The Lost Pre-Raphaelite Nigel Daly,2014-08-11 When the author bought a falling down fortified house on the Staffordshire moorlands, he had no reason to anticipate the astonishing tale that would unfold as it was restored. A mysterious set of relationships emerged amongst its former owners, revolving round the almost forgotten artist, Robert Bateman, a prominent Pre-Raphaelite and friend of Burne Jones. He was to marry the granddaughter of the Earl of Carlisle, and to be associated with Benjamin Disraeli, William Gladstone, and other prominent political and artistic figures. But he had abandoned his life as an artist in mid-career to live as a recluse, and his rich and glamorous wife-to-be had married the local vicar, already in his sixties and shortly to die. The discovery of two clearly autobiographical paintings led to an utterly absorbing forensic investigation into Bateman's life. The story moves from Staffordshire to Lahore, to Canada, Wyoming, and then, via Buffalo Bill, to Peru and back to England. It leads to the improbable respectability of Imperial Tobacco in Bristol, and then, less respectably, to a car park in Stoke-on-Trent. En route the author pieces together an astonishing and deeply moving story of love and loss, of art and politics, of morality and hypocrisy, of family secrets concealed but never quite completely obscured. The result is a page-turning combination of detective story and tale of human frailty, endeavor, and love. It is also a portrait of a significant artist, a reassessment of whose work is long overdue. Nigel Daly is an antique dealer and house restorer.

The Nature of Cities Michael Bennett,David W. Teague,2021-10-12 Cities are often thought to be separate from nature, but recent trends in ecocriticism demand that we consider them as part of the total environment. This new collection of essays sharpens the focus on the nature of cities by exploring the facets of an urban ecocriticism, by reminding city dwellers of their place in ecosystems, and by emphasizing the importance of this connection in understanding urban life and culture. The editors—both raised in small towns but now living in major urban areas—are especially concerned with the sociopolitical construction of all environments, both natural and manmade. Following an opening interview with Andrew Ross exploring the general parameters of urban ecocriticism, they present essays that explore urban nature writing, city parks, urban wilderness, ecofeminism and the city, and urban space. The volume includes contributions on topics as wide-ranging as the

urban poetry of English writers from Donne to Gay, the manufactured wildness of a gambling casino, and the marketing of cosmetics to urban women by idealizing Third World naturalness. These essays seek to reconceive nature and its cultural representations in ways that contribute to understanding the contemporary cityscape. They explore the theoretical issues that arise when one attempts to adopt and adapt an environmental perspective for analyzing urban life. *The Nature of Cities* offers the ecological component often missing from cultural analyses of the city and the urban perspective often lacking in environmental approaches to contemporary culture. By bridging the historical gap between environmentalism, cultural studies, and urban experience, the book makes a statement of lasting importance to the development of the ecocritical movement.

The Man Who Broke Time Alesha Escobar, H.M. Jones, 2023-04-05 Thomas Greenley, "The Time Traveler," is the only person to ever master time with minimal side effects. Until he breaks it. Holding Bev hostage, Malachi Rundin forces Thomas to alter time to obtain a powerful weapon of destruction. Though only Thomas can fix the broken timeline, he doesn't know if he has the strength. Because waiting on the wrong side of that timeline is the love of his life—Pippa. But Thomas's misstep puts his friends in terrible danger—unleashing an old enemy and throwing Faerieland out of balance and into turmoil. In this third installment of the Immortal Brotherhood, Thomas must undo his mistakes and risk everything to put his world and Time itself back into balance. Meanwhile, Trixie must manage her new powers in Faerieland, help her friends flee the destructive ripples in time, and hold back the Faerie Queen's wrath. Will Thomas choose true love or loyalty to time and The Brotherhood? Will Trixie find the good within herself and trust that it will not fail her as it has in the past?

The Years of Rice and Salt Kim Stanley Robinson, 2003-06-03 WINNER OF THE LOCUS AWARD • The bestselling author of the Mars trilogy boldly reimagines the past seven hundred years in this "exceptional and engrossing" (New York Post) saga, constructing a world vastly different from the one we know. . . "A thoughtful, magisterial alternate history from one of science fiction's most important writers."—The New York Times Book Review It is the fourteenth century and one of the most apocalyptic events in human history is set to occur—the coming of the Black Death. History teaches us that a third of Europe's population was destroyed. But what if the plague had killed 99 percent of the population instead? How would the world have changed? *The Years of Rice and Salt* is a look at the history that could have been—one that stretches across centuries, sees dynasties and nations rise and crumble, and spans horrible famine and magnificent innovation. Through the eyes of soldiers and kings, explorers and philosophers, inventors and exiles, renowned storyteller Kim Stanley Robinson navigates a world where Buddhism and Islam are the most influential and practiced religions, while Christianity is a mere historical footnote. Probing the most profound questions as only he can, Robinson shines his extraordinary light on the place of religion, culture, power—and even love—in this bold new world.

The World Bank's Lawyers Dimitri Van Den Meerssche,2022 *The World Bank's Lawyers* gives an original socio-legal account of the evolving institutional life of international law. The Healing of Natalie Curtis Jane Kirkpatrick,2021-09-07 Classically trained pianist and singer Natalie Curtis isolated herself for five years after a breakdown just before she was to debut with the New York Philharmonic. Guilt-ridden and songless, Natalie can't seem to recapture the joy music once brought her. In 1902, her brother invites her to join him in the West to search for healing. What she finds are songs she'd never before encountered--the haunting melodies, rhythms, and stories of Native Americans. But their music is under attack. The US government's Code of Offenses prohibits American's indigenous people from singing, dancing, or speaking their own languages as the powers that be insist on assimilation. Natalie makes it her mission not only to document these songs before they disappear but to appeal to President Teddy Roosevelt himself, who is the only man with the power to repeal the unjust law. Will she succeed and step into a new song . . . and a new future? Award-winning author Jane Kirkpatrick weaves yet another lyrical tale based on a true story that will keep readers captivated to the very end.
