

Robert Browning Porphyrias Lover

Clyde de L. Ryals

PORPHYRIA'S LOVER Robert Browning, 2017-08-07 Porphyria's Lover is Browning's first ever short dramatic monologue, and also the first of his poems to examine abnormal psychology. In the poem, a man strangles his lover - Porphyria - with her hair. Porphyria's lover then talks of the corpse's blue eyes, golden hair, and describes the feeling of perfect happiness the murder gives him. Although he winds her hair around her throat 3 times to throttle her, the woman never cries out. The poem uses a somewhat unusual rhyme scheme: A,B,A,B,B, the final repetition bringing each stanza to a heavy rest. Robert Browning (1812-1889) was an English poet and playwright whose mastery of dramatic verse, and in particular the dramatic monologue, made him one of the foremost Victorian poets. His poems are known for their irony, characterization, dark humor, social commentary, historical settings, and challenging vocabulary and syntax. The speakers in his poems are often musicians or painters whose work functions as a metaphor for poetry.

The poem opens with a powerful scene of a stormy night, contrasting nature's tumult with the intimate and passionate meeting of Porphyria and her unnamed lover. The chilling climax, where the lover murders Porphyria to preserve a moment of ideal love, invites readers to grapple with complex questions about power, madness, and the nature of affection. Browning's distinctive use of enjambment and rich imagery not only captivates but also serves to enhance the psychological depth of his characters, situating the poem within the Victorian context of exploring the darker aspects of human emotion. Robert Browning's *Porphyria's Lover* . Sabina Alia, 2020-08-20 Robert Browning's *Porphyria's Lover* is not only a poetry of absurdity but also a poetry of mystery. The poem describes the tragic death of Porphyria who is strangled by her lover for whom she can ignore the storms and walks the darkness crossing the boundaries of societal dogma and hierarchy . The confused eccentric lover finds the only way to get her permanently and wins her forever by strangling. The reason behind the murder of Porphyria has remained a mystery and often the readers have to complete the poem with an unanswered question. It was only natural that these changes would affect the traditional religious and social beliefs and conventions, as well. The conventional gender system with its strict hierarchy and role expectations was mostly still intact and sexuality and corporeality were considered to be taboo subjects. Nevertheless, it was exactly this attempt to avoid sexuality and gender topics which led to sometimes excessive discussions about these issues, for example the so called Great Evil of prostitution and related to that the enforcement of the Contagious Disease Acts in the 1860s. These discussions, however, made many Victorians - for example the New Women that formed the basis for the later on emerging feminism - aware of the injustice of the status quo and led to a questioning of the traditional separate spheres ideology. The ideas of womanhood and masculinity had to be discussed and to be adapted to a new age. Although the stereotype of the uptight Victorian lives on until today, the literature of this time - since literature always mirrors the cultural climate of the society in which it came into being - demonstrates the Victorian's interest in gender questions. In this paper Robert Browning will serve as an example for a poet highly aware of these ongoing changes. In his dramatic monologue Porphyria's Lover he takes up the gender issue and deals with femininity, manliness and sexuality. The first chapter of this paper will give some information about the form of the dramatic monologue as a special means to present a person's inner life and furthermore

On the basis of this more general information, the second chapter will have a closer look at the poem itself and will compare the concept of gender roles and the construction of gender relationship designed by Browning with the traditional gender ideology. Robert Browning on Love Stephen Brennan, 2016-02-09 The love affair between Robert Browning and Elizabeth Barrett is one of the Victorian era's most famous romances. It was one of passions, tragedy, illness, and ultimately, endurance. The beginning of their relationship was luckily documented and preserved via their letters, which have been archived at Wellesley College since 1930. While these exchanges are some of the most popular reads for Victorian literature enthusiasts, Robert had more to say about the abstract idea of love. He continued to express his thoughts and feelings on the subject of romance, marriage, familial love and respect, unrequited love, loving thyself, and even friendship. Robert Browning On Love conveniently collects these thoughts, which have been previously published in Browning's poems, plays, and, of course, his letters to his beloved wife, Elizabeth. These include: "Best be yourself, imperial, plain, and true." "Take away love and our earth is a tomb." "I was made and meant to look for you and wait for you and become yours forever." "Love, hope, fear, faith—these make humanity; these are its sign and note and character."
