J. D. Lees, Marc Cerasini, Marc Lees

The Official Godzilla Compendium J. D. Lees, Marc Cerasini, Marc Lees, 1998 Presents a history of the Godzilla films.

Prehistoric Monsters Allen A. Debus, 2009-12-14 Over centuries, discoveries of fossil bones spawned legends of monsters such as giants and dragons. As the field of earth sciences matured during the 19th century, early fossilists gained understanding of prehistoric creatures such as Tyrannosaurus, Triceratops and Stegosaurus. This historical study examines how these genuine beasts morphed in the public imagination into mythical, powerful engines of destruction and harbingers of cataclysm, taking their place in popular culture, film, and literature as symbols of lost worlds where time stands still.

In Godzilla's Footsteps W. Tsutsui, M. Ito, 2006-07-22 These essays consider the Godzilla films and how they shaped and influenced postwar Japanese culture, as well as the globalization of Japanese pop culture icons. There are contributions from Film Studies, Anthropology, History, Literature, Theatre and Cultural Studies and from Susan Napier, Anne Allison, Christine Yano and others.

24 Declassified: Operation Hell Gate Marc Cerasini, 2009-10-13 Within twenty-four hours a nightmare will be unleashed that could cause the death of untold millions and devastate a great nation. It's a plot being carried out by the unlikeliest of allies. A powerful mole within the deepest reaches of U.S. Intelligence has secretly conscripted the very criminals he's been charged with investigating -- former IRA terrorists, Latino and Asian gang members, Middle Eastern assassins and others -- creating one of the most insidious terrorist networks law enforcement has yet to take down. One man stands between the destroyers and the death tide: Jack Bauer, lone wolf operative for America's brand-new elite Counter Terrorist Unit. But he's three thousand miles from the CTU command center without backup in a strange city, New York. He's been artfully set up and is being hunted by the FBI for the murder of two of its agents. And time's almost up . . .

Japan's Green Monsters Sean Rhoads, Brooke McCorkle, 2018-01-25 In 1954, a massive irradiated dinosaur emerged from Tokyo Bay and rained death and destruction on the Japanese capital. Since then Godzilla and other monsters, such as Mothra and Gamera, have gained cult status around the world. This book provides a new interpretation of these monsters, or kaiju-ū, and their respective movies. Analyzing Japanese history, society and film, the authors show the ways in which this monster cinema take on environmental and ecological issues--from nuclear power and industrial pollution to biodiversity and climate change.

Watching the World Die Mike Bogue, 2023-10-23 During the 1980s, popular fear of World War III spurred moviemakers to produce dozens of nuclear threat films. Categories ranged from monster movies to post-apocalyptic adventures to realistic depictions of nuclear war and its immediate aftermath. Coverage of atomic angst films isn't new, but this is the first book to solely analyze 1980s nuclear threat movies as a group. Entries range from classics such as *The Day After* and *WarGames* to obscurities such as *Desert Warrior* and *Massive Retaliation*. Chronological coverage of the 121 films released between 1980 and 1990 includes production details, chapter notes, and critical commentaries.

1950s Science Fiction Films and 9/11 Melvin E. Matthews, 2007 1950s Cold War-era monsters meet 21st century terrorists: this exploration of sci-fi movies examines the similarities and differences between the political environment and popular culture of two eras. This examination and appreciation of 1950s science fiction films includes behind-the-scenes tales about their production and many quotes from those who produced and starred in the films. The author draws parallels between the Cold War fears of the 1950s and 60s and the constant terrorism alerts of the September 11th era, exploring how the politics and the psychological climate of the times influences and is reflected in this vehicle of popular culture. This book is the first of its kind, studying the pop culture genre in the wake of the September 11th tragedy. It shows that, whatever the era and whatever the challenges and crises confronting America, many entertainment themes remain the same, reflecting their respective times and the relevant issues. For instance, *Godzilla*, the only Fifties-era monster to remain a movie star beyond that era, could be fashioned to reflect whatever issues dominate the times, be they nuclear war in the Fifties when *Godzilla* originated to a Seventies *Godzilla* film about environmental pollution. Conceivably a *Godzilla* for the age of terrorism is possible. *Them!* the 1954 atomic mutation classic, is the spiritual ancestor of the 2002 film *Eight Legged Freaks*. The alien invaders of the Fifties signified a Russian invasion of America, while other films of the genre, such as *Invaders from Mars*, depicted aliens utilizing mind control to manipulate humans to commit acts of sabotage, signifying Communist enslavement. If such a film were made now, such invaders could be seen as terrorist masterminds using human slaves to commit terrorist acts. Finally, several Fifties films depicted the end of the world at a time when Americans expected a nuclear war with Russia. The immediate pre-September 11th era witnessed films presenting galactic threats to mankind's existence (*Independence Day*, *Deep Impact*, *Armageddon*), while the early 2000s witnessed the popularity of the Left Behind Christian films dramatizing the Tribulation period in the Book of Revelation.

Science Fiction America David J. Hogan, 2006 The 22 original essays in this collection examine how issues in particular science fiction films - from 1930's 'High Treason' to 1999's 'The Iron Giant', - reflect and comment on the prevailing issues of their time.

The Legend Returns and Dies Harder Another Day Jennifer Forrest, 2008-08-26 This work examines film series. Some are representative of three periods in American film history--silent cinema, Classic Hollywood cinema, and the post-Classic or New Hollywood cinema. And some are in the tradition of other national cinemas, including those of France, Germany, Hong Kong, Japan and India. The series are examined from a variety of cultural and critical perspectives. In the initial chapter the editor analyzes the series form. Part One examines early cinema, outlining the events and situations after 1907 that allowed early filmmakers to begin creating series based on the complex narratives of popular fiction. Part Two explores the cultural implications of such series as Tarzan, Nancy Drew, and Maisie. Chapters in Part Three analyze James Bond and Star Wars, two of the most widely recognized series in Hollywood history. Part Four examines mid-century Germany's Fridericus and France's Angelique and Caroline. The final part presents studies of the postwar Japanese series Godzilla and Tora-San, the popular Better Tomorrow series from Hong Kong, and several Hindi series from postcolonial India.

The Japanification of Children's Popular Culture Mark I. West, 2009 Godzilla stomped his way into American movie theaters in 1956, and ever since then Japanese trends and cultural products have had a major impact on children's popular

culture in America. This can be seen in the Hello Kitty paraphernalia phenomenon, the popularity of anime television programs like Pokemon and Dragon Ball Z, computer games, and Hayao Miyazaki's award-winning films, such as Spirited Away and Princess Mononoke. The Japanification of Children's Popular Culture brings together contributors from different backgrounds, each exploring a particular aspect of this phenomenon from different angles, from scholarly examinations to recounting personal experiences. The book explains the interconnections among the various aspects of Japanese influence and discusses American responses to anime and other forms of Japanese popular culture.
