The Pastures of Heaven John Steinbeck, 1995-04-01 A Penguin Classic In Nobel Prize winner John Steinbeck's beautifully rendered depictions of small yet fateful moments that transform ordinary lives, these twelve early stories introduce both the subject and style of artistic expression that recur in the most important works of his career. Each of these self-contained stories is linked to the others by the presence of the Munroes, a family whose misguided behavior and lack of sensitivity precipitate disasters and tragedies. As the individual dramas unfold, Steinbeck reveals the self-deceptions, intellectual limitations, and emotional vulnerabilities that shape the characters' reactions and gradually erode the harmony and dreams that once formed the foundation of the community. This edition includes an introduction and notes by James Nagel. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

*The Short Story Cycle* Susan Mann, 1989 This guide is an excellent beginning for the study of a little-recognized genre and will be needed by all academic libraries. Choice During the 1970s many distinguished writers began experimenting with the short story cycle, a literary form that achieved prominence in the early decades of the century through such works as James Joyce's *Dubliners* and Sherwood Anderson's *Winesburg, Ohio*. Despite the growing interest of both writers and readers, no theoretical work has been done on this genre in the past ten years. *The Short Story Cycle* provides a wide-ranging survey of the subject, offering detailed analyses of nine classic short story cycles and an annotated listing of over 120 others, many by contemporary authors. In addition, the introduction includes a history of the genre and its related forms as well as a discussion of conventions associated with the cycle. Short story cycles by Joyce, Anderson, Hemingway, Steinbeck, Faulkner, Welty, O'Connor, and Updike are described in individual chapters. These works illustrate the genre's diversity and vitality, ranging from cycles that are explicitly related through chronology, plot, and character to collections that reveal subtler, implicit unities. The author looks at the ways different writers use repeated or developed characters, themes, myth, imagery, setting, point of view, and plot or chronology to create the sense of a larger whole. Chapter bibliographies supply information on relevant critical writings as well as biographical and autobiographical materials. The volume concludes with an annotated listing of important twentieth-century short-story cycles by American, British, European, Canadian, Australian, Polish, Soviet, and Latin American writers.
