Subtitling Through Speech Recognition Pablo Romero-Fresco, 2020-09-30 Based on sound research and first-hand experience in the field, *Subtitling through Speech Recognition: Respeaking* is the first book to present a comprehensive overview of the production of subtitles through speech recognition in Europe. Topics covered include the origins of subtitling for the deaf and hard of hearing, the different methods used to provide live subtitles and the training and professional practice of respeaking around the world. The core of the book is devoted to elaborating an in-depth respeaking course, including the skills required before, during and after the respeaking process. The volume also offers detailed analysis of the reception of respeaking, featuring information about viewers' preferences, comprehension and perception of respoken subtitles obtained with eye-tracking technology. Accompanying downloadable resources feature a wealth of video clips and documents designed to illustrate the material in the book and to serve as a basis for the exercises included at the end of each chapter. The working language of the book is English, but the downloadable resources also contain sample material in Dutch, French, Galician, German, Italian and Spanish. *Subtitling through Speech Recognition: Respeaking* is designed for use as a coursebook for classroom practice or as a handbook for self-learning. It will be of interest to undergraduate and postgraduate students as well as freelance and in-house language professionals. It will also find a reading public among broadcasters, cinema, theatre and museum managers, as well as the deaf and members of deaf associations, who may use the volume to support future campaigns and enhance the quality of the speech-to-text accessibility they provide to their members.

The Education Invasion Joy Pullmann, 2017-03-14 Most Americans had no idea what Common Core was in 2013, according to polls. But it had been creeping into schools nationwide over the previous three years, and children were feeling its effects. They cried over math homework so mystifying their parents could not help them, even in elementary school. They read motley assortments of "informational text" instead of classic literature. They dreaded the high-stakes tests, in unfamiliar formats, that were increasingly controlling their classrooms. How did this latest and most sweeping "reform" of American education come in mostly under the radar? Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers, and it led to a big tangle of history and politics, intrigue and arrogance. She unwound it to discover how a cabal of private foundation honchos and unelected public officials cooked up a set of rules for what American children must learn in core K-12 classes, and how the Obama administration pressured states to adopt them. Thus a federalized education

scheme took root, despite legal prohibitions against federal involvement in curriculum. Common Core and its testing regime were touted as “an absolute game-changer in public education,” yet the evidence so far suggests that kids are actually learning less under it. Why, then, was such a costly and disruptive agenda imposed on the nation’s schools? Who benefits? And how can citizens regain local self-governance in education, so their children’s minds will be fed a more nourishing intellectual diet and be protected from the experiments of emboldened bureaucrats? The Education Invasion offers answers and remedies.

The Dumbest Generation Grows Up Mark Bauerlein, 2022-02-01 From Stupefied Youth to Dangerous Adults Back in 2008, Mark Bauerlein was a voice crying in the wilderness. As experts greeted the new generation of “Digital Natives” with extravagant hopes for their high-tech future, he pegged them as the “Dumbest Generation.” Today, their future doesn’t look so bright, and their present is pretty grim. The twenty-somethings who spent their childhoods staring into a screen are lonely and purposeless, unfulfilled at work and at home. Many of them are even suicidal. The Dumbest Generation Grows Up is an urgently needed update on the Millennials, explaining their not-so-quiet desperation and, more important, the threat that their ignorance poses to the rest of us. Lacking skills, knowledge, religion, and a cultural frame of reference, Millennials are anxiously looking for something to fill the void. Their mentors have failed them. Unfortunately, they have turned to politics to plug the hole in their souls. Knowing nothing about history, they are convinced that it is merely a catalogue of oppression, inequality, and hatred. Why, they wonder, has the human race not ended all this injustice before now? And from the depths of their ignorance rises the answer: Because they are the first ones to care! All that is needed is to tear down our inherited civilization and replace it with their utopian aspirations. For a generation unacquainted with the constraints of human nature, anything seems possible. Having diagnosed the malady before most people realized the patient was sick, Mark Bauerlein surveys the psychological and social wreckage and warns that we cannot afford to do this to another generation.

