Anthology of Classical Myth/ Eds. S.m. Trzaskoma ... Et Al ,

Anthology of Classical Myth Thomas G. Palaima, 2004 A collection that provides selections from over 50 texts composed between the Archaic Age and the fourth century AD. It represents Ancient interpretation of myth in selections from the allegorists Heraclitus, Cornutus and Fulgentius, the rationalists Palaephatus and Diodorus of Sicily, and the philosophers and historians Plato, and Herodotus.

Anthology of Classical Myth Thomas G. Palaima, 2004-12-15 This volume is designed as a companion to the standard undergraduate mythology textbooks or, when assigned alongside the central Greek and Roman works, as a source-based alternative to those textbooks. In addition to the complete texts of the Homeric Hymns and Hesiod's Theogony, this collection provides generous selections from over 50 texts composed between the Archaic Age and the fourth century A.D. Ancient interpretation of myth is represented here in selections from the allegorists Heraclitus, Cornutus and Fulgentius, the rationalists Palaephatus and Diodorus of Sicily, and the philosophers and historians Plato, Herodotus and Thucydides. Appendices treat evidence from inscriptions, papyri and Linear B tablets and include a thematic index, a mythological dictionary, and genealogies. A thoughtful Introduction supports students working with the primary sources and the other resources offered here; an extensive note to instructors offers suggestions on how to incorporate this book into their courses.

Encyclopedia of Fairies in World Folklore and Mythology Theresa Bane, 2013-09-18 Fairies have been revered and feared, sometimes simultaneously, throughout recorded history. This encyclopedia of concise entries, from the A-senee-ki-waku of northeastern North America to the Zips of Central America and Mexico, includes more than 2,500 individual beings and species of fairy and nature spirits from a wide range of mythologies and religions from all over the globe.

The Archetype of the Dying and Rising God in World Mythology Paul Rovang, 2023-01-09 The Archetype of the Dying and

Rising God in World Mythology is the first global treatment of the dying and rising god archetype since that classification was called into serious doubt in the final decades of the twentieth century. While assaults on the concept have focused on the Classical and ancient Near Eastern (Biblical) traditions, this study goes beyond but also includes these areas to encompass world mythology. Beginning with an interrogation of the most influential criticisms, the author then examines evidence for the archetype's validity by analyzing dying and rising god myths from ancient Near Eastern, Classical, and non-Classical sources from around the world. He treats implications of the archetype for religious studies, literature, and psychology, both in discussing the myths themselves and in separate chapters dedicated to these fields. The focused treatment on single myths makes this book a useful reference source. At the same time, its inductive approach to evidence provides a conclusive argument on the question with applications that warrant reading it from cover to cover. Additional distinctive features of this book include a thematic interpretation of T. S. Eliot's Waste Land, a new perspective on the Jungian archetypes, and a call for a neo-archetypal approach to literary criticism.
