**Border Harms and Everyday Violence** Evgenia Iliadou, 2023-09-11 The Greek island of Lesbos is frequently the subject of news reports on the refugee 'crisis', but they only occasionally focus on the dire living conditions of asylum seekers already present on the island. Through direct experience as an activist in Lesbos refugee camps and detention centres, Iliadou gives voice to those with lived experiences of state violence. The author considers the escalation of EU border regime and deterrence policies seen in the past decade alongside their present impacts. Asking why the social harm and suffering border crossers experience is normalized and rendered invisible, the book highlights the collective, global responsibility for safeguarding refugees' human rights.

*Migration Borders Freedom* Harald Bauder, 2016-09-01 International borders have become deadly barriers of a proportion rivaled only by war or natural disaster. Yet despite the damage created by borders, most people can't - or don't want to - imagine a world without them. What alternatives do we have to prevent the deadly results of contemporary borders? In today's world, national citizenship determines a person's ability to migrate across borders. *Migration Borders Freedom* questions that premise. Recognizing the magnitude of deaths occurring at contemporary borders worldwide, the book problematizes the concept of the border and develops arguments for open borders and a world without borders. It explores alternative possibilities, ranging from the practical to the utopian, that link migration with ideas of community, citizenship, and belonging. The author calls into question the conventional political imagination that assumes migration and citizenship to be responsibilities of nation states, rather than cities. While the book draws on the theoretical work of thinkers such as Ernst Bloch, David Harvey, and Henry Lefebvre, it also presents international empirical examples of policies and practices on migration and claims of belonging. In this way, the book equips the reader with the practical and conceptual tools for political action, activist practice, and scholarly engagement to achieve greater justice for people who are on the move. **Resisting Racial Capitalism** Ida Danewid, 2023-11-30 What does freedom mean without, and despite, the state? Ida Danewid argues that state power is central to racial capitalism's violent regimes of extraction and accumulation. Tracing the global histories of four technologies of state violence: policing, bordering, wastelanding, and reproductive control, she

excavates an antipolitical archive of anarchism that stretches from the favelas of Rio de Janeiro to the borderlands of Europe, the poisoned landscape of Ogoniland, and the queer lifeworlds of Delhi. Thinking with a rich set of scholars, organisers, and otherworldly dreamers, Danewid theorises these modes of refusal as a utopian worldmaking project which seeks not just better ways of being governed, but an end to governance in its entirety. In a time where the state remains hegemonic across the Left-Right political spectrum, Resisting Racial Capitalism calls on us to dream bolder and better in order to (un)build the world anew.

*Queering International Law* Dianne Otto,2017-07-14 Beyond the push in the human rights field to ensure respect for the rights of people with diverse sexual orientations and gender identities, queer legal theory provides a means to examine the structural assumptions and conceptual architecture that underpin the normative framework and operation of international law, highlighting bias and blind spots and offering fresh perspectives and practical innovations.
