

Man In The Hathaway Shirt

Ira Wood

Hathaway Shirts Douglas Congdon-Martin, 1998 In 1951, an elegant man appeared in a New Yorker magazine advertisement dressed in a Hathaway shirt and wearing an eyepatch, with the slogan The man in the Hathaway shirt. Rarely has a symbol become so identified with a product. This history of the Hathaway shirt begins in 1837 but concentrates on the last half of the 20th century. With 450 color photos and detailed text, the book is a nearly complete chronology of men's shirt fashions.

Adland Mark Tungate, 2007 Adland is a ground-breaking examination of modern advertising, from its early origins, to the evolution of the current advertising landscape. Bestselling author and journalist Mark Tungate examines key developments in advertising, from copy adverts, radio and television, to the opportunities afforded by the explosion of digital media - podcasting, text messaging and interactive campaigns. Adland focuses on key players in the industry and features exclusive interviews with leading names in advertising today, including Jean-Marie Dru, Sir Alan Parker, John Hegarty and Sir Martin Sorrell, as well as industry luminaries from the 20th Century such as Phil Dusenberry and George Lois. Exploring the roots of the advertising industry in New York and London, and going on to cover the emerging markets of Eastern Europe, Asia and Latin America, Adland offers a comprehensive examination of a global industry and suggests ways in which it is likely to develop in the future.

Art and Design in 1960s New York Amanda Gluibizzi, 2021-02-26 Art and Design in 1960s New York explores the mutual influence between fine art and graphic design in New York City during the long decade of the 1960s. Beginning with advertising's creative revolution and its relationship to pop artists, the book traces design and art's developing interest in responses to civic problems such as the proliferation of billboards, navigation through the city's streets and subways, and issues of deteriorating infrastructure. The strategies exploited by these artists and designers resulted in similar approaches to visual imagery and shared techniques for thinking about and responding to the city in which they lived.

MICHIGAN AVENUE, 1951 Wallace J. Gordon, 2005-01-17 One man's memoir about a decade in Chicago. One story that's a hundred stories, about: -- The Great American Novel that never got written-- -- A young writer's introduction to big-agency advertising-- -- Ads and commercials and clients and bosses-- -- Hits and misses and triumphs and catastrophies-- -- A lovely young lady who became a supportive wife and mother-- -- Three young sons who kept both parents hopping-- -- Garrets

and apartments and dream houses in the suburbs-- -- And an interesting look at America in the '50's from a front-row seat in the advertising that helped propel it. How it worked and didn't work, scored and struck out, rewarded and punished, and just about everything else.

Living It Up James B. Twitchell, 2002-04-03 Economic downturns and terrorist attacks notwithstanding, America's love affair with luxury continues unabated. Over the last several years, luxury spending in the United States has been growing four times faster than overall spending. It has been characterized by political leaders as vital to the health of the American economy as a whole, even as an act of patriotism. Accordingly, indices of consumer confidence and purchasing seem unaffected by recession. This necessary consumption of unnecessary items and services is going on at all but the lowest layers of society: J.C. Penney now offers day spa treatments; Kmart sells cashmere bedspreads. So many products are claiming luxury status today that the credibility of the category itself is strained: for example, the name pashmina had to be invented to top mere cashmere. We see luxury everywhere: in storefronts, advertisements, even in the workings of our imaginations. But what is it? How is it manufactured on the factory floor and in the minds of consumers? Who cares about it and who buys it? And how concerned should we be that luxuries are commanding a larger and larger percentage of both our disposable income and our aspirations? Trolling the upscale malls of America, making his way toward the Mecca of Las Vegas, James B. Twitchell comes to some remarkable conclusions. The democratization of luxury, he contends, has been the single most important marketing phenomenon of our times. In the pages of *Living It Up*, Twitchell commits the academic heresy of paying respect to popular luxury consumption as a force that has united the country and the globe in a way that no war, movement, or ideology ever has. What's more, he claims, the shopping experience for Americans today has its roots in the spiritual, the religious, and the transcendent. Deft and subtle writing, audacious ideas, and a fine sense of humor inform this entertaining and insightful book.

A Century of American Icons Mary Cross, 2002-10-30 Dogs eat burritos, camels smoke cigarettes, and frogs drink beer. Welcome to the Century of the Consumer. In the 20th century, Americans were romanced by consumer culture, which in turn reflected the changing attitudes, priorities, and values of the country. This book compiles entries on 100 consumer products—ten per decade—that figured prominently in the rise of consumer culture in the United States, telling the story behind the century's most popular products, slogans, and symbols. A unique format provides glimpses into American popular culture from each decade in the century. In addition to the history of advertising, economics, and the media, students will learn how perceptions of class, gender, and race were conveyed through advertising—and how those perceptions changed from 1900 to 2000. A-Z entries for each decade include bibliographic information on the product, as well as vivid illustrations showing the visual evolution of advertising icons and strategies throughout the century.
