Craig Murray, Leissa Pitts

Fat Lives Irmgard Tischner, 2013 Ever caught somebody - or yourself - checking out the content of a 'fat' person's supermarket trolley? Ever wondered what lies behind this behaviour, or what it might be like to be at the receiving end of this judging gaze? Within the context of the current 'obesity debate', this book investigates the embodied experience of 'being large' from a critical psychological perspective. Using poststructuralist and feminist theories, the author explores the discourses available to and used by self-designated 'fat' individuals, as well as the societal power relationships that are produced by these. Using the issues of body size and 'fat' as an illustration, the book describes the benefits of exploring psychological and social matters from a poststructuralist perspective, and the dangers inherent in taking reductionist approaches to public health and other social issues. As such, this book should be of particular interest to anyone working within the disciplines of psychology, sociology, and health studies, as well as those involved in the study of health, gender issues and appearance.

The Lucky Country Eamon Evans, 2023-11-28 The happy accident that created wi-fi. The well-placed piece of coral that saved the Endeavour from sinking. The karaoke night that launched Kylie's singing career. Australia may be known as 'the lucky country', but just how accurate is that description? Turns out, very. From the Gold Rush to Stephen Bradbury, our history is full of times when lady luck made a spectacular appearance. Now, Eamon Evans dives deep to deliver the most hilarious, fascinating tales of the Australians who were almost too lucky to be believed.

Teaching Cultural Skills Maribel Blasco, 2009 Today, a 'cultural' dimension is increasingly being taught at universities as a supplement to disciplines that have not traditionally paid much attention to culture. Universities are competing to produce graduates with a 'global mindset' who are well equipped to cope in multicultural, team-oriented workplaces. Yet the way in which culture is taught is bound to differ depending on the context in which the teaching takes place. Current research on teaching cultural skills tends to favor a social constructivist approach where actors are seen as constructing collective means of sense-making in the arenas and groups in which they participate. Teachers, who are often very keen to promote tolerance, empathy, and intercultural dialogue, often support such an approach, but it can be a challenge to transfer this to teaching, especially in interdisciplinary contexts. *Teaching Cultural Skills* explores these challenges based on experiences from Danish universities. Its broader themes make it highly relevant for teachers of culture elsewhere. These

themes include the globalization of labor markets and trade; immigration, which has led to increased awareness of the need for cultural skills; and the internationalization of higher education, which has made classrooms more multicultural than ever before.~

Don't Call Me Baby Cara Finegan,2025-10-28 Katy's life will forever change when her new boyfriend, Brian, assaults her after a prayer meeting, one that was supposed to help her to stay 'good'. Her guilt, shame and the blame she suffers after this ordeal, pushes Katy towards a completely new path. Instead of letting this horrific incident make her a victim, Katy vows to get revenge, not only on her boyfriend but on anyone trying to coerce or manipulate women. Unfortunately for some, Katy doesn't do things by halves. Katy's respectable job as the principal of a primary school, her polite, composed manner and her seemingly perfect family life with her two daughters and husband prove a worthy screen for her crusade. Katy's intimate stream of consciousness, sometimes moral, reveals the dark wit of a woman who maintains her light and breezy attitude to life whilst leaving in her wake the perfect storm - the ideal multi-tasking femme fatale. When the opportunity arises for Katy to meet up again with Brian, it's inevitable that she tells him the truth. They have a daughter. Katy's nonchalant attitude contrasts starkly with the vicious ends that befall her victims. But her story, and events, will take a shocking turn

Community Psychology Jim Orford,2008-02-19 This book is both a sequel to and expansion of Community Psychology, published in 1992. It serves as a textbook for courses on community psychology but now also includes material on inequality and health, since both are concerned with the way an individual's social setting and the systems with which they interact affect their problems and the solutions they devise. Part 1 sets the scene by locating community psychology in its historical and contemporary context. In Part 2, disempowered groups and their physical and mental health are considered. Finally in Part 3 the application of community psychology is discussed, and the ways in which marginalised people can be helped by strengthening their communities highlighted.

Transcultural Counselling in Action Patricia D'Ardenne,Aruna Mahtani,1989 Can a counselor's or client's culture affect the counseling process? Should counselors confine themselves to counseling only those from their own culture? *Transcultural Counselling in Action* offers a new approach to the counseling process that addresses the problems often posed by cultural differences. Drawing on examples from community groups, liaison and advocacy workers, mental health specialists, and from professionals already working with other cultures, this practical volume walks the counselor through the transcultural counseling process. Main themes are summarized, the response of professionals to the process are evaluated, and the implications for counseling in a multicultural society are addressed. With so little literature existing on transcultural counseling, this volume will serve as an essential guide to anyone working with groups or individuals from other cultures. The book serves its purpose well, in terms of both the transcultural issues highlighted and the handling of issues arising in the process of transcultural counseling. --Contemporary Psychology The fundamental assumptions made by the authors . . . are evident throughout the book and highlight the need for the reader to question their personal stance on these issues. This

in itself is a useful exercise for the transcultural counsellor. . . . This book meets its aim of providing guidelines of good practice in counselling. --New Community
