Impacts of Climate Change on Young People in Small Island Communities Andrew Simmons, 2020-10-27 This book presents a comprehensive overview of the history, definition, causes, effects, impacts and implications of climate change on young people globally, with a focus on Small Island Communities (SIDS) in particular. The text highlights the key problems associated with the impact of climate change on young people in SIDS, specifically its effects on socio-economic development and livelihoods, and explores the need for the development of a new conceptual framework to deal with building the resilience of the adaptive capacity of youth in SIDS. The book analyzes the strengths and weaknesses of the emerging phenomenon of Global Youth Climate Change Movements/Actions, and examines the management/governance challenges associated with the Movement in terms of its operational mechanism, mobilization strategies and its use of social media/technology to mobilize mass action. The text concludes with a recommendation for further research in this area as a way to understand how the Movement functions and its mechanism for implementation of future research.

Landscapes and Landforms of the Lesser Antilles Casey D. Allen, 2017-07-19 This book focuses on the highly touristed, but surprisingly under-researched Lesser Antilles region. After offering a brief overview of the region's geologic and tectonic history, as well as its basic climatology, subsequent chapters then discuss each island's (or island set's) geomorphology and geology, and how the settlement history, tourism, and hazards have affected their individual landscapes. Written by regional experts and replete with up-to-date information, stunning color imagery, and beautiful cartography (maps), it is the only comprehensive, scientific evaluation of the Lesser Antilles, and serves as the region's definitive reference resource. Accessible to non-experts and amateur explorers, the book includes in-depth discussions and reference sections for each island/island set. Usable as both a textbook and guidebook, it offers readers a straightforward yet detailed assessment of an interesting and intriguing - but often-overlooked and under-appreciated - locale.

OECD/G20 Base Erosion and Profit Shifting Project Country-by-Country Reporting - Compilation of Peer Review Reports (Phase 3) Inclusive Framework on BEPS: Action 13 OECD, 2020-10-17 The peer review of the Action 13 Minimum Standard is proceeding in stages with three annual reviews in 2017, 2018 and 2019. The phased review process follows the phased implementation of CbC Reporting. Each annual peer review process will therefore focus on different aspects of the three key areas under review: the domestic legal and administrative framework, the exchange of information framework, and the confidentiality and appropriate use of CbC reports. This third annual peer review report reflects the outcome of the third review which considered all aspects of implementation. It contains the review of 131 jurisdictions which provided legislation or information pertaining to the implementation of CbC Reporting.

Peer Review of the Automatic Exchange of Financial Account Information 2024 Update OECD,2024-11-26 The Global Forum on Transparency and Exchange of Information for Tax Purposes (Global Forum) is a multilateral framework for tax transparency and information sharing, within which over 170 jurisdictions participate on an equal footing. The Global Forum monitors and peer reviews the implementation of the international standards of Exchange of Information on Request (EOIR) and Automatic Exchange of Information (AEOI). The standard on AEOI of financial accounts provides for the automatic exchange of a predefined set of financial account information between tax authorities on an annual basis to assist them in ensuring the correct amount of tax is paid. To ensure it is fully effective, the Global Forum carries out a review of each jurisdiction's domestic and international legal frameworks to ensure they are complete, as well as a review of the effectiveness of their implementation of the standard in practice. The report presents the latest conclusions of the peer reviews of the legal frameworks put in place by jurisdictions. It supplements the legal frameworks assessments and initial reviews of the effectiveness of their implementation in practice published in 2022 and 2023 for over 100 jurisdictions that were first to commit to commence AEOI. It also contains the results of the initial peer reviews on the effectiveness in practice of the implementation of the standard by jurisdictions commencing exchanges in 2020.

Peer Review of the Automatic Exchange of Financial Account Information 2022 OECD,2022-11-09 This report presents the latest conclusions of the peer reviews of the legal frameworks put in place by each jurisdiction to implement the AEOI standard. The results relate to the more than 100 jurisdictions that committed to commence AEOI by 2020.

Sustainable Urbanisation in the Caribbean Eris Dawn Schoburgh, Tracy A. McFarlane, Stephanie V. McDonald,2024-07-31 Sustainable Urbanisation in the Caribbean critically examines the socio-geographic context of island states, prioritising the nuanced experiences of Caribbean island states and territories that are largely considered small island developing states (SIDS), against the backdrop of the UN Sustainable Development Goals (SDGs). Increases in urban density place enormous pressure on existing infrastructures and natural resources, exacerbating social inequalities and environmental risks. While the UN SDGs aim to mitigate these risks, the reality of implementing these goals in the context of SIDS is complex. Whereas Sustainable Urbanisation in the Caribbean does not claim to be a comprehensive assessment of policy responses to the SDGs, this edited volume seeks to generate problem-focused, policy-relevant, demand-driven research, thereby permitting the geographical contexts of island states to contribute to the development of proper causal theory about sustainable urbanisation. This book will be of interest to students of public policy, urban sustainability and climate change, as well as government policy analysts, development practitioners, urban planners and UN agencies working in SIDS.
