**Order and Rebellion in Tribal Africa** Max Gluckman, 1963 These essays are mainly concerned with the development of some of Max Gluckman's ideas about African politics. He regarded frequent rebellions to replace incumbents of political offices (as against revolutions to alter the structure of offices) as inherent in these politics. Later he connected this situation with modes of husbandry, problems of the devolution of power, types of weapons and the law of treason. He advanced to a general theory of ritual, as well as to general propositions about the position of officials representing conflicting interests within a hierarchy, typified by the African chief under colonial rule. Originally published in 1963.

**Kill it to Green it** Soumik Chakraborty, 2020-10-01 To what extent can you go to save your planet from global warming, save something for generations to come? The planet is burning and an Indian has decided to take actions about it. However, where does he start? He decides to start with the facilitators, who are milking away money by killing our planet. So, the police force are up against a serial killer who is killing all the high-profile entrepreneurs whose industries are polluting India, and on the bigger picture, the world. The police nicknames him as the Green man, based on his love for a greener planet. Parallely, this story is also about Akash Bose, an IIT IITian who left his highly paid Office job to pursue his dreams of being a private detective but his portfolio is still limited to nuptial loyalty investigations. He falls for a beautiful married woman, Damini, who is actually using Akash to get divorce from her hugely popular media reporter husband. As if love life problems were not enough, Akash accidentally becomes the media face of the serial killer police investigation, which is led by police Inspector, Rajiv Bakshi. Akash gets deeply involved in the cat and mouse game between the serial killer and law. In his first homicide investigation case, he is up against the righteous serial killer who can go to all limits for a greener planet. To give the rookie detective a fair chance and obviously for the fun of it, Green man starts sending him clues about the next murder. If Akash and Rajiv can decode the letters in time, they might be able to save a life but if they are late, the future of the Earth becomes a bit greener. The story maintains its pace through the twisted motivations of every individual involved with the case and holds a handful of nasty surprises.

**Alive and Kicking** Annie Langlois, 2004 The goal of this work is to describe the changes occurring in the Pitjantjatjara speech of teenagers in Areyonga, a Central Australian community, from both a grammatical and a sociolinguistic point of view. The study is based on data collected in 1994 and 1995. At the time the data was being collected, the Areyonga

community had about 200 inhabitants, more than half of them under 25 years of age. A key question of this work is the extent to which Areyonga Teenage Pitjantjatjara is being influenced by contact with English. In order to identify changes in Areyonga Teenage Pitjantjatjara, contemporary speech was compared with several independent descriptions of Traditional Pitjantjatjara (and similar neighbouring dialects). Personal observations of the author and discussions with older Pitjantjatjara people at Areyonga help to round out the picture obtained. The Areyonga population is predominantly young. Most of the older people have left the settlement to return to their community of origin. As a result, many traditional ways of living have not been transmitted fully to the following generation. However there is an undeniable striving to reintegrate traditions into the community and the teaching of the children. Consequently, there is a constant effort to educate children in their first language. What then is the state of Areyonga Teenage Pitjantjatjara? This book aims to answer this question.

Intimate Partner Femicide Bethany Wilkinson, Susan Goodwin, 2024-12-11 Domestic violence legislation is a key response to the entrenched social problem of intimate partner violence across the globe, yet little is known about the legal players who implement these laws in terms of their perceptions of intimate partner violence and femicide. Through in-depth, critical analysis of judicial transcripts, this book demonstrates that legal understandings of intimate partner femicide continue to be based upon outdated notions of 'couple conflict' and gender-neutral constructions of intimate partner violence. Contending that judicial understandings of 'what happened' must be re-aligned with feminist understandings of intimate partner violence and femicide, *Intimate Partner Femicide: Contesting the Legal Story ...* represents a call to uphold the rights of women to live free from male-perpetrated violence and femicide. This book will therefore appeal to scholars across the social sciences with interests in gendered violence, law, social justice and criminology.
