Plato

The Apology of Socrates Plato, 1901

Apology By Plato, 2019-06-15 *Apology* is Plato's version of the speech given by Socrates as he defended himself in 399 BC against the charges of corrupting the young, and by not believing in the gods in whom the city believes, but in other daimonia that are novel. Socrates begins by telling the jury that their minds were poisoned by his enemies when they were young and impressionable. He says his reputation for sophistry comes from his enemies, all of whom are envious of him, and malicious. He says they must remain nameless, except for Aristophanes, the comic poet. He later answers the charge that he has corrupted the young by arguing that deliberate corruption is an incoherent idea. Socrates says that all these false accusations began with his obedience to the oracle at Delphi. He tells how Chaerephon went to the Oracle at Delphi, to ask if anyone was wiser than Socrates. When Chaerephon reported to Socrates that the god told him there is none wiser, Socrates took this as a riddle. He himself knew that he had no wisdom great or small but that he also knew that it is against the nature of the gods to lie. Socrates then went on a divine mission to solve the paradox (that an ignorant man could also be the wisest of all men) and to clarify the meaning of the Oracles' words. He systematically interrogated the politicians, poets and craftsmen. Socrates determined that the politicians were imposters, and the poets did not understand even their own poetry, like prophets and seers who do not understand what they say. Craftsmen proved to be pretentious too, and Socrates says that he saw himself as a spokesman for the oracle (23e). He asked himself whether he would rather be an impostor like the people he spoke to, or be himself. Socrates tells the jury that he would rather be himself than anyone else.

Science, Technology and Modernity Kavita S. Jerath, 2021-10-26 This book provides a full scale description and discussion of science, technology, society, cross-cultural communication and modernity and is presented at a level that makes it accessible to the interested academic. Starting with the historical overview, the text outlines the relevance of technology today and in the future. Then follows an introduction to the discovery and invention by agricultural, feudal, capitalist and socialist systems, and conversely the ways in which science and technology has altered economic, social, and political beliefs and practices during industrial revolutions and have transformed the whole nature of human society. Tracing the relationship between science and technology from dawn to civilization to the twenty first century, the book argues that technology is applied science and vice versa and this phenomenon emerged relatively recently, as industry and governments began funding

scientific research that would lead to new technologies. The book goes beyond technology by also describing the path from modernity to post modernity and discussing the theories of modernity. Further the internet and social media receive increased attention as well. Finally, the discussion turns to the future structure of society and gender equality, expected to have a more distributed future generation, thereby addressing the synergies between education system, globalization and cross-cultural communication. This book is designed as the primary general textbook for Engineers at the undergraduate level in any university. This course is a multidisciplinary elective course from emerging areas in the 4- year institution and is a required course in most universities.

Direct Internal Quotation in the Gospel of John Jeffrey M. Tripp, 2019-08-02 Do the characters in the Gospel of John quote and re-quote each other, even important sayings of Jesus? Jeffrey M. Tripp examines this often overlooked feature of the Fourth Gospel in the contexts of first century pedagogy and literature, as well as early Christian tradition and practices.-- Pg. 4 of cover.

Plato and the Power of Images , 2017-07-20 Plato is well known both for the harsh condemnations of images and image-making poets that appear in his dialogues and for the vivid and intense imagery that he himself uses in his matchless prose. Through their resemblance to true reality, images have the power to move their viewers to action and to change themselves, but because of their distance from true reality, that power always remains problematic. Two recurrent problems addressed here are how an image resembles what it represents and how to avoid mistaking that image for what it represents. Plato and the Power of Images comprises twelve chapters on the ways Plato has used images, and the ways we could, or should, understand their status as images.

Platonic Questions Diskin Clay, 2007-10-08 The dialogue has disappeared as a mode of writing philosophy, and philosophers who study Plato today often ignore the form in which Plato's work appears in favor of reconstructing and analyzing arguments thought to be conveyed by the content of the dialogues. A distinguished classicist here offers an approach to understanding Plato that tries to do full justice to the form of Platonic philosophy, appreciated against the background of Greek literature and history, while also giving proper due to the important philosophic content of the dialogues. The book deals in turn with Plato's relation to and portraits of Socrates, the literary and philosophical character of the dialogues (including the problems of interpreting a philosopher who never speaks in his own name), and the modes of argumentation employed in the dialogues as well as some of their major themes.

The Pedagogic Mission Elly Pirocacos, 2015-03-18 The Pedagogic Mission offers a focused pedagogic exegesis of the philosophies of Heraclitus, Parmenides, Socrates and Plato. Encrypted in their philosophical practices is a pedagogical mission which structures their manner of engagement. The linguistic style, epistemological assumptions, and metaphysical views are shown to be integral to the neophytes' pedagogical experience involving the acquisition of rational skills, an

enhanced conceptual framework of understanding, and transformative effect on the subject.

Meno Plato,1998-03-01 This is an English translation of Plato's Socratic dialogue attempting to achieve a definition of virtue that applies equally to all particular virtues and serves as a great introduction to Socratic dialogues. It contains a short introduction, notes, standard Stephanus numbers, speech numbers, and an appendix containing a unique gallery of step-by-step geometrical diagrams. It also includes illustrations, a bibliography, and a glossary. Focus Philosophical Library translations are close to and are non-interpretative of the original text, with the notes and a glossary intending to provide the reader with some sense of the terms and the concepts as they were understood by Plato's immediate audience.

Apology Plato,Benjamin Jowett,2014-07-21 The Apology is Plato's version of the speech given by Socrates as he defended himself in 399 BC against the charges of corrupting the young, and by not believing in the gods in whom the city believes, but in other daimonia that are novel. Apology here has its earlier meaning of speaking in defense of a cause or of one's beliefs or actions. The general term apology, in context to literature, defends a world from attack.

The Relation of Dogmatism and Scepticism in the Philosophical Treatises of Cicero Margaret Young Henry,1925

Mountain and Wilderness Paul T. Coke,1978 From a dozen inspiration points of the past, the author here presents guidance for prayer and worship life in the present age. The ancient world of the Greeks, the experiences of the Israelites, the songs of the Shepherd, the worship in the Temple, the teaching and example of Jesus, the lives of the first Christians, the fiery ordeals of Rome--all contribute to the modern person's heritage. In each age worship has a double-barreled character--both a withdrawing to be apart with God and a cry for help from the midst of life. Suggestions for further thought relating each chapter to one of the historic prayers for Lent make the book adaptable for group as well as individual reading. -- Back Cover

Apology (Annotated) Plato,2015-10-19 In what relation the Apology of Plato stands to the real defence of Socrates, there are no means of determining. It certainly agrees in tone and character with the description of Xenophon, who says in the Memorabilia that Socrates might have been acquitted 'if in any moderate degree he would have conciliated the favour of the dicasts;' and who informs us in another passage, on the testimony of Hermogenes, the friend of Socrates, that he had no wish to live; and that the divine sign refused to allow him to prepare a defence, and also that Socrates himself declared this to be unnecessary, on the ground that all his life long he had been preparing against that hour.