The Twilight of the Gothic? Joseph Crawford, 2014-05-15 This book explores the history of the paranormal romance genre; from its origins in the revisionist horror fiction of the 1970s, via its emergence as a minor sub-genre of romantic fiction in the early 1990s, to its contemporary expansion in recent years into an often-controversial genre of mainstream fiction. Tracing the genre from its roots in older Gothic fiction written by and for women, it explores the interconnected histories of Gothic and romantic fiction, from Ann Radcliffe and Jane Austen in the eighteenth century to Buffy, Twilight, True

Blood and The Vampire Diaries in the present day. In doing so, it investigates the extent to which the post-Twilight paranormal romance really does represent a break from older traditions of Gothic fiction – and just what it is about the genre that has made it so extraordinarily divisive, captivating millions of readers whilst simultaneously infuriating and repelling so many others.

Projecting Migration Alan Grossman, Áine O'Brien, 2007 Migration has rapidly become a fundamental component of modern life and increasingly determines who we are and how we define ourselves today. Projecting Migration is a groundbreaking multimedia book/DVD-ROM project that attempts to understand the phenomena of mobility and displacement through essays, films, photography and audio recordings. Contributors have been on the ground in locations as diverse as the US/Mexico border, southern Africa, Lebanon and Ireland, and each chapter is linked with DVD chapters of original footage, resulting in a dynamic account of migrant narratives which circumvent the distorting lens of news journalism. This cross-media collection created in collaboration with the Centre for Transcultural Research and Media Practice at the Dublin Institute of Technology marks a major transdisciplinary contribution to contemporary debates on migration--Publisher's website.

Literature and the Web Robert Rozema, Allen Webb, 2008 Read the technology book that's about the content, not the computer. Literature and the Web is a thoughtful, nuts-and-bolts guide for any English teacher looking for effective tools to boost readers' engagement and improve their responses to literature.

The Play of To Kill a Mockingbird Harper Lee, Christopher Sergel, 1995 In his play, Christopher Sergel has shifted the focus slightly. The result of this shift, I believe, highlights the novel's universal qualities. [He] reminds us...that the issues explored are not those of a 'regional' work of art (as the novel is often categorised) but are of importance in Nottingham, Manchester, Birmingham or wherever the play is seen by an audience. - from Ray Speakman's introduction.

Background Knowledge Douglas Fisher, Nancy Frey, 2009 Why background knowledge? Because the Grapes of Wrath is dry reading if students don't know about the Dust Bowl. Because the Boston Tea Party is a non-event if students don't know loyalists from patriots. Because knowing a triangle has 180 degrees isn't the same as knowing why. Because content-area comprehension depends on it, you and your students need Background Knowledge. Douglas Fisher and Nancy Frey help you develop lasting subject-area understanding with ideas for modeling, guided practice, productive group work, and

Southern Culture John J. Beck,Aaron J. Randall,Wendy Jean Frandsen,2007 From the very beginning the South was different. The source and significance of this difference has been debated and discussed for over 200 years. In recent decades, the demise of the South as a regional culture has frequently been predicted, although now some scholars and journalists are maintaining that it is proving to be remarkably resilient and is actually having an ever greater influence on the broader American culture. Southern Culture examines the origins and evolution of the region's culture and focuses on six key patterns that have defined it: agrarianism, class relations, race relations, gender and family traditions, evangelical Christianity, and political traditions. Southern Culture also explores the products of the culture with major sections on dialect, painting, architecture, pottery, music, literature, and icons and myths. It concludes with essays by each of the authors in which they reflect on where Southern culture is headed. Professors, to see an annotated list of helpful links to accompany Southern Culture, click here Three community college instructors combine their long experience in teaching English, history, and sociology in North Carolina (Vance-Granville Community College) to provide an interdisciplinary introductory text well worth adoption. Beck, Frandsen, and Randall meet well the challenge of merging humanities and social

science approaches to regional studies by examining six focal areas: race, class, politics, family, religion, and agrarianism. ... Highly recommended. - Choice Magazine . . . a scholarly resource that also is fun to read. -- Durham Herald Sun
