*Psychosocial Health and Well-being in High-Level Athletes* Nick Galli, 2019-05-03 The psychological health of competitive athletes is of paramount importance to performance, retention, and well-being in sport, and national governing bodies are increasingly concerned with its promotion. *Psychosocial Health and Well-being in High-Level Athletes* offers students, researchers, and practicing sport psychologists an accessible and rigorous grounding in the manifestations of psychosocial health in athletes, the threats athletes face to their psychosocial health, and the interventions which can be designed to enhance it. Seeking to guide future research and expand professional understanding of psychosocial issues in sport, the book is based on a model of cognitive, emotional, social, and spiritual health. It clearly defines these dimensions in a sporting context before discussing pertinent threats—such as career transitions, injuries and abuse—and interventions, including adversarial growth, life-skill interventions, prevention and organization policy, and mindfulness-based interventions. Providing an innovative and integrated perspective on psychosocial health and well-being in competitive sport, this book is essential reading for upper-level students taking any clinical sport psychology modules, and for sport psychologists, coaches, and administrators working with competitive athletes.

*Emotional and Psychological Abuse of Children* Kieran O'Hagan, 1993

**The Daughters of the Plaza de Mayo** David Moshman, 2006 In the late 1970s some 30,000 Argentines, mostly young men and women thought to have leftist sympathies, were kidnapped and tortured to death by the military government, which denied what was happening. In response, the mothers of the disappeared came together and marched in Buenos Aires at the Plaza de Mayo, demanding week after week that their children be returned or accounted for. Democracy was finally restored, with promises of truth and justice. As memory gave way to historical amnesia, however, and judicial processes to reconciliation, the Mothers of the Plaza de Mayo continued to march. Do not forget, they insisted, do not forgive. Sixty years later, a nonlocalizable electronic agent that calls itself the Daughters of the Plaza de Mayo emerges on the global Network. No one knows what the Daughters are or what they want. They tell horrifying stories from Argentina and elsewhere. They provide seemingly endless lists of victims' names. They invoke El Eternauta, a comic book character from a space beyond time, to press a moral perspective that demands the impossible. They are singular and plural, informative and obscure, irritating, threatening, unclassifiable, and relentless in the pursuit of their agenda, whatever that may be.

**Abuse of social constructs with the help of factions in Veronica Roth's "The Divergent"** Sarah Bukowski, 2022-03-07 Seminar paper from the year 2019 in the subject English Language and Literature Studies - Literature, grade: 2,7, Ernst Moritz Arndt University of Greifswald (Anglophone Literaturwissenschaft), language: English, abstract: In the following, I will show and analyze the system of the factions in *The Divergent* by Veronica Roth and its abuse ruled by the government as well as the system of the factions. I will consider how the factions interact. The relationships between and within the factions are important aspects, too. My term paper should prove that the social construct of society is abused by

the government. Veronica Roth has written a trilogy of this dystopian novel. They are called firstly *The Divergent* (2011), secondly *The Insurgent* (2012) and thirdly *The Allegiant* (2013). My primary source for this paper will be the first edition *The Divergent* so that I can get more into depth while analyzing. Involving all books would exceed the frame of the paper. Moreover, I will use public journals, newspaper, and secondary literature to underline the relevance of the topic for society in recent years. I will also use the novel *The Hunger Games* (2012) written by Suzanne Collins in some cases to find similarities and differences in dystopian, young adult fiction literature. The government abuses its power to control the majority of the population in the fictional future city Chicago. Protagonist in the novel is Beatrice Prior who will take the main space for my citations and arguments in this paper. Her thoughts and actions represent the power and discipline that young adults can show, in this case in literature.
