Rosina Ehmann

Geografía María Victoria Fernández Caso, Raquel Gurevich, 2007

Geographical Reasoning and Learning Sonia Maria Vanzella Castellar, Marcelo Garrido-Pereira, Nubia Moreno Lache, 2021-09-15 This book presents the distinctive theoretical and methodological approaches in geography education in South America and more specifically in Brazil, Chile and Colombia. It highlights cartography and maps as essential tools and provides a meaningful approach to learning in geographical education, thereby giving children and young people the opportunity to better understand their situations, contexts and social conditions. The book describes how South American countries organize their scholar curriculum and the ways in which they deal with geography vocabulary and developing fundamental concepts, methodologies, epistemological comprehension on categories, keywords and themes in geography. It also describes its use in teachers' practices and learning progressions, the use of spatial representations as a potent mean to visualize and solve questions, and harnesses spatial thinking and geographical reasoning development. The book helps to improve teaching and learning practices in primary and secondary education and as such it provides an interesting read for researchers, students, and teachers of geography and social studies.

Interdisciplinary Approaches Toward Enhancing Teacher Education Ramírez-Verdugo, M. Dolores, Otcu-Grillman, Bahar, 2020-10-09 Regardless of the discipline or country, creating quality education is multifaceted. At the center of any schooling practice are the educators, their schools, and the teacher education programs that license them. As the schools and faculties of education strive to provide the best practices to pre-service or in-service teachers, it becomes more critical to increase the quality of teacher education via various means to keep up with the demands of schooling in the 21st century. *Interdisciplinary Approaches Toward Enhancing Teacher Education* provides an overview of how innovation and research experience can enhance teacher education programs with a focus on competencies, skills, and strategies future teachers will need to cope with while teaching students' learning with diversity and facing linguistic, social, and environmental challenges. The book particularly investigates the potentiality of educational technology, innovative techniques, and digital storytelling to enhance education and bilingualism in intercultural contexts and multilingual settings. Covering topics that include performance assessment, teacher training, and professional development, and including many practical and diverse examples, this book is intended for TESOL, second or foreign language learning, and CUL programs and teacher-training

institutions, as well as teachers, researchers, academicians, and students in interdisciplinary areas that include science, history, geography, language learning, bilingualism, intercultural competencies, classroom interaction, gamification, and educational technology.

Handbook of Leisure, Physical Activity, Sports, Recreation and Quality of Life Lía Rodríguez de la Vega, Walter N. Toscano, 2018-05-23 This handbook provides an overview and synthesis of relevant literature related to leisure and recreation, and physical activity and its relationship to quality of life. Divided into two parts, the text presents the analysis of leisure and recreation studies and physical activities and sports, with diverse populations. The first part deals with leisure and recreation in relation to quality of life, with different perspectives on different age groups, ethnic groups, the approach of an Integrated Model of Leisure Well-being focusing on how leisure activities contribute to leisure well-being etc. The second part deals with physical activities and sports in relation to quality of life, discussing the consideration that exercise is good for you, associating physical exercise with other conditions of life in society, its impact on people with disabilities, etc. It is of interest to researchers and students, legislators, educators, providers of leisure services.
