Das saudi-arabische Rechtssystem Alexander Nerz, 2012 Das in Saudi-Arabien anwendbare Recht sind die islamische Scharia und das saudi-arabische Verordnungsrecht. Bestandteile der islamischen Scharia sind Koran und Sunna. Unter Sunna fällt alles, was Prophet Mohammed in eigener Sprache (in Abgrenzung zum Koran, der Sprache Gottes) gesagt, getan und gebilligt hat und was, übermittelt durch vertrauenswürdige Personen, in den Hadith-Sammlungen festgehalten ist. Das Buch behandelt Aspekte islamischen (= saudi-arabischen) Schuldrechts, insbesondere solche, die für den abendländischen Juristen überraschend sein mögen (Bedingungsfeindlichkeit, kein Verkauf von nicht bereits existierenden Gütern, keine Verjährung, kein Schadensersatzanspruch für zukünftig entgangenen Gewinn, Unzulässigkeit unangemessenen Gewinns etc.) unter Heranziehung der Primärquellen. Es befasst sich auch mit islamischem (= saudi-arabischem) Verfahrensrecht und Besonderheiten bei Auslandsbezug. Schließlich wird die Vollstreckbarkeit von Urteilen und Schiedssprüchen, die im jeweils anderen Land ergangen sind, behandelt sowie die daraus sich ergebenden praktischen Konsequenzen für den deutschen Exporteur.

The Warrior Prophet: Muhammad ﷺ and War Joel Hayward, 2023-01-02 Given the Prophet Muhammad's immense impact on history, surprisingly few books specifically analyze his understanding and employment of warfare as an economically, politically and socially transformational process, even though he was continuously at war for a decade and initiated around eighty armed missions, twenty-seven of which he led himself. Most Islamic biographies deal with this issue by using an understandable but insufficient logic: that because Muhammad, as the Messenger of Allah, was the ideal and paradigmatic human, he must have been an ideal and paradigmatic military commander. His successes flowed from his prophetic status and his moral perfection. Following this logic and wanting Muhammad's behavior to conform to very modern ethical concepts

and widespread (but not necessarily accurate) beliefs about the nature and conduct of war, the writers have inadvertently created a narrative which, in significant ways, departs from the account clearly and consistently revealed in the earliest extant Arabic sources. The writers' narrative also removes the Prophet from his historical and cultural context and the realities of the harsh and competitive tribal society in which he lived. Professor Joel Hayward sees this as an unhelpful explanatory tendency and believes that the modern depiction of the Prophet's relationship with warfare -- which presents him as being rather antipathetic to war, indeed as virtually a pacifist who only fought reluctantly in self-defense -- cannot actually be sustained by an even-handed analysis of the early Islamic sources. A committed Muslim himself, Hayward agrees that Muhammad was a moral and decent man who saw peace as a highly desirable state in which humans should live and as a goal worth pursuing. Yet Hayward has approached the Prophet's understanding and employment of warfare from a different vantage point. He has painstakingly scrutinized the earliest Arabic sources impartially according to the strict standards of historical inquiry in order to ascertain whether Muhammad's actions, habits and methods can -- when understood within their original seventh-century stateless Arabian context -- provide any substantial and meaningful insights into the way that he understood and undertook warfare. Hayward concludes that Muhammad was an astute, situationally aware and self-reflective man who created and communicated a believable strategic vision of a necessary and desirable future. That vision persuaded increasing numbers of people to follow him and risk everything willingly in the struggle to create the optimal conditions for their survival, security, and prosperity. In a competitive and conflictual environment with ubiquitous threats, warfare was necessary to make real the bold new world that he foresaw. Through original, meticulously researched and rigorous analysis, Hayward covers all the raids and campaigns and demonstrates that Muhammad correctly understood the necessity and utility of force and duly developed into an intuitive, effective and victorious military practitioner who developed and enforced a strict moral code so as to attain his goals whilst safeguarding the innocent. This engaging, accessible yet deeply scholarly book makes a major contribution to strategic and military analysis and to the Prophet's biography.

Islamic Banking and Financial Crisis Habib Ahmed, 2013-12-16 Examines the resilience of Islamic banking during the global financial crisis and lessons for risk management. Do Islamic financial institutions perform better than their conventional counterparts during periods of financial stress? To what extent do systems for managing risk have to be adapted for Islamic financial institutions, given the unique characteristics of their assets and liabilities and the need for shari'ah compliance? These issues have come to prominence since the global financial crisis of 2007-8 and the subsequent recession, and are addressed in this book. The challenges for Islamic financial institutions are explored in an international post Basel II system where banks are required to have more capital and liquidity. Governance issues are also examined, given their influence on client and investor perceptions and their ultimate implications for institutional stability and sustainability. Offers an in-depth assessment of how Islamic banks weathered the financial crisis and what lessons can be

learnt. Asks whether Islamic banks are inherently more stable than conventional banks during periods of economic stress. Examines how Islamic banks manage risk, focusing on liquidity risk and the use of forward contracts to mitigate currency risk. Appraises the work of internal shari'ah audit units and the use of shari'ah reports to reduce non-compliance risks. Features case studies from the Gulf, Malaysia, the UK, Pakistan, Turkey and GCC countries.

Introduction to Islamic Marital Counseling Imam Abdul-Rahman Yaki, 2018-03-17 The imam calls upon contemporary literature in the fields of marriage and counseling as well as his own insights from years of experience as an imam and counselor for the Muslim community. The Rights of Women in Islam Asgharali Engineer, 2008 Women's issues continue to dominate the Islamic world in particular, as there has been a very gradual change in the status of women in the Islamic world as a whole. This book covers various aspects relating to the status of women in the pre-Islamic period -- customs and -traditions, forms of marriage, divorce and forms of divorce, dower, traditions regarding slave-girls, and so on. It then goes on to deal with the status of women in the post-Islamic period -- the Qur'anic concept of women's rights in marriage, divorce, inheritance, custody of children, polygamy, maintenance, property, right to earn, etc. It quotes extensively from the Qur'an and Sunnah. It also deals with the Arab adaat, that is, pre-Islamic customs and traditions regarding women. Altogether, it attempts to arm Muslim women with Islamic arguments for their empowerment. The author, a renowned scholar, has sought to set the record straight by reinterpreting women's rights in the true Qur'anic spirit. He argues quite convincingly that the Holy Book gives equal rights to both the sexes, and it does not discriminate between them as regards personal, democratic and human rights. The question whether in a secular society Muslim personal law needs any change, and, if so, in which direction the reform should be undertaken is dealt with in detail. This third edition contains a chapter: 'On a Muslim Woman Leading the Congregational Prayer'. This chapter deals with the important aspect of Muslim women's problems and also hopes to further enhance their understanding of the Shari'ah issues.

The Life and Works of Ibn Hajar Al-Asqalani Aftab Ahmad Rahmani, 2000 On the life and works of Ibn Ḥajar al-ʿAsqalānī, Ahmad ibn ʿAlī, 1372-1449, historian from Egypt.

Bulugh Al-Maram, 1996-01 Bulugh Al-Maram (attainment of the objective according to the evidence of the ordinances) is based upon the Ahadith of our Prophet which have been the sources of Islamic Jurisprudence. Al-Hafiz Ibn Hajar Al-Asqalani has recorded the true significance of the Ahadith and their origins & also made a comparison of the versions, if the sources are more than one.
