*History of Art* Horst Woldemar Janson, Anthony F. Janson, 2004 For forty years, this widely acclaimed classic has remained unsurpassed as an introduction to art in the Western world, boasting the matchless credibility of the Janson name. This newest update features a more contemporary, more colorful design and vast array of extraordinarily produced illustrations that have become the Janson hallmark. A narrative voice makes this book a truly enjoyable read, and carefully reviewed and revised updates to this edition offer the utmost clarity in contributions based on recent scholarship. Extensive captions for the book's incredible art program offer profound insight through the eyes of twentieth-century art historians speaking about specific pieces of art featured throughout. Significantly changed in this edition is the chapter on "The Late Renaissance," in which Janson offers a new perspective on the subject, tracing in detail the religious art tied to the Catholic Reform movement, whose early history is little known to many readers of art history. Janson has also rearranged early Renaissance art according to genres instead of time sequence, and he has followed the reinterpretation of Etruscan art begun in recent years by German and English art historians. With a truly humanist approach, this book gives written and visual meaning to the captivating story of what artists have tried to express—and why—for more than 30,000 years.

**Caravaggio** Lilian H. Zirpolo, 2023-04-05 Michelangelo Merisi da Caravaggio's life was turbulent and short. He was only in his late thirties when he died and yet he managed to achieve tremendous artistic success. A native of Caravaggio, near Milan, he was born in 1571 and moved to Rome after training with Simone Peterzano, a pupil of Titian. In the papal city, his talent was recognized by the influential collector and art connoisseur Cardinal Francesco Maria del Monte, who promoted his art. Within a few years Caravaggio became one of the most sought-after painters in Italy and abroad. His style was so striking and unique that artists from all over adopted it as their own. *Caravaggio: A Reference Guide to His Life and Works* focuses on his life, his works, and legacy. It features a chronology, an introduction offers a brief account of his life, a cross-referenced dictionary section contains entries on his individual paintings, public commissions his patrons, his followers, and the

techniques he used in rendering his works.

**Space, Image, and Reform in Early Modern Art** Arthur J. DiFuria, Ian Verstegen, 2021-11-08 The essays in Space, Image, and Reform in Early Modern Art build on Marcia Hall's seminal contributions in several categories crucial for Renaissance studies, especially the spatiality of the church interior, the altarpiece's facture and affectivity, the notion of artistic style, and the controversy over images in the era of Counter Reform. Accruing the advantage of critical engagement with a single paradigm, this volume better assesses its applicability and range. The book works cumulatively to provide blocks of theoretical and empirical research on issues spanning the function and role of images in their contexts over two centuries. Relating Hall's investigations of Renaissance art to new fields, Space, Image, and Reform expands the ideas at the center of her work further back in time, further afield, and deeper into familiar topics, thus achieving a cohesion not usually seen in edited volumes honoring a single scholar.

**Michelangelo Merisi Da Caravaggio 1571-1610** Eberhard König, 1998 Some artists feel a strong compulsion to depict what is coarse and ugly, yet develop out of these elements both passion and power - even a kind of peculiar magnificence, which has grown out of a particular feeling or disposition. Accordingly, whilst the resulting picture may not strike a viewer as edifying, it frequently creates a very powerful and moving impression.

Art & Accounting Basil S. Yamey, Professor Basil Yamey, 1989-01-01 This unusual and abundantly illustrated book discusses a wide collection of paintings and other arts, from 1400 to 1900, that include the image of an account book. Throughout, and particularly in the concluding chapter, the author considers other connections between accounting, art, and history: the

The Paintings of Hendrick Ter Brugghen, 1588-1629 Leonard Joseph Slatkes, Hendrik Terbrugghen, Wayne E.

Franits, 2007 *The Paintings of Hendrick ter Brugghen (1588-1629)*, is the first major study of this important early seventeenth-century master since Benedict Nicolson's classic monograph of 1958. It comprises two chapters that explore ter Brugghen's development as an artist and the reception of his work among contemporaries, followed by a truly monumental catalogue raisonné of ter Brugghen's 89 authentic paintings, 54 pictures associated with the artist and/or his workshop, 141 rejected works, 42 lost works, and lastly, 10 drawings that have been linked to ter Brugghen directly or related to his paintings. Already celebrated during his lifetime, and avidly collected by elite cognoscenti in the Dutch Republic and abroad, ter Brugghen executed a dazzling variety of paintings, ranging from Bible subjects and saints, to fascinating mythological images, as well as scenes of daily life, including musicians. Although his knowledge of paintings by Caravaggio that he had seen during his early sojourn in Rome always remained acute, these experiences were continually tempered by his awareness of older Northern European artistic traditions and conventions, with the result that ter Brugghen created pictures whose subject matter and style are fascinating, and at times, unique. Until his untimely death in August of 2003, Leonard J. Slatkes was Distinguished Professor of Art History at Queens College of the City University of New York, NY. He was an internationally renowned expert on the art of the Dutch Caravaggisti, to whom he had devoted many essays, books, and exhibition catalogues. Slatkes had begun conducting research on ter Brugghen's paintings in the 1960's, with the expectation of eventually publishing a new monograph on the artist. Wayne Franits, a former student of Slatkes's, is currently Professor of Fine Arts at Syracuse University, Syracuse, NY. He has authored numerous publications on seventeenth-century Dutch and Flemish art.
