermining dogmatic absolutism, and that Catholic theology since Vatican II has gone even further. Madras compares Tillich's stance with that of contemporary Catholic theology of the church and shows how Tillich can be reconciled with Catholic thinkers like Baum, Dewart, Kasper, Kung, and Schoonenberg. He thus not only translates Tillich for a non-theological reading audience, but also clarifies the central difficulty that faces Catholic and Protestant efforts at Christian unity today, demonstrating both the areas of substantive agreement and the areas where difficulties for Christian unity still remain. Hans Kling, in his Foreword to the book, says: In

both its presentation and appraisal Paul Tillich's Theology of the Church constitutes an important contribution to ecumenical understanding.
