

The Elephant In The Brain

Gustav Pollak

The ^AElephant in the Brain Kevin Simler, Robin Hanson, 2017-12-01 This book exposes our unconscious selfish motives, those we're reluctant to discuss or even think about. These motives drive our body language, laughter, and conversation, as well as venerated institutions like art, school, charity, medicine, politics, and religion. You'll never see yourself, or the world, the same again.

Summary of Kevin Simler & Robin Hanson's The Elephant in the Brain Milkyway Media, 2022-10-14 Buy now to get the main key ideas from Kevin Simler & Robin Hanson's The Elephant in the Brain We, the human species, not only act on hidden motives, but we're naturally designed to do so. Our brains are programmed to act in our own interest, even while we are trying hard not to be selfish. That's why our brain often keeps our conscious mind in the dark. The more we ignore our ugly, hidden motives, the easier it is for us to keep them hidden from others, too. Self-deception is a strategic ploy that our brain adopts to disguise our bad behavior, and the key to change is understanding it. In The Elephant in the Brain (2017), writer Kevin Simler and professor Robin Hanson uncover the hidden motives behind our main social behaviors and shed light on unexamined aspects of public life: respected social institutions in which nearly all participants are strategically self-interested, self-deceived, and driven by social signaling.

Summary of Robin Hanson's The Elephant in the Brain Everest Media, 2022-06-10T22:59:00Z Please note: This is a

companion version & not the original book. Sample Book Insights: #1 Humans are not the only species that have complex social lives. Many other animals do as well, and it can be difficult to understand their motives. However, humans do not necessarily hide their motives like other animals do. #2 Social grooming is the act of one primate grooming another. It's been proven to be more about politics than hygiene, as primates spend more time grooming each other than they do grooming themselves. #3 The political function of grooming explains why higher-ranking individuals receive more grooming than lower-ranking individuals. It also explains why primates groom each other, even though they don't need to be conscious of their political motivations. #4 The Arabian babbler is a small bird that lives in the arid brush of the Sinai Desert and parts of the Arabian Peninsula. The males arrange themselves into rigid dominance hierarchies. The alpha male consistently wins in small squabbles with the beta male, who in turn consistently wins against the gamma male.

The Elephant in the Classroom Jo Boaler,2009 15 million adults in England alone struggle with maths, why is this and how can teachers and parents change that with the next generation? This is a practical explanation of what has gone wrong and a positive approach to improving how students of all abilities can learn mathematics.

Lead with Hospitality Taylor Scott,2021-04-27 Across all industries and levels of organizations, one key leadership trait inspires and motivates more than any other: hospitality. We have all encountered inspirational leaders who've helped us, taught us, encouraged us, pushed us to get outside our comfort zones, or motivated us to become the best version of ourselves. What is it about their leadership styles that inspires us to do more for our team and our personal and professional growth? Turns out, we admire these leaders for the same reasons we love our favorite hotels, resorts, restaurants, or bars: How they make us feel is essential. Members of today's workforce—especially millennials and Gen Z—are looking for inspiring environments and work that truly fulfills them. Before anyone is compelled to do anything they first must feel. Speaker, consultant, and hospitality industry veteran Taylor Scott knows that the most effective leaders approach their roles

with heart, emotionally connecting with their team members before attempting to manage them. Scott draws from his two decades in leadership roles at respected hotels, resorts, and restaurants. He distills the principles of gracious hospitality, translating them into actionable leadership lessons which apply in any industry, such as: How making people feel welcome fosters loyalty and keeps workers engaged with an organization's purpose How serving people with empathy and compassion sparks workers' highest productivity How making people feel comfortable encourages exploration, curiosity, and discovery while inviting everyone to lean into their creativity How making people feel significant drives them to deliver their best work He also shares specific, practical steps you can take to put these principles into action. Scott shows how to connect, serve, engage, coach, and inspire your peers, teams, and even your own leaders. Lead with Hospitality is a call to action to connect with people on a human level which ultimately inspires teams, organizations, and companies to go to the next level.
