Sovereign Wealth Funds and State Immunity Marco Argentini, 2024-10-28 How does the hybrid nature of SWFs affect the application of state immunity to these funds? May an SWF be sued in foreign courts for wrongful acts committed in the course of its investment activities? Can SWF investments be attached by a private creditor seeking to enforce an investment arbitration award against the fund's state of nationality? This monograph addresses these questions from the perspective of the 2004 New York Convention and six selected jurisdictions (US, UK, France, Germany, Italy, China), with the broader aim of highlighting potential new standards for implementation of the state immunity rule to SWFs.

The Changing World Religion Map Stanley D. Brunn, 2015-02-03 This extensive work explores the changing world of religions, faiths and practices. It discusses a broad range of issues and phenomena that are related to religion, including nature, ethics, secularization, gender and identity. Broadening the context, it studies the interrelation between religion and other fields, including education, business, economics and law. The book presents a vast array of examples to illustrate the changes that have taken place and have led to a new world map of religions. Beginning with an introduction of the concept of the "changing world religion map", the book first focuses on nature, ethics and the environment. It examines humankind's eternal search for the sacred, and discusses the emergence of "green" religion as a theme that cuts across many faiths. Next, the book turns to the theme of the pilgrimage, illustrated by many examples from all parts of the world. In its discussion of the interrelation between religion and education, it looks at the role of missionary movements. It explains the relationship between religion, business, economics and law by means of a discussion of legal and moral frameworks, and the financial and business issues of religious organizations. The next part of the book explores the many "new faces" that are part of the religious landscape and culture of the Global North (Europe, Russia, Australia and New Zealand, the U.S. and Canada) and the Global South (Latin America, Africa and Asia). It does so by looking at specific population movements, diasporas, and the impact of globalization. The volume next turns to secularization as both a phenomenon occurring in the Global religious North, and as an emerging and distinguishing feature in the metropolitan, cosmopolitan and gateway cities and regions in the Global South. The final part of the book explores the changing world of religion in regards to gender and identity issues, the political/religious nexus, and the new worlds associated with the virtual technologies and visual media.

Diritto e religione Pierluigi Consorti, 2014-09-01 T00:00:00+02:00 Il diritto ecclesiastico, finora centrato sul rapporto fra

Stato e religioni, deve oggi trovare risposte adeguate alle domande che emergono da un contesto sempre più multireligioso e multiculturale. Concordato, otto per mille, obiezioni di coscienza, insegnamento della religione, matrimonio fra persone dello stesso sesso, simboli religiosi, testamento biologico sono questioni che riguardano non solo le relazioni tra Stato e Chiese, ma anche la libertà delle coscienze e il diritto di ciascuno a essere se stesso. Questa nuova edizione, arricchita con aggiornamenti giurisprudenziali, normativi e bibliografici, propone un primo bilancio della gestione della contemporanea politica ecclesiastica italiana, collocandola nel più ampio spazio europeo.

Migration and Social Protection in Europe and Beyond (Volume 1) Jean-Michel Lafleur, Daniela Vintila, 2020-10-30

This first open access book in a series of three volumes provides an in-depth analysis of social protection policies that EU Member States make accessible to resident nationals, non-resident nationals and non-national residents. In doing so, it discusses different scenarios in which the interplay between nationality and residence could lead to inequalities of access to welfare. Each chapter maps the eligibility conditions for accessing social benefits, by paying particular attention to the social entitlements that migrants can claim in host countries and/or export from home countries. The book also identifies and compares recent trends of access to welfare entitlements across five policy areas: health care, unemployment, family benefits, pensions, and guaranteed minimum resources. As such this book is a valuable read to researchers, policy makers, government employees and NGO's.

La seconda Repubblica AA.VV., 2021-06-14T00:00:00+02:00 Quando nasce la «seconda Repubblica»? Quali caratteri peculiari, in termini di culture politiche, piattaforme programmatiche, processi sociali e istituzionali, contribuiscono al rafforzamento della fase bipolare in Italia? E come se ne spiega il tracollo? Muovendo da questi interrogativi, il volume riflette sulle grandi fratture che hanno segnato un tempo particolare della biografia politica repubblicana, sul superamento dei perimetri partitici tradizionali e sull'apertura di una stagione "nuova" che non ha però sanato - malgrado le attese iniziali - contraddizioni e anomalie del sistema politico italiano, rimasto nel limbo di una estenuante transizione dovuta anche alla perdurante mancanza di legittimazione reciproca tra le forze politiche. Storici e politologi indagano le ragioni per le quali il passaggio dalla dinamica consociativa alla logica dell'alternanza nella guida del Paese non ha coinciso con un processo di ammodernamento dell'architettura istituzionale, quantomeno sul terreno del rafforzamento del principio di governabilità. Dai loro contributi emerge il quadro delle condizioni che sono mancate all'Italia per imboccare il sentiero di una compiuta democrazia "decidente". La riflessione non può ovviamente prescindere dall'approccio di respiro internazionale: tenendo in assoluta considerazione i mutamenti strutturali che dopo il 1989 investono la dimensione pubblica oltre i confini della

penisola, viene quindi esaminato il rapporto che intercorre tra le difficoltà dell'Italia e il ruolo che essa ha giocato sullo scacchiere europeo, come pure sono investigate le dinamiche che incidono sulle relazioni transatlantiche nel momento di passaggio dal vecchio al nuovo sistema politico-partitico. Guardando alla realtà con le lenti dell'oggi, si apre la fase in cui è doveroso approfondire le vicende di una «seconda Repubblica».
