Will the Real Antichrist Please Stand Up! Bill Cicansky, 2021-04-27 Finally, the truth is revealed! In every generation, people have asked the question, Who is the Antichrist? Can we identify who he is? Does the Word of God have that answer? There has been much speculation over the hundreds of years who that person is or might be. Finally, a compelling and revealing eye-opener who the real Antichrist is, Will the Real Antichrist Please Stand Up! Just as my literary agent, Paul, who started me on this journey by always saying, Enjoy the adventure of publishing a book, I trust you will enjoy the truth of this book as much as I have had in writing it.

Meaning and purpose of life Nishkam S. Agarwal, 2015-06-11 Meaning and Purpose of Life are perhaps the most thought about, if not talked about, issues on the planet since human beings have walked on earth. This book is another attempt to understand the Meaning and Purpose of Life using the ideas of Vedanta in Indian philosophy, and of mainstream economics. Starting from first principles, Dr. Agarwal explores the core concept of Brahman in Vedanta, and builds an axiomatic foundation for understanding the meaning and purpose of life using the fundamental ideas of the Prasthanas, and in particular of The Bhagavad Gita and The Principal Upanishads. Dr. Agarwal adheres to the philosophy of Karma Yoga as his chosen area of interest for the exploration of meaning and purpose, which allows him to seek linkages between the concepts of social welfare in Vedanta and economics. Ideas of lokasamgraha in Indian philosophy and of externalities in economics provide a clear common ground between the two apparently disparate disciplines. Throughout the book, he emphasizes simple practical approaches for making life more meaningful and happier, while relying fundamentally on the basic ideas of Vedanta.

BOY Ernest Jordan, 2024-12-01 Don't be nice, boys, be a good monster In the grey streets of Plymouth during the 80s and 90s, Judas Nobody is a born outsider, dealing in petty theft and forged sicknotes. When a chance to become a pro footballer comes about, he rejects the offer and dives headlong into a life of hedonism, all while grappling with his own ideas in a world

determined to box him in. In this candid and darkly humoured coming-of-age, the ultimate rebellion is against conformity itself, conformity to senseless work, conformity to not cheat or commit a crime or refuse someone's God, and conformity to what it is to be a man, even if it means losing your mind in the doing.

Essays in Social Theory Jan-Erik Lane ,2024-01-08 It is possible to present a brief summary of the subjects that the chapters in this book focus on. The mind-body problem receives new attention, partly under the inspiration from the success of quantum mechanics. Here I will discuss reductionism. The mind-body problem remains central to modern philosophy, no doubt stimulated by the progress in brain research. Following Thomas Nagel's article on bats, one may similarly examine one of history's champions. I will also deny reduction or physicalism, though my argument is very much simpler than Chalmers (1996). One may argue that modern social theory must be relevant for political science. But modern social theory has a strong inclination towards subjectivism: is this relevant for political theory? I do not think so, because subjectivism is in reality a philosophical position, consisting of a theory of epistemology for the social sciences which is not only wrong but borders on nonsense. Modern subjectivism, or as it is somewhat ludicrously called: 'post-modernism', is basically the ambition to crush what is called 'objectivism', by launching a special version of 'subjectivism', i.e. a theory regarding what social science knowledge is all about. Thus, subjectivism is an argument for a new epistemology for any kind of social theory, including political science, replacing the major objectivist arguments of the 20th century. Philosophy of science pays meagre attention to the social sciences and humanities. It deals with basic questions in the natural sciences like Hempel, or general epistemology like e.g. Putnam and Kripke. Popper is the main exception. In the 21st century there is a new debate about so-called Western values. The beliefs of the occidental countries are attacked, as concealing contempt for other countries, spoken of as orientalist, Muslim or Buddhist. Yet, Western philosophy can only be equivalent to "OCCIDENTALISM" when focused upon truth, truth telling and freedom of choice. The analytical-synthetic distinction keeps being of great interest. But why? Analytical sentences are camouflaged tautologies. They are not falsifiable, neither in this Kant's world or in any of Leibniz' possible worlds. The 21st century will most probably be the last one for mankind. First, the threat of nuclear confrontation is imminently present in the Ukraine war, where with escalation, it becomes global. Second, global warming will make life unbearable. There is no strategically viable way out of the heating up of the planet, as every state cheats. Now, we have 425 ppm.

Bull*T** Steven Elliott,2015-01-07 Our beautiful World is full of lies. Why? Why do people feel such a desperate need to cling to lies, untruths and fantasy? Is the World not beautiful enough without filling it with falsehoods? Over the centuries many men and women have written many thousands of books explaining and supporting lies. In all fairness, the majority of those authors have undoubtedly believed the lies of which they wrote. But that does not excuse the pernicious spreading of lies. I believe it is time that we came out of the dark and entered the light. And I propose to do my bit to lift the veil through this small work. Men and women have been permitted down the ages to spread lies and misinformation. Am I not allowed to endeavor to spread some truth?
