*Communication Skills for Nursing Practice* Catherine McCabe, Fiona Timmins, 2013-11-06 Nurses need highly developed skills in order to communicate sensitively and collaboratively, across a wide range of media, with patients, clients, and colleagues from a variety of backgrounds. This textbook offers a comprehensive introduction to essential communication skills with an emphasis on practical application within modern healthcare settings. Supporting students and practitioners in developing a patient-centred and therapeutic framework for communication, it features research from a wide range of healthcare contexts, and provides exercises and action plans to help nurses integrate psychological and healthcare communication theory into their day-to-day professional practice. Renowned for its clear, accessible and engaging guidance, this is an indispensable textbook for all undergraduate nursing students. New to this Edition: - A new chapter on collaborative communication - New material on diversity - Revised and updated throughout to provide contemporary case studies, the latest literature, original theories and models, and skills development

**Fundamentals of Assessment and Care Planning for Nurses** Ian Peate, 2019-10-07 All nursing students are required to meet the seven standards produced by the Nursing & Midwifery Council (NMC) before being entered onto the professional register. *Fundamentals of Assessment and Care Planning for Nurses* addresses two of these important standards, helping readers become proficient in assessing patient needs, and planning, providing and evaluating care. This timely publication adopts a practical approach with NMC proficiencies at its core, providing guidance and insight into the application of key skills and demonstrating competency in real-life settings. Centres around a fictitious nuclear family to provide a practical basis to the various chapters and assessment Offers mnemonics to enable comprehensive history taking and systematic physical assessment Helps readers address socio-cultural considerations they may face in practice Includes links to literature that provides further support and additional information *Fundamentals of Assessment and Care Planning for Nurses* is an important resource for pre-registration nursing students and Nursing Associates who are required to demonstrate proficiency in the new NMC standards, and other registered practitioners seeking to update their knowledge.

*The Student's Guide to Becoming a Nurse* Ian Peate, 2012-07-23 The Student's Guide to BECOMING A NURSE The Student's Guide to Becoming a Nurse is an essential guide for all student nurses who want to become competent practitioners. It explores the knowledge, skills and attitudes that all pre-registration nursing students must acquire by the end of their programme of study, enabling them to become confident, successful nurses. Thoroughly re-written and updated to include the latest 2010 NMC standards for pre-registration nursing education, this invaluable textbook is divided into four key sections: Professional values Communication and interpersonal skills Nursing practice and decision making Leadership, management and team working With case studies, top tips, activities and questions throughout, The Student's Guide to Becoming a Nurse is ideal for all pre-registration nurses and those about to qualify. Student Reviews "It's been designed for students and that's why I like it... it is student friendly, useful, easy to read." Tamara Thomas, 2nd year nursing student, Swansea University "I cannot fault the content - it is straight to the point, it provides some interesting resources for a student nurse that is essential for them to know... a joy to read." Faye Elliott, 2nd year nursing student, Keele University "I think the content and material is excellent... I will definitely be making recommendations to my friends." Leanne Curran, 2nd year nursing student, University of Ulster "This book is truly amazing and provided all of the information needed for my final exam to become a qualified nurse. I passed with flying colours, thanks." Amazon review

*Principles & Practice of Psychiatric Nursing* Gail Wiscarz Stuart, Sandra J. Sundeen, 1995 Principles and Practice of Psychiatric Nursing, 8th Edition provides comprehensive coverage of psychiatric nursing. Beginning with fundamental coverage of all key psychiatric nursing principles, it goes on to address the complete continuum of care - including mental health promotion and illness prevention, crisis intervention, and psychiatric rehabilitation and recovery. The book then applies psychiatric nursing principles to specific clinical disorders based on adaptive-maladaptive coping responses, the six-step nursing process, and DSM-IV-TR and NANDA diagnoses. Subsequent chapters describe various modalities of treatment (psychopharmacology, somatic therapies, cognitive and behavioral therapies, managing aggressive behavior, and more),

hospital-based and community-based care, and treatment of special populations.

Foundations of Nursing Barbara Lauritsen Christensen, Elaine Oden Kockrow, 2003 An ideal companion text to Adult Health Nursing, this clearly-written, colorful, and attractively-designed resource has all the fundamentals and skills - maternal and neonatal, pediatric, geriatric, mental health, community, and leadership content - needed to educate LPN/LVNs. Used together, these two texts provide all the content covered in the entire LPN/LVN curriculum. Skills for a wide range of nursing care are presented in a straightforward, step-by-step format with nursing actions and rationales clearly defined. Clinical Pathways are discussed and explained. Nursing Care Plans include critical thinking questions and are developed around specific case studies with an emphasis on patient goals and outcomes. The nursing process is applied consistently and logically to the discussion of disorders, and appears in complete summary form at the end of applicable chapters. Nursing Diagnoses paired with disorder-appropriate Nursing Interventions are screened and highlighted. Therapeutic Dialogue boxes focus on communication through real-life examples of nurse-patient dialogue. Patient Teaching boxes examine discharge instructions and health promotion for patients and families. Home Health Considerations boxes discuss issues facing patients and caregivers in the home care setting. Older Adult Considerations boxes bring a gerontologic perspective to the analysis of specific disorders. Cultural and Ethnic Considerations boxes teach students about specific cultural preferences and how to address the needs of cultural diversity when planning nursing care. Medications tables

provide quick access to action, dosage, precautions, and nursing considerations for commonly used drugs.
